religious and ideological roots relevant history and its goals The Jihadist Threat Paul Moorcraft, 2015-11-30 This timely and controversial book examines the international and domestic threats to the West from Jihadism It joins the dots in the Middle East Asia and Africa and explains what it means for the home front mainly Britain but also continental Europe and the USA More Brits are trying to join the Islamic State than the reserve forces Why It puts the whole complex jigsaw together without pulling any punches After briefly tracing the origins of Jihadism from the time of the Prophet The Jihadist Threat analyses the fall out from the Iraq and Afghanistan wars and how far these fuelled the rise of the self styled Islamic State and other terror groups and the extent these pose to European society Finally the Author offers suggestions for defeating this existential threat to the Western way of life This well illustrated book is written from the inside Professor Paul Moorcraft currently the Director of the Centre for Foreign Policy Analysis London has long worked at the heart of the British security establishment and has operated as a war correspondent in over thirty conflict zones since Afghanistan in the 1980s often alongside frontline Jihadists Arguably no one is better qualified to write on this subject and his knowledge coupled with forthright views cannot be ignored *Militant Islamist Ideology* Youssef Aboul-Enein, 2013-09-15 In offering a comprehensive explanation of how militant Islamists have hijacked the Islamic religion Aboul Enein provides a realistic description of the militant threat which is far different and distinct from Islamist political discourse and the wider religion of Islam A key adviser at the Joint Intelligence Task Force for Combating Terrorism he argues that winning the war against Militant Islamists requires a more complete understanding of their ideology Clearly defining the differences between Islam Islamist and military Islamist he highlights how militant Islamist ideology takes selected fragments of Islamic history and theology and weaves them into a narrow pseudo intellectual ideology to justify their violence against Muslims and non Muslims alike **Jihad in Sub-Saharan Africa** Jonathan Matusitz, Doris Wesley, 2024-04-08 This book examines how jihadist groups in sub Saharan Africa have managed to advance their extremist agenda and recruit new followers thanks to digital media fueled by the information revolution since the dawn of the 21st century This examination is based on a mixture of historical accounts contemporary descriptions case studies theoretical applications and an in depth applied study in the late chapters of the manuscript An important conclusion is that the progress of jihadism in sub Saharan Africa has been commensurate with the development and availability of digital media This book breaks new ground in three ways It is the first major academic work to devote most of its content exclusively to the use of digital media by jihadist groups in that region Examples of jihadist digital media include social networking sites online instructional videos propaganda videos and online jihadist magazines among others Secondly it provides detailed case studies of both well known African groups e g Al Shabaab Boko Haram and lesser known ones e g the Allied Democratic Forces in the Congo which have nevertheless wreaked so much damage Lastly it is the first book to include an in depth thematic analysis of online jihadist magazines Inspire Dabiq Rumiyah and Gaidi Mtaani on their content dedicated to sub Saharan Africa Female Terrorism and

Militancy Cindy D. Ness, 2007-12-11 This edited volume provides a window on the many forces that structure and shape why women and girls participate in terrorism and militancy as well as on how states have come to view treat and strategize against them Females who carry out terrorist acts have historically been seen as mounting a challenge to the social order by violating conventional notions of gender and power and their participation in such acts has tended to be viewed as being either as a passive victim or a feminist warrior This volume seeks to move beyond these portrayals to examine some of the structuring conditions that play a part in a girl or woman's decision to commit violence Amidst the contextual factors informing her involvement the volume seeks also to explore the political agency of the female terrorist or militant Several of the articles are based on research where authors had direct contact with female terrorists or militants who committed acts of political violence or with witnesses to such acts

Extremist Islam Kumar Ramakrishna, 2022 Since the Bali terrorist attacks in 2002 law enforcement agencies have rigorously combatted terrorist networks in Southeast Asia yet groups motivated by violent extremist interpretations of Islam remain resilient and dangerous This book shines a light on specific beliefs behaviors and policies that impact these challenges ultimately offering cutting edge effective tools for response The book begins by challenging misguided and controversial notions that depict Islam as an inherently violent religion arguing that the theological ideological amalgam of what has been called Salafism is the more useful lens for recognizing closed minded extremist currents The book carefully distinguishes this Salafist extremist mindset from relatively open minded Salafist radicalism paying due attention to nonviolent extremists and the ways they can contribute to rather than reduce violent terrorist activity in the region Using poignant case studies from Malaysia Singapore the Philippines and Indonesia the book clarifies a bewildering range of terminology associated with Islamist violence and explains how imprecise and oversimplified narratives are destructive to progress and worse empowering to terrorist organizations These chapters build up to research informed policies and rhetorical recommendations for improved outcomes With its novel insights into the root causes of extremist terrorism in Southeast Asia the ineffective policies that prohibit progress and promote unrest in this region and the avenues for positive change this book offers a comprehensive strategy for fostering theologically sound yet culturally authentic counterterrorist measures that defend the complex richly textured tapestry of culture in Southeast Asia
