t Like Real Jazz is the funniest book ever written about jazz and its place of importance in American culture But GDLRJ is neither just funny nor just for American jazz fans It is for anyone concerned that the United States is losing its cultural identity The declining jazz business in America should be seen as a canary in a coal mine for our nation s overall decline Jazz is being squeezed out by a modern culture that is turning its back on its own rich history Through stories and suggestions on how to save jazz from impending doom jazz writer and social commentator Walter Kolosky argues that the loss of jazz is a foreign policy issue To let its American roots die away is tantamount to treason in Kolosky s opinion That being said the author believes that if the ship is destined to go down we may as well have a few laughs with our salt water The author is hopeful that maybe we can bail fast enough GDLRJ is a guide book for jazz fans and other socially conscious individuals to use in a battle to help save jazz Use it wisely ISBN 0 9761016 0 2 Unforgettable Characters in the Lives of Ordinary People Steve Feinstein,2021-11-18 Unforgettable Characters in the Lives of Ordinary People A collection of stories about remarkable individuals and their lasting impact By Steve Feinstein Here is a collection of funny poignant real life stories about the people in our lives that we ll never forget They are our best childhood friends that amazing boss at your first real job and the father in law who mistakenly turned off your stove when you had a houseful of guests All of it is true and you ll recognize yourself and your characters as you read it Steve s stories grabbed me right away and transported me into his world With his attention to detail descriptive words and enthusiasm I was immersed immediately Each story is a true respite in and of itself with some great laughs along the way Jill R Dorson Editor of RealClearHistory com Steve Feinstein has created a tapestry of entertainment interwoven among multiple aspects of life If you are a fan of sports music history or just fascinating events and people you will be thoroughly entertained by reading Unforgettable Characters in the Lives of Ordinary People J D Keene critically acclaimed WW2 historical fiction author *Modern Jazz Quartet (Songbook)* Modern Jazz Quartet,2012-03-01 Piano Solo Personality 20 MJQ favorites arranged for piano solo including Afternoon in Paris Bags Groove Blues in H B Bluesology Concorde Connie s Blues Delauney s Dilemma Django Echoes The Golden Striker La Ronde Milano The Queen s Fancy Reunion Blues Skating in Central Park Vendome and more *Play the Way You Feel* Kevin Whitehead,2020-04-01 Jazz stories have been entwined with cinema since the inception of jazz film genre in the 1920s giving us origin tales and biopics spectacles and low budget quickies comedies musicals and dramas and stories of improvisers and composers at work And the jazz film has seen a resurgence in recent years from biopics like Miles Ahead and HBO s Bessie to dramas Whiplash and La La Land In Play the Way You Feel author and jazz critic Kevin Whitehead offers a comprehensive guide to these films and other media from the perspective of the music itself Spanning 93 years of film history the book looks closely at movies cartoons and a few TV shows that tell jazz stories from early talkies to modern times with an eye to narrative conventions and common story points Examining the ways historical films have painted a clear picture of the past or overtly distorted history Play the Way You Feel serves up capsule discussions of sundry topics including Duke Ellington s

social life at the Cotton Club avant garde musical practices in 1930s vaudeville and Martin Scorsese's improvisatory method on the set of *New York, New York*. Throughout the book Whitehead brings the same analytical bent and concise witty language listeners know from his jazz segments on NPR's *Fresh Air* with Terry Gross. In Real Life Miles Davis, Landesman, 1981. *Every Thing Must Go* James Ladyman, Don Ross, David Spurrett, John Collier, 2007-07-05. *Every Thing Must Go* argues that the only kind of metaphysics that can contribute to objective knowledge is one based specifically on contemporary science as it really is and not on philosophers a priori intuitions, common sense or simplifications of science. In addition to showing how recent metaphysics has drifted away from connection with all other serious scholarly inquiry as a result of not heeding this restriction, they demonstrate how to build a metaphysics compatible with current fundamental physics, ontic structural realism, which when combined with their metaphysics of the special sciences, rainforest realism, can be used to unify physics with the other sciences without reducing these sciences to physics itself. Taking science metaphysically seriously, Ladyman and Ross argue, means that metaphysicians must abandon the picture of the world as composed of self-subsistent individual objects and the paradigm of causation as the collision of such objects. *Every Thing Must Go* also assesses the role of information theory and complex systems theory in attempts to explain the relationship between the special sciences and physics, treading a middle road between the grand synthesis of thermodynamics and information and eliminativism about information. The consequences of the author's metaphysical theory for central issues in the philosophy of science are explored, including the implications for the realism vs empiricism debate, the role of causation in scientific explanations, the nature of causation and laws, the status of abstract and virtual objects and the objective reality of natural kinds.
