Edwards's Military Catalogue Francis Edwards (Firm), 1908      **Doctrine and Reform in the British Cavalry**

**1880-1918** Stephen Badsey, 2016-12-05 A prevalent view among historians is that both horsed cavalry and the cavalry charge became obviously obsolete in the second half of the nineteenth century in the face of increased infantry and artillery firepower and that officers of the cavalry clung to both for reasons of prestige and stupidity. It is this view commonly held but rarely supported by sustained research that this book challenges. It shows that the achievements of British and Empire cavalry in the First World War although controversial are sufficient to contradict the argument that belief in the cavalry was evidence of military incompetence. It offers a case study of how in reality a practical military doctrine for the cavalry was developed and modified over several decades influenced by wider defence plans and spending by the experience of combat by Army politics and by the rivalries of senior officers. Debate as to how the cavalry was to adjust its tactics in the face of increased infantry and artillery firepower began in the mid nineteenth century when the increasing size of armies meant a greater need for mobile troops. The cavalry problem was how to deal with a gap in the evolution of warfare between the mass armies of the later nineteenth century and the motorised firepower of the mid twentieth century an issue that is closely connected with the origins of the deadlock on the Western Front. Tracing this debate this book shows how despite serious attempts to learn from history both European style wars and colonial wars produced ambiguous or disputed evidence as to the future of cavalry and doctrine was largely a matter of what appeared practical at the time. History Magazine Between the Crimean War and the dawn of the twentieth century the British Army was almost continuously engaged in one corner of the globe or another in military operations famously characterized by Kipling as the savage wars of peace In his new work on the most dramatic Victorian campaigns Mike Snook brings the most dramatic clashes of the age of empire back to life Here he focuses closely on defeat and disaster the occasions when things went badly awry for the British The names of these great battles Isandlwana Maiwand Majuba Hill Khartoum Colenso Spion Kop and Magersfontein still resonate down through the ages In a meticulously researched military history the author exposes the true and sometimes embarrassing causes of defeat Overstretch political meddling military incompetence and petty jealousy all played their part Above all else however these are dramatic and perceptive accounts of mere mortal men struggling to deal with the often overpowering dynamics and horrors of nineteenth century warfare on the fringes of Empire **Khedive Ismail's Army** John P. Dunn,2005 Khedive Ismail s Army examines military failure in the age of imperialism On paper the mid nineteenth century Egyptian army seems a formidable regional power It had a tradition of success modern weapons and mercenary officers with experience in major wars Egypt s ruler Khedive Ismail hoped to combine the imported technology and brains with native manpower and establish an Egyptian dominated Horn of Africa His soldiers did conquer parts of the Sudan but they suffered disastrous defeats during the Egyptian Abyssinian War of 1875to 1876 Presenting the first detailed examination of the Egyptian Abyssinian War in English this newbook also looks at the root problems that made Ismail s soldiers ineffective These include issues of class racism internal and external politics finance and the rapidly changing world of mid Nineteenth Century military technology This book is aimed at military historians and will be of interest to those studying the Middle East or North East Africa Catalogue of an Extensive Collection of Books ...
