

Critical Analysis of Twain's on the Decay of the Art of Lying

"Lying is universal – we all do it. "

In the essay, the author believes that all men lie because we must lie. There are many instances wherein men were prompted to lie at some point of their lives for the benefit of others. According to him, it's better to give a good lie than a destructive truth. Lying for other's advantage was given precedence than telling the truth at all times no matter how it hurts. Unfortunately, lying is easily covered with different alibis and given little thought of how destructive it might become on the long run. Twain considers lying as a noble art. It is the fourth grace and an eternal virtue. "Judicious lying is what the world needs," he said. He'd sometimes think that it's better not to lie if the lie will be destructive to others. For him, a habitual truth-teller [someone who speaks truthfully at all times] doesn't exist and had never existed. The author gives us a simple look on how lying had become the fad of his generation. Even in the tiniest of things, people tend to lie. It goes to show that many are pretentious and still is today. However, the author overlooks one thing. True – a lie for the good of another might be reasonable – but lying will always be lying. Truth hurts indeed but a lie hurts even more when unveiled. As far as God is concerned, liars go to hell. A small lie can lead people to the lake of fire. Of course, God forgives sins. He forgives lying, too, so long as the person will repent from it. Avoiding lies might be hard to do with all the deception and temptation going on around but it's not impossible. Fearing to tell the truth means that you're afraid of what will happen to you. In order to protect one's self from being punished or from hurting others, lying becomes the scapegoat. Eventually, it develops into a habit and you become a 'master' at it. For Twain, he is still a newbie in this game. He would like for this art to be cultivated in the forms of charitable and unselfish lying. Again, lying is always and has always been a manifestation of selfishness. Lastly, uttering lies won't disappear in the years ahead but it's elevation as a virtue might need some thinking. It is an agonizing fact that some think the same way as Twain does. The difference is that he (Twain) was able to voice out his opinions in a very artistic way through his writing while other people don't care that much. This essay is an eye opener for all the people in this world about the art of lying. This form of art encompasses race, gender and culture. Different punishments await the liar but that never abolished it altogether. As long as people continue to let lies surround them, this art won't be decaying soon. "For the sin of their mouth and the words of their lips let them even be taken in their pride: and for cursing and lying which they speak. " Psalm 59:12 KJV

philosophy and psychology It will be an essential reference for students and researchers in these fields and will contribute to establishing the vibrant new field of interdisciplinary lying research Augustine's Theory of Signs, Signification, and Lying Remo Gramigna, 2020-01-20 The aim of this study is to present as far as possible a general description of the theory of the sign and signification in Augustine of Hippo 354 430 AD with a view to its evaluation and implications for the study of semiotics Accurate studies for subject discipline and significance have not yet given an organic and systematic vision of Augustine's theory of the sign The underlying aspiration is that such an endeavour will prove to be beneficial to the scholars of Augustine's thought as well as to those with a keen interest in the history of semiotics The study uses Augustine's own accounts to investigate and interpret the philosophical problem of the sign The focus lies on the first decade of Augustine's literary production The *De dialectica* is taken as the terminus ad quo of the study and the *De doctrina christiana* is the terminus ad quem The selected texts show an explicit engagement with poignant discussion on the nature and structure of the sign the variety of signs and their uses Although Augustine's intention never was to establish a theory of meaning as an independent field of study he largely employed a theory of signs Thus Augustine's approach to signs is intrinsically meaningful

