**The Second World War: Asia and the Pacific** ,2014-03-28 OVER 210 000 WEST POINT MILITARY HISTORY SERIES SETS IN PRINT Beginning with a look at the readiness of the Imperial Japanese Army and Navy and the United States armed forces this book gives a detailed account of the Allies brutal five year struggle with Japan It examines the interrelationship of land sea and air forces as they battled over the vast reaches of the Pacific Theater of War **Modern Chinese Warfare, 1795-1989** Bruce A. Elleman,2005-07-28 Why did the Chinese empire collapse and why did it take so long for a new government to reunite China Modern Chinese Warfare 1795 1989 seeks to answer these questions by exploring the most important domestic and international conflicts over the past two hundred years from the last half of the Qing empire through to modern day China It reveals how most of China s wars during this period were fought to preserve unity in China and examines their distinctly cyclical pattern of imperial decline domestic chaos and finally the creation of a new unifying dynasty By 1989 this cycle appeared complete but the author asks how long this government will be able to hold power Exposing China as an imperialist country and one which has often manipulated western powers in its favour Bruce Elleman seeks to redress the views of China as a victimised nation The Generalissimo Jay Taylor,2011-04-30 One of the most momentous stories of the last century is China s rise from a self satisfied anti modern decaying society into a global power that promises to one day rival the United States Chiang Kai shek an autocratic larger than life figure dominates this story *Military History of Modern China* Frederik Fu Liu,1972 **Professional Journal of the United States Army** ,2007 Peasant Nationalism and Communist Power Chalmers A. Johnson,1962 This author researches the Chinese Communists wartime expansion according to the documentation recorded by Japanese intelligence then compares that expansion with that of the Yugoslav Communists The Wars for Asia, 1911-1949 S. C. M. Paine,2012-08-20 This book shows that the Western treatment of World War II the Second Sino Japanese War and the Chinese Civil War misrepresents their connections and causes **China 1949** Graham Hutchings,2021-01-14 Excellent The Economist A gripping account South China Morning Post Well worth reading The Morning Star A persuasive and readable narrative History Today Elegantly written The Tablet An excellent study The Chartist Engaging Asia Times The events of 1949 in China reverberated across the world and throughout the rest of the century That tumultuous year saw the dramatic collapse of Chiang Kai shek s pro Western Nationalist government overthrown by Mao Zedong and his communist armies and the foundation of the People s Republic of China China 1949 follows the huge military forces that tramped across the country the exile of once powerful leaders and the alarm of the foreign powers watching on The well known figures of the Revolution are all here But so are lesser known military and political leaders along with a host of ordinary Chinese citizens and foreigners caught in the maelstrom They include the often neglected but crucial role played by the Guangxi faction within Chiang s own regime the fate of a country woman who fled her village carrying her baby to avoid the fighting a prominent Shanghai business man and a schoolboy from

Nanyang ordered by his teachers to trek south with his classmates in search of safety Shadowing both the leaders and the people of China in 1949 Hutchings reveals the lived experiences aftermath and consequences of this pivotal year one in which careers were made and ruined and popular hopes for a new China contrasted with fears that it would change the country forever The legacy of 1949 still resonates today as the founding myth source of national identity and root of the political behaviour of modern China Graham Hutchings has written a vivid gripping account of the year in which China abruptly changed course and pulled the rest of world history along with it

**The Rise and Fall of an Officer Corps** Eric Setzekorn, 2018-08-30 The People s Republic of China is the only large country in the world that does not have a national military its military answers only to a political party the Chinese Communist Party For a brief period in the mid twentieth century China had the makings of a professional apolitical military force The Rise and Fall of an Officer Corps tells the story of that moment in the military history of modern China how it came to be why it ultimately failed and what it meant for China at home and abroad Between 1942 and 1955 a cadre of highly trained nationalistic and cosmopolitan Chinese officers created a professional depoliticized military a force that could effectively represent the aspirations of China as a world power Drawing on multiple archival sources and Chinese military journals author Eric Setzekorn charts the development of this new army as a critical cultural and political force with extensive connections to foreign powers During this period military officers were the primary actors in an intergovernmental partnership between the United States and the Republic of China The partnership gave officers access to educational opportunities and technological transfers that were central to their professional ideals Setzekorn s account of the career of General Sun Li jen an American educated Chinese army officer illustrates the rise of this new sense of professionalism as well as its decline after 1953 Setzekorn then traces the failure of the army building project to a renewed politicization of military forces marked by a purge of key military leaders in 1955 by Chiang Kai shek and his Koumintang KMT party By focusing on this important chapter in Chinese military history Setzekorn s work also highlights

broader patterns of military transformation during the pivotal period from World War II through the early Cold War His work is critical to understanding the rise of China as a military and world power      **War in Modern China** Harold M Tanner, 2025-09-30 This book offers comprehensive coverage of China's military history from the Qing dynasty 1644 1912 to present China has become one of the great world powers of the twenty first century As a result Chinese leaders and observers outside of China alike seek to explain China's strategic thought and action In doing so they routinely refer to China's military history This volume examines this history beginning with the Qing dynasty's era of imperial expansion and subsequent decline continuing with the wars against foreign aggression and internal uprisings of the nineteenth century the revolutionary overthrow of the Qing in 1911 and seemingly constant wars of the first half of the twentieth century and concluding with the Chinese Communist Party's use of military power from 1950 to present This history is generally presented as a narrative of imperial greatness followed by a century of national humiliation followed by a recovery of national wealth and power under Communist Party leadership While acknowledging this narrative Harold Tanner digs deeper to reveal a fundamental continuity of interests underlying Chinese strategic thinking from the Qing to the present while also showing how the theory and practice of war in China changed over time as Chinese political and military leaders wrestled with tremendous challenges drawing on foreign sources as well as their own cultural heritage to seek new solutions Both engaging and timely *War in Modern China A Military History* is essential reading for students scholars and enthusiasts of Chinese and global military history      *Dictionary of Contemporary Chinese Military History* Larry M. Wortzel, 1999-09-30 Tracking the evolution of the Red Army through the war against Japan and the Chinese civil war Wortzel's book provides a comprehensive basic reference focusing on the major events people and issues that have produced the historical legacy of the People's Liberation Army Placing contemporary Chinese military history in the context of China's 19th century clashes with the West and Japan Wortzel illustrates how the imposition of unequal treaties by foreign powers conditioned China's 20th century defense forces and actions and explains how the Communist military forces developed It also shows how fractionalization in the Communist military leadership led to the Cultural Revolution and Mao Zedong's purges Drawing on a substantial number of sources available only in Chinese as well as on English language secondary sources the book provides a basic reference aimed at orienting the nonspecialist to the significant events and people in China's recent military history The book will also provide a quick reference for the specialist in Chinese history      *Missionaries of Revolution* Clarence Martin Wilbur, Julie Lien-ying How, 1989 During the 1920s the Soviet Union made a determined effort to stimulate revolution in China sending several scores of military and political advisers there as well as arms and money to influence political developments The usual secrecy surrounding Soviet foreign intervention was broken when the Chinese government seized a mass of documents in a raid on the Soviet military headquarters in Peking in 1927 *Missionaries of Revolution* weaves together information gleaned from these documents with contemporary historical materials      *Revival: The People's*
