# Military Institutions And Coercion In The Developing Nations

**Chris Cook, John Stevenson**

## **Military Institutions And Coercion In The Developing Nations:**

Military Institutions and Coercion in the Developing Nations Morris Janowitz, 1988      **Military Institutions and Coercion in the Developing Nations** Morris Janowitz, 1988-02-29 This book includes Janowitz's seminal work *The Military in the Political Development of New Nations* with additional new analysis of Latin American nations and of the increasing significance of paramilitary and police forces in authoritarian regimes in developing nations      Military Marxist Regimes in Africa John Markakis, Michael Waller, 2013-07-23 First published in 1986 This is a collection of editorial and articles covering military Marxist regimes in the African locations of the Horn of Africa Benin the People's Republic of Congo Madagascar and Burkina Faso      **The Uprisings in Egypt** Giuseppe Acconcia, 2019-03-13 By adopting Social Movement Theories SMT as a basic framework to analyze the 2011 uprisings in the Middle East this book disentangles the role of alternative networks and other forms of political conflict with reference to the Egyptian case in mobilising and forming a potential revolutionary movement During the 2011 uprisings in Egypt the Muslim Brotherhood monopolised the space of dissent preventing the formation of common identities among the protesters Particularly social actors in the Egyptian Street and other opposition groups did not find any place within the post uprisings government and have been demobilised by the politics and political discourse of a pseudo Neo Nasserism implemented by the regime after the 2013 military coup      **Public Administration, Sixth Edition, A Comparative Perspective.** Ferrel Heady, 2001-02-13 Continuing in the standard of excellence set by previous editions this sixth edition assesses the bureaucracies and development of governments around the world providing helpful and revealing analyses of the relationships between bureaucracies and political regimes With over 1000 literature references tables and drawings the book has been updated to reflect changes in the political systems of the former Soviet Union Eastern Europe and the developing world The editor clearly articulates recent developments in the shifting global political landscape and discusses how conditions in development administration and comparative public policy affect nation states      Iraq's Armed Forces Ibrahim Al-Marashi, Sammy Salama, 2008-04-03 This book provides the first comprehensive study of the evolution of the Iraqi military from the British mandate era to post Baathist Iraq Ethnic and sectarian turmoil is endemic to Iraq and its armed forces have been intertwined with its political affairs since their creation This study illustrates how the relationship between the military and      **Egypt beyond Tahrir Square** Bessma Momani, Eid Mohamed, 2016-09-26 First person accounts by scholars and journalists of the Arab Spring and the revolution that ended Mubarak's presidency On January 25 2011 the world's eyes were on Egypt's Tahrir Square as millions of people poured into the city center to call for the resignation of president Hosni Mubarak Since then few scholars or journalists have been given the opportunity to reflect on the nationwide moment of transformation and the hope that was embodied by the Egyptian Revolution In this important and necessary volume leading Egyptian academics and writers share their eyewitness experiences They examine how events unfolded in relation to key social groups and institutions such as the military police labor intellectuals Coptic Christians and

the media share the mood of the nation assess what happened when three recent regimes of Egyptian rule came to an end and account for the dramatic rise and fall of the Muslim Brotherhood The contributors deep engagement with politics and society in their country is evident and sets this volume apart from most of what has been published in English about the Arab Spring The diversity of views brought together here is a testament to the contradictions and complexities of historical and political changes that affect Egypt and beyond *The Army and Democracy* Aqil Shah,2014-04-29 In sharp contrast to neighboring India the Muslim nation of Pakistan has been ruled by its military for over three decades The Army and Democracy identifies steps for reforming Pakistan s armed forces and reducing its interference in politics and sees lessons for fragile democracies striving to bring the military under civilian control State and Society in Iraq Benjamin Isakhan,Shamiran Mako,Fadi Dawood,2017-03-17 The activities of ISIS since 2014 have brought back to centre stage a series of very old and very troubling questions about the integrity and viability of the Iraqi state However most analysts have framed recent events in terms of their immediate past and without the contextual background to explain their evolution State and Society in Iraq moves beyond a short sighted analysis to place the complex and contested nature of Iraqi politics within a broader and deeper historical examination In doing so the chapters demonstrate that beyond the overwhelming emphasis on failed occupations cruel tyrants ethnic separatists and violent religious fanatics is an Iraqi people who have routinely agitated against the state advocated for legitimate and accountable government and called for inter communal harmony When the authors maintain the Iraqi people are given agency in the complex process of consent negotiation and resistance that underpin successful state society relations the nation can move beyond patterns of oppression and cruelty of dangerous rhetoric and divisive politics and towards a cohesive peaceful and prosperous future despite the many difficulties and the steep challenges that lie ahead **The Arab State** Giacomo Luciani,2015-07-24 It has often been argued that Arab states are arbitrary political creations lacking historical or present legitimacy This book first published in 1990 provides a different picture of the Arab state drawing on historical economic philosophical and sociological perspectives to give a balanced and convincing view of the complex reality of contemporary Arab politics The contributors from the Arab countries from Europe and the United States investigate the roots of the nation state in the Arab world evaluating in particular the economic bases of individual states They discuss the evolution of Arab societies and the way this is reflected in different states and examine the problems of domestic and international integration in the Arab context Original and comprehensive in its findings this is an essential text on the fundamental political structure of the Arab world Its interdisciplinary breadth makes possible an entirely new reading of the political reality of the Middle East **Social Change and Politics** Morris Janowitz,2017-07-05 This classic study deals with social control in advanced industrial society especially the United States and particularly the half century after World War I The United States is representative of Western advanced industrial nations that have been faced with marked strain in their political institutions These nation states have been experiencing a decline in popular

