Military History's Most Wanted M. Evan Brooks, 2014-05-27 In 1944 U S Army Lt Gen Leslie J McNair was accidentally killed by USAAF bombers that dropped their bombs short of the target thus becoming the highest ranking American casualty of World War II Union Gen Daniel Sickles was the first person to be successfully acquitted of murder by pleading temporary insanity after he shot and killed the son of Star Spangled Banner composer Francis Scott Key in cold blood Ten years before Custer's infamous last stand U S cavalry Capt William J Fetterman disobeyed orders and led his eighty man detachment in pursuit of a band of Sioux Indians Neith

The Monthly Army List Great Britain. Army, 1904 Biggest Cyber Crimes in the History IntroBooks Team, 2019-12-04 A problem that seems to be spreading across globally at an alarming rate cybercrime seems to have annihilated millions There is none that spared There is always a mind working on how to breach the security of the cyberspace Besides the smaller cybercrimes committed for money the more serious ones include drug dealings pornography prostitution cyber stalking and stealing your identity There is a long list of cybercrimes committed throughout the world and this list just seems to be increasing Human mind is unfathomable and some of them are exceptionally astute and some of such minds go astray It is a matter of time that technology developed for security is overpowered by someone which is why there is no space for anything obsolete in the cyber world The offenders look for systems that are obsolete and can be broken into The phrase prevention is better than cure cannot be used in a better place than here Safeguarding the system and using the best possible anti virus helps in shunning the offenders There is a long trail of cybercrimes that have left marks deep enough to be remembered by mankind The damages are economic political and at times social

Textual Curation Krista Kennedy, 2016-11-01 A study of the roles community financial support texts information structures interfaces and technology play in collaborative works Wikipedia is arguably the most famous collaboratively written text of our time but few know that nearly three hundred years ago Ephraim Chambers proposed an encyclopedia written by a wide range of contributors from illiterate craftspeople to titled gentry Chambers wrote that incorporating information submitted by the public would considerably strengthen the second edition of his well received Cyclop dia which relied on previously published information In Textual Curation Krista Kennedy examines the editing and production histories of the Cyclop dia and Wikipedia the ramifications of robot written texts and the issues of intellectual property theory and credit Kennedy also documents the evolution of both encyclopedias as well as the participation of central players in discussions about the influence of technology and collaboration in early modern and contemporary culture Through this comparative study based on extensive archival research and data driven analysis Kennedy illuminates the deeply situated nature of authorship which is dependent on cultural approval and stable funding sources as much as it is on original genius and the ownership of intellectual property Kennedy's work significantly revises long held notions of authorial

agency and autonomy establishing the continuity of new writing projects such as wikis with longstanding authorial practices that she calls textual curation This study examines a wide range of texts that recompose accepted knowledge into reliable complex reference works combining contributions of article text alongside less commonly considered elements such as metadata vocabularies cross indexing and the development of print and digital interfaces Comparison of analog and networked texts also lays bare the impact of technological developments both in the composing process and in the topics that can practically be included in such a text By examining the human and technological curators that support these encyclopedias as well as the discourses that surround them Kennedy develops textual curation as a longstanding theory and process that offers a nuanced construction of authorship
