Sweet Demotion Lonn Friend, 2011-04-26 In his first book *Life on Planet Rock* author Lonn Friend shared his ringside view of rock's decade of decadence Now in *Sweet Demotion* the veteran rock scribe takes off the gloves and battles himself Lonn was enjoying a six figure multi media career in 1998 when at the end of a four year run as a record company VP he was bitch slapped by the Universe his professional ride came to a crashing pause But instead of hiring headhunters or putting a resume together to find another gig Lonn hit the rock and roll road less traveled The result is a brutally transparent shamelessly self

deprecating mid life memoir of a writer who stopped making money and started seeking truth Sweet Demotion chronicles a thirteen year period of personal deconstruction spiritual madness and bizarre anecdotal wordplay where faith was lost in everything but the moment and the music Lonns intimate adventure invites the reader to a porn burial in the desert a Janis Joplin ghost sighting a Dallas meditation on the anniversary of JFKs assassination following the interview of a heavy metal legend and the sharing of sacred space on a northeast lake with the lead singer of Aerosmith Sweet Demotion is a sojourn to near enlightenment that no one but Lonn Friend could have possibly experienced

How We Decide Jonah Lehrer,2010-01-14 The first book to use the unexpected discoveries of neuroscience to help us make the best decisions Since Plato philosophers have described the decision making process as either rational or emotional we carefully deliberate or we blink and go with our gut But as scientists break open the mind s black box with the latest tools of neuroscience they re discovering that this is not how the mind works Our best decisions are a finely tuned blend of both feeling and reason and the precise mix depends on the situation When buying a house for example it s best to let our unconscious mull over the many variables But when we re picking a stock intuition often leads us astray The trick is to determine when to use the different parts of the brain and to do this we need to think harder and smarter about how we

think Jonah Lehrer arms us with the tools we need drawing on cutting edge research as well as the real world experiences of a wide range of deciders from airplane pilots and hedge fund investors to serial killers and poker players Lehrer shows how people are taking advantage of the new science to make better television shows win more football games and improve military intelligence His goal is to answer two questions that are of interest to just about anyone from CEOs to firefighters How does the human mind make decisions And how can we make those decisions better National Hotel Review ,1923