confidence and distrust of the political process an absence of decisive legislative majorities and an increased inability to govern effectively that is to balance and to contain competing interest group demands and resolve political conflicts Janowitz uses the sociological idea of social control to explore the sources of these political dilemmas Social control does not imply coercion or the repression of the individual by societal institutions Social control is rather the face of coercive control It refers to the capacity of a social group including a whole society to regulate itself Self regulation implies a set of higher moral principles beyond those of self interest Since the end of World War II the expanded scope of empirical research has profoundly transformed the sociological discipline The repeated efforts to achieve a theoretical reformulation have left a positive residue but there have been no new conceptual breakthroughs that are compelling This book is a concerted and detailed effort organize and to make sense out of the vastly increased body of empirical research

*The Regionalization of Warfare* James Browne, William Paul Snyder, 1985-01-01 Three wars have dominated world events in recent years The conflict which erupted between the United Kingdom and Argentina over the Falkland Malvinas Islands the multinational conflict in Lebanon involving Israeli Syrian and FLO forces in Lebanon and the savage struggles between ground and air units of the Iranian and Iraqi forces The scale and intensity of these wars their potential for global conflict make them crucial for an understanding among citizens in general and defense and political analysts in particular The authors and contributors to this most unusual volume come to several common conclusions professionalism is a crucial factor in military effectiveness but not necessarily dependent on modes of recruitment high technology is crucial but only in relation to the quality and training of the personnel public support is necessary to sustain military morale in democratic and authoritarian regimes alike These are only some of the incisive findings registered and explored in *The Regionalization of Warfare* The volume assembles experts not only on these three major regional and interregional conflicts but on current U S defense policies Soviet strategic interests in Middle East and Persian Gulf conflicts and a series of papers on lessons learned and unlearned as a result of these small wars of the early 1980s For those interested in military history global strategy and regional rivalries this collection of finely written sophisticated papers will prove to be of intense concern

**The Military in Post-Revolutionary Iran** Hesam Forozan, 2015-10-14 Iran's Revolutionary Guard Corps also known as the Sepah has wielded considerable and increasing power in Iran in recent decades Established in 1979 by Ayatollah Khomeini as a paramilitary organisation charged with protecting the nascent Islamic regime and countering the untrustworthy Imperial army or Artesh the Sepah has evolved into one of the most powerful political ideological military and economic players in Iran over recent years The Sepah is entrusted with a diverse set of indoctrination apparatus training programmes and system welfare provisions intended to broaden support for the regime Although established as a paramilitary organisation the Sepah developed to have its own ministry complex bureaucracy and diversified functions alongside its own network and personnel This book provides a comprehensive overview of the Sepah and its role It examines the position of the Sepah in Iranian state and society explores

