United States. Army Medical Service, 1963 **Ryukyu Islands** Norman D. King, United States. Department of the Army, 1967 *Creating an American Lake* Hal M. Friedman, 2000-11-30 Many historians of U S foreign relations think of the post World War II period as a time when the United States as an anti colonial power advocated collective security through the United Nations and denounced territorial aggrandizement Yet between 1945 and 1947 the United States violated its wartime rhetoric and instead sought an imperial solution to its postwar security problems in East Asia by acquiring unilateral control of the western Pacific Islands and dominating influence throughout the entire Pacific Basin This detailed study examines American foreign policy from the beginning of the Truman Administration to the implementation of Containment in the summer and fall of 1947 As a case study of the Truman Administration s Early Cold War efforts it explores pre Containment policy in light of U S security concerns vis a vis the Pearl Harbor Syndrome The American pursuit of a secure Pacific Basin was inconsistent at the time with its foreign policy toward other areas of the world Thus the consolidation of power in this region was an exception to the avowed goal of a multilateral response to the policies of the Soviet Union This example of national or strategic security went much further than simple military control it included the cultural assimilation of the indigenous population and the unilateral exclusion of all other powers Analyzing traditional archival records in a new light Friedman also investigates the persisting American notions of a Westward moving frontier that stretches beyond North American territorial bounds The American military occupation of Germany, 1945-1953 Oliver Jul Frederiksen, 1953 **Preventive medicine in World War II.** United States. Gordon W. Rudd,2011-05-30 When President George W Bush stood on the decks of the U S S Lincoln in May 2003 and announced the victorious end to major combat operations in Iraq he did so in front of a huge banner that proclaimed Mission Accomplished American forces had successfully removed the regime of Saddam Hussein with rapid decisive operations and yet the United States was unprepared to effectively replace that regime Gordon Rudd s excellent history reveals why in stark detail Between the invasion of Iraq in March 2003 and the creation of the Coalition Provisional Authority CPA that May the Allied forces struggled to plug the governance gap created by the removal of Saddam Hussein s regime Plugging that gap became the job of the Office of Reconstruction and Humanitarian Assistance Cobbled together with staff from diverse federal agencies and military branches ORHA was led by Jay Garner a key figure in assisting Kurdish refugees following Operation Desert Storm in 1991 Garner and ORHA were given mere weeks to stabilize a nation that had come completely apart at the seams Iraq s infrastructure was in such a shambles thanks to years of poor maintenance international sanctions and massive looting that the mission was doomed to fail from the start Rudd field historian for ORHA and CPA offers a critical look at this impossible effort He shows that while military planning for the invasion of Iraq had been conducted for over a decade planning for regime replacement was haphazard at best The result was an unnecessarily large loss of lives treasure time and American prestige despite the inspired efforts of Garner and his staff Based on nearly 300 interviews and time on the ground in Iraq Rudd s account also provides an unsettling look at the awkward transition from ORHA to CPA revealing how Ambassador Paul Bremer managed to make things even worse Garner here emerges as both heroic and tragic a charismatic leader of great enthusiasm who took on a task of grand proportions but was poorly served by those who chose him for the mission As Rudd makes clear the key lesson of this experience is that regime removal solves nothing without effective regime replacement That lesson learned the hard way serves as a cautionary tale for our engagement in future foreign conflicts
