## **Luz Y Contraluz De Una Historia Antropológica:**

**Luz y contraluz de una historia antropológica** Eduardo Hourcade, Cristina Godoy, Horacio L. Botalla, 1995 La historia cultural (2.a Edición) Justo Serna Alonso, Anacleto Pons Pons, 2013-02-06 Cultura es cualquier creación material o inmaterial realizada por los seres humanos es todo artificio lo que nos separa de la naturaleza lo que nos protege recubre o reprime. Hablamos pues de elaboraciones que sirven para construir un entorno humano o para destruirlo. Pero la cultura es también un repertorio de códigos lo que nos forma y deforma los marcos de nuestras acciones los significados de nuestros actos. La historia cultural estudia el pasado de esos artificios y de esos códigos su permanencia o las causas de su desaparición. Analiza también su sentido y su funcionamiento. Como se escribe la historia cultural. El presente libro una reedición ampliada y revisada de la celebrada monografía publicada a os atrás aborda el estudio de las diferentes escuelas y corrientes que han configurado esta disciplina en la segunda mitad del siglo XX con sus principales protagonistas sus obras sus metodologías sus influjos y sus objetos. Concebido como un viaje y un rastreo este volumen nos lleva de Princeton a París de los Annales al giro lingüístico de Jacques Le Goff a Peter Burke de Carlo Ginzburg a Natalie Zemon Davis de Roger Chartier a Robert Darnton. Concebido como un enigma y una pesquisa este libro revela las afinidades personales y los lugares de la historia cultural sus ecos en España sus influencias y persistencias. Corrientes teóricas en antropología Carlos Reynoso, 2015-08-28 Este libro examina críticamente las principales teorías de la cultura de los últimos años del siglo XX y las que se están elaborando la etnografía multisituada neo posmoderna las múltiples encarnaciones del evolucionismo y el retorno insólito de la etnografía boasiana puesta al día por las epistemes de Foucault y por un espeso sentimiento de corrección política. El autor interroga también formulaciones más clásicas ligadas a la interpretación simbólica al estructuralismo y a la deconstrucción deteniéndose en la experiencia fallida de la Nueva Etnografía. Esta exploración se completa con una crónica de las numerosas antropologías fenomenológicas desde la apropiación del empirismo trascendental y las búsquedas historicistas de la comprensión hasta los improbables relatos de Carlos Castaneda exactamente igual de verdaderos que los de Lobsang Rampa. Antropología política Georges Balandier, 2004 **Lectura y contralectura en la Historia de la Lectura** Alejandro Parada, 2020-06-02 Los escritos reunidos en este libro consideran uno de los temas más relevantes de la Historia de la Cultura Escrita el notable desarrollo que ha tenido la Historia de la Lectura en los últimos años. Abordar esta realidad no solo implica el análisis de una de las manifestaciones de la Nueva Historia Cultural sino ante todo el estudio de las representaciones las prácticas las apropiaciones y usos que hicieron las y los lectores de los textos a lo largo del tiempo. Con el presente libro Lectura y contralectura en la Historia de la Lectura Alejandro E. Parada pretende realizar una introducción a la temática y al mismo tiempo presentar una guía de dicha disciplina en lengua española tanto para el mundo académico como para el ámbito pedagógico y además diseñar una obra dirigida a quienes investigan o se interesan por esta materia en la diversidad interdisciplinar de las Ciencias Sociales. Tal como se señala en la Introducción titulada Con toda la Historia de la Lectura más allá de la Historia

de la Lectura los escritos que integran el volumen van mutando dialcticamente a partir de la definici n e identidad de este campo para luego pasar revista a sus aspectos ambivalentes y a los distintos avatares y paisajes en la Historia de la Lectura Finalmente se concluye con una serie de interrogantes te ricas filos ficas existenciales biol gicas naturales metaf sicas y epistemol gicas que invitan al debate y a la discusi n sobre esta apasionante cartograf a lectora en constante y vital construcci n

**Euro-orientalism** Ezequiel Adamovsky,2006 Drawing from a range of critical perspectives in particular postcolonial this book examines the relationship between perceptions of Russia and of Eastern Europe and the making of a Western identity It explores the ways in which the perception of certain characteristics of Russia and Eastern Europe whether real or attributed was shaped by and used for the construction of a liberal narrative of the West which eventually became dominant The focus of this inquiry is French culture from the beginning of the debate about Russia among the philosophes c 1740 to the consolidation of a professional field of Slavic studies c 1880 A wide range of writing literature travel accounts histories political tracts scientific journals and parliamentary debates is examined through the work of major authors from Montesquieu Diderot and Rousseau to Tocqueville de Maistre and Guizot from Mme de Sta l Hugo and Balzac to Dumas Michelet and Comte as well as that of many less well known figures The book also explores possible continuities between those first academic accounts of Russia and Eastern Europe and present day scholarship in Europe and the USA to show that the liberal ideological accounts constructed in the nineteenth century still to a great extent inform contemporary academic studies
