Ethnicity and Sociopolitical Change in Africa and Other Developing Countries

Santosh C. Saha, 2008-03-07 This edited collection of essays answers a basic question posed by contemporary discourse on state building How might people's identification with a particular ethnic group matter Essays in this book use an integrated multi disciplinary approach to understanding regional and local community culture and socio political development in developing countries especially in Sub Saharan Africa to argue that the state as well as civil society confers on cultural differences a legitimacy that can be achieved in no other way but by positive cooperation Contributors from different countries look at local patterns in state building and modernization as they have unfolded over the course of the last fifty years They claim that the people and ethnic groups in most developing countries adhere to a concept of popular sovereignty that testifies that aspects of positive and moral ethnicity can contribute to social change as in China economic development as in India or in a democratization process as in Rwanda and Burundi The eventual methodological assumption made by these essays presumes that ethnic conflicts in such countries as Cyprus Turkey India and Rwanda have no moral sanction ethnicity has not assumed a political ideology One conclusion reached by the contributors is that some form of accommodation between opposing ethnically diversified groups as well as between state and ethnic elements is feasible

The African State in Transition Zaki Ergas, 1987-10-20 In the first twenty five years of African independence the behaviour of the African state elites has not been with a few notable exceptions conducive to self sustained development What are the reasons for this sorry state of affairs What can be done to reverse that unfortunate trend These are the two overarching questions with which this book attempts to grapple

Power, Politics, and the African Condition Ali Al'Amin Mazrui, 2004 *Power Politics and the African Condition* is the third volume of *The Collected Essays of Ali A Mazrui*

which will provide readers with a broad spectrum of Ali A Mazrui's scholarly writings. The third volume is centered on issues of power and politics at the nexus of Africa's domestic affairs and its international concepts about the disequilibrium of power in the international system and the problems that Africa has confronted globally because of it. Mazrui focuses the reader's attention on the impact that the colonial legacy and African tradition had on state formation, leadership, Africa's political economy, violence, and conflict resolution while presenting some of his most interesting and even controversial ideas for building Pax Africana. Spanning nearly forty years, Mazrui's essays are classic and contemporary statements on the diagnosis and treatment of what he called The African Condition.

Mugabe and the Politics of Security in Zimbabwe

Abiodun Alao, 2012-10-01 In 1980 the newly independent and democratic Zimbabwe was a beacon of hope in a troubled region. Three decades later Zimbabwe became the focus of international attention for very different reasons: acrimonious racial relations, controversial elections, economic hardship, and military intervention in the Democratic Republic of the Congo. Mugabe and the Politics of Security in Zimbabwe argues that this unfortunate transition is intrinsically linked to the ways in which President Robert Mugabe used the politics of domestic and external security for his own gain. Abiodun Alao presents a comprehensive study of defense institutions, domestic security policy, and external use of military force during Mugabe's decades of rule. He identifies the role of personality in security and explains how the machinations of a self-perpetuating ruler shaped the economic and political dynamics of the struggling nation. He also provides analytical perspectives on Mugabe's transformations from a freedom fighter to a stable president of a relatively economically strong independent country and finally to an imprudent autocrat and international pariah. Nuanced, impassioned, and timely, *Mugabe and the Politics of Security in Zimbabwe* sheds new light on the effects of national security policy and develops a clear picture of the country's past, present, and future.

Paul Nugent, 2012-06-13 An indispensable introductory textbook that provides students with a genuinely comparative study of the different trajectories and experiences of independent African states.
