The Military Intervenes Henry Bienen, 1968-12-31 Explores the mechanisms of military intervention and its consequences The contributors examine a succession of coups attempted coups and established military regimes with a view to evaluate the role of the military as a ruling group and an organization fostering political development These studies cast strong doubt on the abilities of the military as a modernizing and stabilizing agent raising important questions about our policies on military assistance and arms sales Bienen makes an especially strong plea for a reassessment of our military and economic political policies in order to determine whether both are working toward the same goals **The military intervenes : case studies in political development** Henry Bienen,

*State Formation and the Structure of Politics in Mamluk Syro-Egypt, 648-741 A.H./1250-1340 C.E.* Winslow Williams Clifford, 2013 Winslow Williams Clifford is one of the few historians so far who have addressed the history and culture of the so called Mamluk Sultanate 1250 1517 on the basis of theoretical models This volume is a posthumous publication of his doctoral thesis submitted in 1995 at the University of Chicago Through his skillful application of social theory Clifford succeeded in providing highly convincing evidence that the Mamluk rulers did not as was maintained for a long time constitute a static form of oriental despotism but was rather a highly differentiated society It was primarily based on compliance with a complex system of order that had established itself during the rule of the first sultans

Civil-military Relations In Pakistan Saeed Shafqat, 2019-08-16 Taking an explicitly comparative theoretical approach Saeed Shafqat presents a comprehensive exploration of civil military relations in Pakistan He begins by describing the history of military hegemony in this volatile South Asian country and then examines the breakdown of military control assessing the rise of the Pakistan People's Party and the *Proceedings of the Military History Symposium, USAF Academy* United States. Air Force, World Military History Bibliography Barton Hacker, 2003-06-01 Preclassical and indigenous nonwestern military institutions and methods of warfare are the chief subjects of this annotated bibliography of work published 1967 1997 Classical antiquity post Roman Europe and the westernized armed forces of the 20th century although covered receive less systematic attention Emphasis is on historical studies of military organization and the relationships between military and other social institutions rather than wars and battles Especially rich in references to the periodical literature the bibliography is divided into eight parts 1 general and comparative topics 2 the ancient world 3 Eurasia since antiquity 4 sub Saharan Africa and Oceania 5 pre Columbian America 6 postcontact America 7 the contemporary nonwestern world and 8 philosophical social scientific natural scientific and other works not primarily historical *The Politics of Aristocratic Empires* John H. Kautsky, 2017-09-29 The Politics of Aristocratic Empires is a study of a political order that prevailed throughout much of the world for many centuries without any major social conflict or change and with hardly any government in the modern sense Although previously ignored by political science powerful remnants of this old order still persist in modern politics The historical literature on aristocratic empires typically is descriptive and treats each empire as

unique By contrast this work adopts an analytical explanatory and comparative approach and clearly distinguishes aristocratic empires from both primitive and more modern commercialized societies It develops generalizations that are supported and richly illustrated by data from many empires and demonstrates that a pattern of politics prevailed across time space and cultures from ancient Egypt five millennia ago to Saudi Arabia five decades ago from China and Japan to Europe from the Incas and the Aztecs to the Tutsi Kautsky argues that aristocrats because they live off the labor of peasants must perform the primary governmental functions of taxation and warfare Their performance is linked to particular values and beliefs and both functions and ideologies in turn condition the stakes the forms and the arenas of intra aristocratic conflict the politics of the aristocracy The author also analyzes the roles of the peasantry and the townspeople in aristocratic politics and shows that peasant revolts on any large scale occur only after commercial modernization He concludes with chapters on the modernization of aristocratic empires and on the importance in modern politics of institutional and ideological remnants of the old aristocratic order

**Military Disengagement from Politics** Constantine P. Danopoulos, 2024-12-06 First published in 1988 Military Disengagement from Politics explores the reasons and conditions for military withdrawal from politics It gives an in depth analysis of specific grounds and circumstances of a representative list of countries whose military intervened ruled and eventually withdrew allowing for either full scale civilian rule or a more circumscribed set up in which the armed forces retain varying degrees of control in the governing process The book provides a comparative and cross cultural examination of eight countries covering a wide region of the world It offers a carefully chosen array of case studies representing Asia Africa Europe the Middle East and Central and South America This volume is a must read for students and researchers of political science

Military Government and the Movement Toward Democracy in South America Howard Handelmann, Thomas Griffin Sanders, 1981 Sophisticated investigations of governmental transition in Brazil Chile Uruguay Peru and Ecuador Discusses such issues as the undercurrents of popular discontent and the recent progress toward increased civilian political participation

Social Power and the Turkish State Tim Jacoby, 2004-08-02 This book focuses on the historical sociology of the Turkish state seeking to compare the development of the Ottoman Turkish state with similar processes of large scale historical change in Europe identified by Michael Mann in The Sources of Social Power Jacoby traces the contours of Turkey's modernisation with the intention of formulating a fresh way to approach state development in countries on the global economic periphery particularly those attempting to effect closer ties with northern markets It also highlights matters of social change pertinent to states grappling with issues relating to political Islam minority identity and irredentist dissent

