The Evolving Military Balance in the Korean Peninsula and Northeast Asia Anthony H. Cordesman,Ashley Hess,2013-07-10 The Evolving Military Balance in the Korean Peninsula and Northeast Asia describes the strategy force deployments and the military balance in potential current and future scenarios involving the Democratic People s Republic of Korea Republic of Korea People s Republic of China Japan and the United States The analysis in these volumes shows how tensions between the Koreas and the potential involvement of the China Japan Russia and the United States create a nearly open ended spectrum of possible conflicts These range from posturing and threats wars of intimidation to a major conventional conflict on the Korean Peninsula to intervention by outside powers like the United States and China to the extreme of nuclear conflict The analysis shows that the Korean balance is sharply affected by the uncertain mix of cooperation and competition between the United States and China The U S rebalancing of its forces to Asia and the steady modernization of Chinese forces in particular the growth of Chinese sea air missile capabilities affect the balance in the Koreas and Northeast Asia They also raise the possibility of far more intense conflicts that could extend far beyond the boundaries of the Koreas

The Military Balance in the Middle East Anthony H. Cordesman,2004-09-30 Noted Middle East military expert Anthony H Cordesman details the complex trends that come into play in determining the military balance in a region that has become so critical to world peace This ready resource provides a wealth of information on military expenditures and major arms systems as well as qualitative trends by country and by zone However as Cordesman stresses because the greater Middle East is more a matter of rhetoric than military reality mere data summarizing trends in 23 different countries is no substitute for a substantive explanation Using tables graphs and charts this study explores every aspect of the regional military balance with attention to sub regional balances internal civil conflicts and low level border tensions The Middle East is certainly one of the most militarized areas in the world and changes in technology access to weapons of mass destruction and political instability contribute to a situation that has long been in constant flux Some of the regional flashpoints covered in this study include the Maghreb North Africa the Arab Israeli conflict dominated by Israel versus Syria and the Gulf divided into those states that view Iran as the primary threat and those who lived in fear of Iraq Internal conflicts such as those in Mauritania Algeria Libya Egypt Sudan Bahrain Saudi Arabia Iraq
