Military Ascendancy Political Culture:

Military Ascendancy and Political Culture Leo Suryadinata, 1989 Most of the earlier studies on the Indonesian political party Golkar tend to view the organization solely as an electoral machine used by the military to legitimize its power. However, this study is different in that it considers Golkar less an electoral machine and more as a political organization which inherited the political traditions of the nominal Muslim parties and the Javanese governing elite pre 1965 before the inauguration of Indonesia's New Order. Golkar then is seen in this book as nominal Islam with a military element that tends to differentiate it from previous political parties in the country. Leo Suryadinata traces the birth, struggle, and emergence of this party so closely identified with Indonesia's President Suharto. Yet to claim that Suharto and the military dominate the party is to view Golkar superficially for the party is also composed of factions of civil servants and the Minister of Security and Defense as well as several other governmental agencies. A complex and well-detailed cultural history of Indonesia's most powerful political party, this case study should have wider implications for the study of military behavior in the Third World.

Military Ascendancy and Political Culture Leo Suryadinata, 1989 **Military Politics and Democratization in Indonesia** Jun Honna, 2013-01-11 The military have had a key role to play in Indonesia's recent history and may well have a decisive role to play in her future. This book looks at the role of the military in the downfall of Suharto and their ongoing influence on the succeeding governments of B.J. Habibie and Abdurrahman Wahid. The author also examines such key features as human rights, reconciliation, civic military discourse, and ongoing security dilemmas. The book is unique in providing the best overview of the role of the military in the world's fourth most populous nation. Military Politics, Islam, and the State in Indonesia Marcus Mietzner, 2009 Based on a decade of research in Indonesia, this book provides an in-depth account of the military's struggle to adapt to the new democratic system after the downfall of Suharto's authoritarian regime in 1998. Unlike other studies of the Indonesian armed forces which focus exclusively on internal military developments, Mietzner's study emphasizes the importance of conflicts among civilians in determining the extent of military involvement in political affairs. Analysing disputes between Indonesia's main Muslim groups, Mietzner argues that their intense rivalry between 1998 and 2004 allowed the military to extend its engagement in politics and protect its institutional interests. The stabilization of the civilian polity after 2004, in contrast, has led to an increasing marginalization of the armed forces from the power centre. Drawing broader conclusions from these events for Indonesia's ongoing process of democratic consolidation, the book shows that the future role of the armed forces in politics will largely depend on the ability of civilian leaders to maintain functioning democratic institutions and procedures. Managing Politics and Islam in Indonesia Donald J. Porter, 2013-08-21 First published in 2004, this text examines the politics of Islam and the state of Indonesia over recent decades during which time there has been a notable resurgence of Islamic political movements. It argues that after the state had consistently worked to restrict and exclude political Islam from power in the late 1980s and 1990s, there was a change

whereby Suharto courted the support and began to incorporate Muslim interests within the political system **Michael Leifer** Kin Wah Chin, Leo Suryadinata, 2005 Presents selected works of Michael Leifer the doyen of Southeast Asian Studies who died in 2001 This book includes works on the Southeast Asian region ASEAN regional order and conflict great power policies towards the region maritime security in Southeast Asia and studies of the domestic policies of individual Southeast Asian countries Dictionary of the Modern Politics of Southeast Asia Michael Leifer, Professor of International Relations Michael Leifer, 2002-09-11 The Dictionary of the Modern Politics of South East Asia provides comprehensive coverage of the political history of this important region since the end of the Second World War Over 400 alphabetically organized entries cover Brunei Burma Myanmar Cambodia Kampuchia Indonesia Laos Malaysia the Philippines Singapore Thailand and Vietnam Individual entries provide detailed information and authoritative commentary for the central figures political parties and organizations political systems and structures major events and key documents including constitutions and treat