*Sociology and Its Publics* Terence C. Halliday, Morris Janowitz, 1992-10-15 Sociology faces troubling developments as it enters its second century in the United States A loss of theoretical coherence and a sense of disciplinary fragmentation a decline in the quality of its recruits the cooptation of its clients a muted public voice and sinking prestige in governmental circles these are only a few of the trends signalling a need for renewed debate about how sociology is

organized In this volume some of the most authoritative voices in the field confront these conditions offering a variety of perspectives as they challenge sociologists to self examination      **Soldiers and Politics in Southeast Asia** J. Stephen Hoadley, 2017-09-05 By exploring the role of military officers and chronicling the sequences of events *Soldiers and Politics in Southeast Asia* offers insight into the conditions that fostered military governments specifically in Thailand Burma South Vietnam Indonesia and Cambodia Critically comparing these case studies and statistics this volume provides readers with a deeper understanding of the causes and consequences of military involvement in the region s politics during the post colonial period covered Two ideologically opposed positions evolved around the phenomenon of military insurgency Technological conservatism generally favors military insurgency in previously civilian led governments There was a presumption that it encourages stability efficiency and anti communism The revisionist position on the other hand was highly critical of technological conservatism especially with regard to its political fervor J Stephen Hoadley asserts that the relevant question is not one of ideological choices rather it is whether a military or civilian led government is better suited for the political and economic development of a particular underdeveloped nation Hoadley argues that there is little difference between military and civilian led governments in their abilities to establish stability and maintain law The book concludes that neither conservative nor radical views are fully correct as to the effects of military led governments on development *Soldiers and Politics in Southeast Asia* focuses exclusively on civil military politics in Southeast Asia in a critical period for the region and it should be read by all individuals interested in Southeast Asian politics and development long after Cold War issues have come to a close      **Arming the Two Koreas** Taik-Young Hamm, 2012-10-12 North Korea has traditionally been seen as militarily superior to South Korea in the long feud between the two nations This brilliantly argued book taps into a great deal of news interest in North Korea at the moment in the wake of recent hostility against Japan Hamm controversially shows that the received idea of Korea s military strength is partly a myth created by South Korea to justify a huge programme of rearmament      **Endgames** Hicham Bou Nassif, 2020-10-01 The 2011 Arab Spring is the story of what happens when autocrats prepare their militaries to thwart coups but unexpectedly face massive popular uprisings instead When demonstrators took to the streets in 2011 some militaries remained loyal to the autocratic regimes some defected whilst others splintered The widespread consequences of this military agency ranged from facilitating transition to democracy to reconfiguring authoritarianism or triggering civil war This study aims to explain the military politics of 2011 Building on interviews with Arab officers extensive fieldwork and archival research as well as hundreds of memoirs published by Arab officers Hicham Bou Nassif shows how divergent combinations of coup proofing tactics accounted for different patterns of military behaviour in 2011 both in Egypt and Syria and across Tunisia and Libya      **Armed Forces, Conflict, And Change In Africa** Henry S. Bienen, 2019-03-04 Nigeria has not evolved political formulas that explicitly allow religion or religious authorities to define legitimacy There have however been struggles carried out in religious terms over constitutional

mechanisms for adjudicating conflict Religion also has been an element in the conflict between ethnic language groups Finally religion provides a language a set of values and institutions through which groups struggle and over which groups contend both within and between religious communities It has been necessary for northern leaders to stress Islam in order to maintain northern unity However Islam itself has worked to intensify fissures opened up by social and economic change in Nigeria Islam in Nigeria continues to be contentious in both domestic and foreign policy African Series United States. Department of State,1970 Military Regimes in Africa W. F. Gutteridge,2023-12-20 Originally published in 1975 this book examines the achievements of and problems encountered by African military regimes in office It begins with 2 chapters discussing trends in the formation and organization of African armies and the influence on these armies of the colonial legacy The author then studies 6 case histories in detail His findings show that though there are certain typical commonalities each regime has its own particular characteristics This will be of interest to students of African military and colonial studies

*Africa* United States. Department of State. Office of Media Services,1970 The Cambridge History of Africa J. D. Fage,Roland Anthony Oliver,Michael Crowder,1975 The eighth and final volume of The Cambridge History of Africa covers the period 1940 75 It begins with a discussion of the role of the Second World War in the political decolonisation of Africa Its terminal date of 1975 coincides with the retreat of Portugal the last European colonial power in Africa from its possessions and their accession to independence The fifteen chapters which make up this volume examine on both a continental and regional scale the extent to which formal transfer of political power by the European colonial rulers also involved economic social and cultural decolonisation A major theme of the volume is the way the African successors to the colonial rulers dealt with their inheritance and how far they benefited particular economic groups and disadvantaged others The contributors to this volume represent different disciplinary traditions and do not share a single theoretical perspective on the recent history of the continent a subject that is still the occasion for passionate debate **The Iranian Military in Revolution and War (RLE Iran D)** Sepehr Zahir,2012-04-27 This book is a fascinating critical examination of the characteristics and development of the armed forces in Iran their role under the Shah and their re creation in the war against Iraq as the fighting forces of Islam The author examines the contradictory accounts including the Shah s own Answer to History as well as newly available accounts by highly placed ex officials and interviews with exiled army officers He examines in detail the apparent shift of allegiance within the forces from the Shah to Imam and the ways in which this was accomplished Major Iranian offensives changing strategies from human wave assault to the Tankers War and the delicate balance between the regular Army and the Revolutionary Guards are also extensively examined The book concludes with an analysis of the potential role of the armed forces in a succession crisis
