, Performing the Pied-Noir Family Aoife Connolly, 2020-10-16 The impact of the Algerian War 1954 1962 continues to resonate in France where the subject was long repressed in the collective psyche This book sheds new light on a memory community at the heart of the conflict the million European settlers known as the pieds noirs who migrated to France as the war reached its bloody end Aoife Connolly draws on theories of performativity to explore autobiographical and fictional narratives by the settlers in over 30 canonical and non canonical works of literature and film produced from the colony s imminent demise up to the present day Connolly focuses on renewed attachment to the family in exile in a comprehensive analysis of settler masculinity femininity childhood and adolescence that uncovers neglected representations including homosexual and Jewish voices Findings on the construction of a post independence identity and collective memory have broader implications for communities affected by colonization and migration Scholars of French Studies Postcolonial Studies Cultural Studies Gender and Identity Studies Memory Studies and Migration Studies will find this book particularly useful

Algeria: Tableau de la situation des établissements français dans l'Algérie en 1837-54. Journal des opérations de l'artillerie pendant l'expédition de Constantine, Oct. 1837. Tableau de la situation des établissements français dans l'Algérie précédé de l'exposé des motifs et du projet de loi, portant demande de crédits extraordinaires au titre de l'exercice ,1855

**Decolonization and the French of Algeria** Sung-Eun Choi, 2016-01-26 In 1962 almost one million people were evacuated from Algeria France called these citizens Repatriates to hide their French Algerian origins and to integrate them into society This book is about Repatriation and how it became central to France s postcolonial understanding of decolonization the Algerian past and French identity *Telecollaboration in Foreign Language Learning* Mark Warschauer, 1996

**Writing French Algeria** Peter Dunwoodie, 1998-11-26 Writing French Algeria is a groundbreaking study of the European literary discourse on French Algeria between the conquest of 1830 and the outbreak of the Algerian War in 1954 For the first time in English this intertextual reading reveals the debate conducted within Algeria and between colony and metropole that aimed to forge an independent cultural identity for the European settlers Through astute discussions of various texts Peter Dunwoodie maps the representation of Algeria both in the dominant nineteenth century discourse of Orientalism via the literature of writers such as Gautier or Fromentin and in the colonial writing of Louis Bertrand Robert Randau and the Algerianists who played a critical role in the construction of the new Algerian Dunwoodie shows how this ultimate construction relied on an extremely selective process which marginalized the indigenous people of the Maghreb in order to rediscover the country s Latin roots The book also focuses on the dialogism operative in the works of colonial Algerian writers like Gabriel Audisio Albert Camus and Emmanuel Robl s interrogating the way in which their voices countered the closure of those earlier strategies and yet still articulated the unresolvable dilemma of an inherently unstable and impermanent minority whose identity remained grounded in otherness *A Writer's Topography*

Jason Herbeck, Vincent Grégoire, 2015-08-25 A Writer's Topography examines French Algerian Nobel Prize laureate Albert Camus's intimate yet often unsettled relationship with natural and human landscapes Much like the Greek hero Sisyphus about whom he wrote his famous philosophical essay Camus sustained a deep awareness of and appreciation for what he termed *le visage de ce monde* the face of this earth This wide ranging collection of essays by Camus scholars from around the world demonstrates to what extent topography is omnipresent in Camus's life and works Configurations and contemplations of landscape figure prominently in his fictional works on both a literal and figurative level from the earliest writings of his youth to his final unfinished novel *Le Premier Homme* Furthermore as a core component of the way in which Camus perceived conceived and expressed the human condition topography constitutes an overarching and particularly profound dimension of his personal public and philosophical thought