Indonesia and China Rizal Sukma, 2003-09-02 Indonesia broke off relations with China in 1967 and resumed them only in 1990 Rizal Sukma asks why His answers shed light on Indonesia's foreign policy the nature of the New Order's domestic politics the mixed functions of diplomatic ties the legitimacy of the new regime and the role of President Suharto Rizal Sukma argues that the matter of Indonesia restoring diplomatic ties with China is best understood in terms of the efforts made by the military based New Order government to sustain its political legitimacy The analysis in this book proves that an absence as well as a presence of diplomatic relations may advance not only the external but the domestic interests of an incumbent government This is the first major study on Indonesia and China's diplomatic relations under the New Order government It will be illuminating for research students and lecturers in international politics international relations policy making and diplomacy Young Heroes Saya S. Shiraishi, 2018-05-31 An exploration of the family as a cultural historical and political construction in New Order Indonesia The linkage of family life to politics was an integral part of Suharto's New Order ideology With extensive fieldwork and research into education family dynamics politics and the media Shiraishi's work presents an in depth view of the intricacies of Indonesian society **The Changing World of Bali** Leo Howe, 2006-06-07 The glossy guide book image of Bali is of a timeless paradise whose people are devoutly religious and artistically gifted However a hundred years of colonialism war and Indonesian independence and tourism have produced both modernizing changes and created an image of Bali as traditional Incorporating up to date ethnographic field work the book investigates the myriad of ways in which the Balinese has responded to the influx of outside influence The book focuses on the fascinating interrelationship between tourism economy culture and religion in Bali painting a twenty first century picture of the Balinese In documenting these diverse changes Howe critically assesses some of the work of Bali's most famous ethnographer Clifford Geertz and demonstrates the importance of a historically grounded and broadly contextualized approach to the analysis of a complex society *Civil Islam* Robert W. Hefner, 2011-05-21 Civil Islam tells the story of Islam and democratization in

Indonesia the world's largest Muslim nation Challenging stereotypes of Islam as antagonistic to democracy this study of courage and reformation in the face of state terror suggests possibilities for democracy in the Muslim world and beyond Democratic in the early 1950s and with rich precedents for tolerance and civility Indonesia succumbed to violence In 1965 Muslim parties were drawn into the slaughter of half a million communists In the aftermath of this bloodshed a New Order regime came to power suppressing democratic forces and instituting dictatorial controls that held for decades Yet from this maelstrom of violence repressed by the state and denounced by conservative Muslims an Islamic democracy movement emerged strengthened and played a central role in the 1998 overthrow of the Soeharto regime In 1999 Muslim leader Abdurrahman Wahid was elected President of a reformist civilian government In explaining how this achievement was possible Robert Hefner emphasizes the importance of civil institutions and public civility but argues that neither democracy nor civil society is possible without a civilized state Against portrayals of Islam as inherently antipluralist and undemocratic he shows that Indonesia's Islamic reform movement repudiated the goal of an Islamic state mobilized religiously ecumenical support promoted women's rights and championed democratic ideals This broadly interdisciplinary and timely work heightens our awareness of democracy's necessary pluralism and places Indonesia at the center of our efforts to understand what makes democracy work *Islam and the State in Indonesia* Bahtiar Effendy, 2003 This book explains the relationship between Islam and the state and politics in contemporary Indonesia President Soeharto's departure from office in May 1998 brought tremendous and far reaching impacts to Indonesia's political landscape At least 181 new political parties came into being a sizeable portion of which use Islam as their symbol and ideological basis *The Politics of Shari'a Law* Michael Buehler, 2016-09-01 The Islamization of politics in Indonesia after 1998 presents an underexplored puzzle why has there been a rise in the number of shari'a laws despite the electoral decline of Islamist parties Michael Buehler presents an analysis of the conditions under which Islamist activists situated outside formal party politics may capture and exert influence in Muslim majority countries facing democratization His analysis shows that introducing competitive elections creates new pressures for entrenched elites to mobilize and structure the electorate thereby opening up new opportunities for Islamist activists to influence politics Buehler's analysis of changing state religion relations in formerly authoritarian Islamic countries illuminates broader theoretical debates on Islamization in the context of democratization This timely text is essential reading for students scholars and government analysts **Ordering Power** Dan Slater, 2010-08-09 Like the postcolonial world more generally Southeast Asia exhibits tremendous variation in state capacity and authoritarian durability *Ordering Power* draws on theoretical insights dating back to Thomas Hobbes to develop a unified framework for explaining both of these political outcomes States are especially strong and dictatorships especially durable when they have their origins in protection pacts broad elite coalitions unified by shared support for heightened state power and tightened authoritarian controls as bulwarks against especially threatening and challenging types of contentious politics These coalitions provide the elite collective action