the nature of the Sepah's involvement in politics and discusses the impact of the Sepah's political rise on Iran's economy and foreign policy. Contemporary Iran can only be fully understood by an awareness of the ongoing fighting among regime factions and increasing popular demands for social change. Knowing about the Sepah is central to all this. **Dreams of Power** K. van Walraven, 2019-01-04 Originally published in 1999, this book was the first study to provide a systematic reconstruction of the OAU's ideological ground work. It is based on OAU documents, a corpus of African perceptions of OAU functioning collected from governmental and non-governmental newspapers and publications from more than thirty African countries, and on interviews held with African diplomats and OAU officials. It was also the first study to pay attention to the OAU's role in the political psychology of state elites, which comes to the fore in the areas of OAU co-operation discussed in this book: the OAU's internal functioning, the former struggle against apartheid and colonialism, conflict management, and the OAU's role in representing collective African viewpoints in global fora. This study was originally a Ph.D. thesis which was considered to be among the best three dissertations in political science in The Netherlands in 1997. Defence Policy of Nigeria: Capability and Context Charles Quarker Dokubo, Celestine Oyom Bassey, 2011-01-20 This Reader provides a structurally coherent explanation and review of the magnified role conception and organizational task expansion for the Nigerian military establishment in foreign policy. It argues essentially that one of the most problematic and intractable areas of public policy in Nigeria since the Civil War concerns the development of a professional defence establishment adequate to meet the challenges arising from the altered parameters of our security environment. The correction of this condition is the primary motivation of the Armed Forces modernization and augmentation program that touches upon all elements of Nigeria's military power. This Reader is at once a review and a critique of the major facets of this modernization and augmentation process of the Nigerian armed forces within the operative context of the changing dimension of threat perception and the strategic parameters that have guided Nigerian military planning since the Civil War in 1970. **How to Prevent Coups d'État** Erica De Bruin, 2020-11-15 In this lively and provocative book Erica De Bruin looks at the threats that rulers face from their own armed forces. Can they make their regimes impervious to coups? How to Prevent Coups d'État shows that how leaders organize their coercive institutions has a profound effect on the survival of their regimes. When rulers use presidential guards, militarized police, and militia to counterbalance the regular military efforts to oust them from power, via coups d'État are less likely to succeed. Even as counterbalancing helps to prevent successful interventions, however, the resentment that it generates within the regular military can provoke new coup attempts. And because counterbalancing changes how soldiers and police perceive the costs and benefits of a successful overthrow, it can create incentives for protracted fighting that result in the escalation of a coup into full-blown civil war. Drawing on an original dataset of state security forces in 110 countries over a span of fifty years, as well as case studies of coup attempts in Asia, Africa, Latin America, and the Middle East, De Bruin sheds light on how counterbalancing affects regime survival. Understanding the dynamics of counterbalancing she

shows can help analysts predict when coups will occur whether they will succeed and how violent they are likely to be The arguments and evidence in this book suggest that while counterbalancing may prevent successful coups it is a risky strategy to pursue and one that may weaken regimes in the long term      **Advances in Military Sociology** Giuseppe

Caforio,2009-12-21 A selection of the papers presented at RC01 s international conference in Seoul July 2008 It offers a view of the panorama of social studies on armed forces and conflict resolution in a context of fast moving change that renders many preceding theoretical previsions obsolete      **The Routledge Companion to World History since 1914** Chris

Cook,John Stevenson,2006-01-27 The Routledge Companion to World History since 1914 is an outstanding compendium of facts and figures on World History Fully up to date reliable and clear this volume is the indispensable source of information on a thorough range of topics such as the Arab Israeli conflict anti semitism and the Holocaust all the world s major famines and natural disasters since 1914 whether all countries of the world have a king president prime minister or other governance GNP of the world s major states year by year biographies of key figures civil rights movements the Vietnam War the rise of terrorism globalization Thematically presented the book covers topics relevant from the First World War to the Iraq war of 2003 and from post colonial Africa to conflicts and movements in Southeast Asia With maps chronologies and full bibliography this user friendly reference work is the essential companion for students of history politics and international relations and for all those with an interest in world history      **An Introduction to African Politics** Alex

Thomson,2010-06-10 The third edition of An Introduction to African Politics continues to be the ideal textbook for those new to the study of this fascinating continent It gets to the heart of the politics of this part of the world tackling questions such as How is modern Africa still influenced by its colonial past How do strong ethnic identities on the continent affect government Why has the military been so influential Why do African states have such difficulty managing their economies How does African democracy differ from democracy in the West The result is a textbook that identifies the essential features of African politics allowing students to grasp the recurring political patterns that have dominated this continent since independence Features and benefits of the third edition Thematically organised with individual chapters exploring issues such as colonialism ethnicity nationalism religion social class ideology legitimacy authority sovereignty and democracy Identifies key recurrent themes such as the competitive relationships between the African state its civil society and external interests Contains useful boxed case studies at the end of each chapter including Kenya Tanzania Nigeria Botswana C te d Ivoire Uganda Somalia Ghana Democratic Republic of the Congo and Zimbabwe Each chapter concludes with key terms and definitions as well as questions and advice on further reading Illustrated throughout with images of important political figures and key moments in African history Important terms and concepts are explained in a clear and accessible manner and supported by contemporary examples This expanded fully revised and updated edition remains the ideal gateway for students seeking to make sense of the dynamic and diverse political systems that are a feature of this fascinating part of the world

Latin America Leslie Bethell, 1998-06-13 The Cambridge History of Latin America is a large scale collaborative multi volume history of Latin America during the five centuries from the first contacts between Europeans and the native peoples of the Americas in the late fifteenth and early sixteenth centuries to the present Latin America Politics and Society since 1930 consists of chapters from Part 2 of Volume VI of The Cambridge History that provide a thorough account of political movements in Latin America Each chapter is accompanied by a bibliographical essay
