Electronics In The Evolution Of Flight Albert D. Helfrick, 2004 Electronics in the Evolution of Flight traces the paired history of modern aviation and electronics through their births in the minds of early thinkers and dreamers such as the Wright Brothers and Alexander Graham Bell to their eventual marriage under the name avionics Author Albert Helfrick provides a thorough account of the roles played by the famous and the obscure from Edwin Howard Armstrong to Nikola Tesla and David Sarnoff in the successful creation of aviation technology Helfrick does not limit his discussion to the flying machines themselves but instead focuses much of his work on the advancement of electronic systems that have kept them in the air and turned aviation into the industry it is today He gives a clear explanation of technical definitions and acronyms including Radio Detection and Ranging RADAR the Instrument Landing System ILS the difference between short waves and microwaves as well as the role of amateur short wave radio operators in proving the usefulness of amazingly short radio waves in communication With an easy familiarity he reviews topics as varied as the Morse code the Radio Club of America and the evolution of microprocessors Helfrick covers the history of all of the engineering and electronic developments involved in getting an airplane off the ground and keeping it in the air he does so in a style that will satisfy the curiosity of every reader from engineer to layman