underpinning strong states robust ruling parties cohesive militaries and durable authoritarian regimes all at the same time Comparative historical analysis of seven Southeast Asian countries Burma Indonesia Malaysia the Philippines Singapore South Vietnam and Thailand reveals that subtly divergent patterns of contentious politics after World War II provide the best explanation for the dramatic divergence in Southeast Asia's contemporary states and regimes *Indonesia's Foreign Policy under Suharto* Leo Suryadinata, 2022-01-24 The book which was first published in 1996 examines Indonesia's foreign policy under Suharto It not only details Indonesia's foreign policy behaviour vis vis Indonesia's neighbours and major powers but also places it in the context of foreign policy analysis Today the book remains as the only full length study on Indonesia's foreign policy under Suharto It is now reprinted with a new postscript which discusses the post Suharto era from B J Habibie to Joko Widodo Indonesia under Suharto had attempted to become a regional power to lead Southeast Asian states and beyond As the largest country and also the richest in terms of natural resources Suharto's Indonesia was held in deference by the ASEAN states However due to its limited capabilities its lack of military strength advanced technology and economic strength the political influence of Jakarta was in fact quite limited During the economic crisis Suharto was forced to step down He was succeeded by B J Habibie who was largely preoccupied with domestic issues who in turn was followed by weak presidencies such as Abdurrahman Wahid Gus Dur and Megawati Only after the ex general Susilo Bambang Yudhoyono assumed presidency did he manage to stabilize the situation and attained economic growth He even became known as the Foreign Policy President Nevertheless he was constrained by the harsh Indonesian reality limited resources a weak military and absence of political influence His successor Joko Widodo has been more concerned with economic matters and domestic politics Indonesian regional leadership declines further **Indonesian Electoral Behaviour** Aris Ananta, Evi Nurvidya Arifin, Leo Suryadinata, 2004 In Indonesia's plural society ethnicity and religion are often considered as two important independent variables to explain electoral behaviour Many writers have used qualitative methods to relate the performance of political parties in terms of ethnicity and religion This book questions these assumptions by looking at up to date data on the 1999 election and the 2000 population census The authors researchers from the Institute of Southeast Asian Studies in Singapore statistically examine the strength of the impact of religious and ethnic variables relative to those of socio economic variables education per capita income migration urbanization and poverty on the electoral behaviour of the seven major political parties Their analysis and findings together with detailed population profiles in terms of religion ethnicity and socio economic conditions at the provincial and district levels throws light on not only the 1999 election but also the forthcoming 2004 election and beyond **Explaining Institutional Change** James Mahoney, Kathleen Thelen, 2009-10-30 This book contributes to emerging debates in political science and sociology on institutional change Its introductory essay proposes a new framework for analyzing incremental change that is grounded in a power distributional view of institutions and that emphasizes ongoing struggles within but also over prevailing institutional arrangements Five empirical essays then bring the

general theory to life by evaluating its causal propositions in the context of sustained analyses of specific instances of incremental change These essays range widely across substantive topics and across times and places including cases from the United States Africa Latin America and Asia The book closes with a chapter reflecting on the possibilities for productive exchange in the analysis of change among scholars associated with different theoretical approaches to institutions

A. H. Nasution and Indonesia's Elites Barry Turner, 2017-11-17 This is an account of the military political and personal life of Abdul Haras Nasution who was a seminal figure in modern Indonesian history in the years prior to his effective sidelining in the 1960s He was an important commander during Indonesia's struggle for independence who rose to become a key leader of the Indonesian armed forces under the first president Sukarno Perhaps more significantly he developed ideas about guerrilla warfare that developed into a sophisticated and socially conservative doctrine for the mobilising of civilian communities This in turn became the underpinning of the repressive military backed New Order regime of Indonesia's second president Suharto who ruled from 1966 until 1998 and which Nasution initially supported Understanding Nasution's thinking about total people's resistance is therefore very important for understanding the broader trajectory of Indonesian political history That includes both the New Order and the emerging democratic regime that developed after its collapse The new political system that called itself the Reform Era was in many ways a direct reaction to the New Order military's penetration and close control of Indonesian society but it has never dismantled the shadow state structure of the armed forces that Nasution designed and Suharto perfected In other words as this book shows Nasution's legacy still looms large today in Jokowi's Indonesia This is not the first assessment of Nasution's life but it differs from earlier works by its investigation of Nasution's personal life and in particular his relationship with the well off and well connected Gondokusumo family of which he became a member by his marriage to Johana Sunarti Gondokusumo The author's thorough investigation of Nasution's relationship with Sunarti and her father offers important new insights into how Nasution's ideas evolved as does the translations of important extracts from Nasution's own voluminous writing included in the text