Splendide Mendax Edmund P. Cueva, Javier Martínez, 2016-05-05 Scholars for centuries have regarded fakes and forgeries chiefly as an opportunity for exposing and denouncing deceit rather than appreciating the creative activity necessary for such textual imposture But should we not be more curious about what is spurious Many of these long neglected texts merit serious reappraisal when considered as artifacts with a value beyond mere authenticity We do not have to be fooled by a forgery to find it fascinating when even the intention to deceive can remind us how easy it is to form beliefs about texts The greater difficulty is that once beliefs have been formed by one text it is impossible to approach the next without preconceptions potentially disastrous for scholarship The exposure of fraud and the pursuit of truth may still be valid scholarly goals but they implicitly demand that we confront the status of any text as a focal point for matters of belief and conviction Many new and fruitful avenues of investigation open up when scholars consider forgery as a creative act rather than a crime We invited authors to contribute work without imposing any restrictions beyond a willingness to consider new approaches to the subject of ancient fakes and forgeries The result is this volume in which our aim is to display some of the many possibilities available to scholarship when the forger is regarded as splendide mendax splendidly untruthful [CRC Handbook of Lie Group Analysis of Differential Equations, Volume III](#) Nail H. The Philosophy and Practice of Medicine and Bioethics Barbara Maier, Warren A. Shibles, 2010-11-03 This book challenges the unchallenged methods in medicine such as evidence based medicine which claim to be but often are not scientific It completes medical care by adding the comprehensive humanistic perspectives and philosophy of medicine No specific or absolute recommendations are given regarding medical treatment moral approaches or legal advice Given rather is discussion about each issue involved and the strongest arguments indicated Each argument is subject to further critical analysis This is the same position as with any philosophical medical or scientific view The argument that decision making in medicine is inadequate unless grounded on a philosophy of medicine is not meant to include all of philosophy and every philosopher On the contrary it includes only sound practical and humanistic philosophy and philosophers who are creative and critical thinkers and who have concerned themselves with the topics relevant to medicine These would be those

philosophers who engage in practical philosophy such as the pragmatists humanists naturalists and ordinary language philosophers A new definition of our own philosophy of life emerges and it is necessary to have one Good lifestyle no longer means just abstaining from cigarettes alcohol and getting exercise It also means living a holistic life which includes all of one's thinking personality and actions This book also includes new ways of thinking In this regard the Metaphorical Method is explained used and exemplified in depth for example in the chapters on care egoism and altruism letting die etc *The Post-Truth Era* Ralph Keyes, 2004-10-03 Dishonesty inspires more euphemisms than copulation or defecation This helps desensitize us to its implications In the post truth era we don't just have truth and lies but a third category of ambiguous statements that are not exactly the truth but fall just short of a lie Enhanced truth it might be called Neo truth Soft truth Faux truth Truth lite Deception has become the modern way of life Where once the boundary line between truth and lies was clear and distinct it is no longer so In the post truth era deceiving others has become a challenge a game a habit High profile dissemblers compete for news coverage from journalists like Jayson Blair and professors like Joseph Ellis to politicians of all stripes executives and creative accountants Research suggests that the average American tells multiple lies on a daily basis often for no good reason Not a finger wagging scolding The Post Truth Era is a combination of Ralph Keyes's investigative journalism and solid science The result is a spirited exploration of why we lie about practically everything and the consequences such casual dishonesty has on society American society has become permeated from top to bottom by deception Its consequences for the nature of public discourse media business literature academia and politics are profound With dry humor passionate fervor and deep understanding Ralph Keyes takes us on a tour of a world where truth and honesty are no longer absolutes but mutable fluid concepts **The Lie That Is Lincoln** Stephen Miklosik M.D., 2012-05-10 This book describes the unnecessary actions of Abraham Lincoln in causing and pursuing the greatest American crime of the nineteenth century the American Civil war and secondly its cover up by his cabinet and all the sycophantic historians following My extensive reading on the Civil War and visiting the Gettysburg battlefield left me aghast as to the number of soldiers the cream of American manhood were sacrificed and wasted upon the numerous battlefields 600 000 plus more dead than all American wars combined Yet historians pass this off as justifiable homicide and a small price to pay to achieve freedom for four million slaves To me this is sheer blasphemy According to the philosophical principles espoused by Jean Jacques Rousseau John Locke Thomas Hobbes etc the Thirteen Colonies claimed their natural right to declare their independence from the Mother Country Britain and establish their own right to self determination The Declaration of Independence beginning When in the Course of human Events it becomes necessary for one People to dissolve the Political Bands which have connected them with another etc says it all Interestingly Texas used almost identical language in their declaration to be free from Mexico But when the South had the audacity to declare these same fundamental rights an enraged Lincoln denied it to them thereby plunging the nation in the worst case of fratricide the world has ever known through his
