Military And Government From Macmillan To Heseltine:

Government and Armed Forces in Britain, 1856-1990 Paul Smith, 2010-07-15 In a period that began with Britain controlling a world wide empire and included two world wars followed by the Cold War and massive expenditure on nuclear armaments the relationship between the politicians and the generals has been central to British history While it is correctly assumed that the Armed Forces have never threatened British political stability in modern times the relationship between the military and their political masters is a major if under emphasised theme of British history While in theory the politicians decided strategy and the military implemented it in practice decisions often depended on the personalities and experience of those involved Asquith the epitome of the civilian left major strategic decisions in the hands of the military while Churchill an ex soldier and ex First Lord of the Admiralty rode roughshod over professional military advice In a period when arms before ever more technologically sophisticated there was also the problem of how far politicians could decide on strategies proposed by the military other than by the crude yardstick of cost The essays in *Government and the Armed Forces in Britain 1856 1990* provide a coherent account not only of the major decision making of warfare but also of the changes in the organisation and control of the Armed Forces [The Authorised History of British Defence Economic Intelligence](#) Peter

Davies, 2018-06-27 This book is the first history of UK economic intelligence and offers a new perspective on the evolution of Britain's national intelligence machinery and how it worked during the Cold War British economic intelligence has a longer pedigree than the Joint Intelligence Committee JIC and was the vanguard of intelligence coordination in Whitehall yet it remains a missing field in intelligence studies This book is the first history of this core government capability and shows how central it was to the post war evolution of Whitehall's national intelligence machinery It places special emphasis on the Joint Intelligence Bureau and Defence Intelligence Staff two vital organisations in the Ministry of Defence underpinning the whole Whitehall intelligence edifice but almost totally ignored by historians Intelligence in Whitehall was not conducted in a parallel universe This contrasts with the conventional wisdom which accepts the uniqueness of intelligence as a government activity and is symbolised by the historical profile of the JIC The study draws on the official archives to show that the mantra of the existence of a semi autonomous UK intelligence community cannot be sustained against the historical evidence of government departments using the machinery of government to advance their traditional priorities Rivalries within and between agencies and departments and their determination to resist any central encroachment on their authority emasculated a truly professional multi skilled capability in Whitehall at the very moment when it was needed to address emerging global economic issues This book will be of much interest to students of British government and politics intelligence studies defence studies security studies and international relations in general

Military and Government Ewen Broadbent, 1988 **British Grand Strategy in the Age of American Hegemony** William D. James, 2024 Employing several historical case studies between 1940 2003 and marshalling a host of primary sources William D James argues that

British politicians and officials have thought in grand strategic terms under American hegemony even if they do not realise or admit to this

Britain's Retreat from East of Suez Saki Dockrill, 2002-07-09 This book based on recently declassified documents in Britain and the USA is the first detailed account of Britain's East of Suez decision which was taken by the Harold Wilson Government in 1967-68. Contrary to received opinion the author argues that the decision was not taken hastily as a result of the November 1967 devaluation. Nor is there any hard evidence to support the notion that there existed a Pound Defence deal with the USA. Despite Washington's pressure to maintain Britain's East of Suez role the decision was taken by the Labour Government on the basis of a long term effort to re-examine Britain's world role since 1959 and it marked the end of an era for postwar Britain

Understanding UK Military Capability Andrew R. Curtis, 2022-11-23 Between 2021 and 2031 the UK government is set to spend over 230 billion on its military. Who decides how to use these funds and how can we be sure that the UK's armed forces can meet the threats of tomorrow? This book provides the answers to these crucial questions. Concentrating on decisions taken below the political level it uncovers the factors that underpin the translation of strategic direction into military capability. In a series of interviews over 30 top admirals, generals and air marshals give their own views on the procurement and maintenance of the nation's current and future military capability. Their unrivalled professional knowledge and experience affords a fascinating insight into the higher management of national defence

We Need to Talk About Defence Andrew Curtis, 2024-09-19 Based on a distinguished 35 year career in the RAF as an Air Commodore Andrew R. Curtis highlights what is wrong with the way defence is managed today and presents evidence based proposals to fix it. Defence is failing to deliver. From the ability of the Ministry of Defence (MoD) to develop defence policy to the single service's Royal Navy, British Army and Royal Air Force (RAF) ability to acquire and maintain military capability and undertake military operations. This is not a new problem indeed ever since the creation of the MoD in 1964 there have been tensions between the department of state and the armed forces over allocations of responsibility, authority and accountability. Concerned with political oversight, the allocation of responsibility, authority and accountability, administration of people, organisational structures and policies and processes, Curtis compellingly demonstrates the critical need to reform the management of Defence for the UK's armed forces to fight and win in the future

British Defence in the 21st Century John Louth, Trevor Taylor, 2018-09-21 This book analyses UK defence as a complex interdependent public-private enterprise covering politics, management, society and technology as well as the military. Building upon wide-ranging applied research with extensive access to ministers, policy makers, senior military commanders and industrialists, the book characterises British defence as a phenomenon that has endured extensive transformation this century. Looking at the subject afresh as a complex extended enterprise involving politics, alliances, businesses, skills, economics, military practices and citizens, the authors profoundly reshape our understanding of defence and how it is to be commissioned and delivered in a world dominated by geopolitical risks and uncertainties. The book makes the case that this new understanding of defence must inevitably lead to

new policies and processes to ensure its health and vitality This book will be of much interest to students of defence studies British politics and military and strategic studies as well as policy makers and practitioners Britain and Defence

1945-2000 Stuart Croft, Peter Dorman, 2014-06-06 This text provides a concise thematic introduction to the evolution of British defence policy since the end of the second world war **Kenya and Britain after Independence** Poppy

Cullen, 2017-06-30 This book explores British post colonial foreign policy towards Kenya from 1963 to 1980 It reveals the extent and nature of continued British government influence in Kenya after independence It argues that this was not simply about neo colonialism and Kenya's elite had substantial agency to shape the relationship The first section addresses how policy was made and the role of High Commissions and diplomacy It emphasises contingency with policy produced through shared interests and interaction with leading Kenyans It argues that British policy makers helped to create and then reinforced Kenya's neo patrimonialism The second part examines the economic military personal and diplomatic networks which successive British governments sustained with independent Kenya A combination of interlinked interests encouraged British officials to place a high value on this relationship even as their world commitments diminished This book appeals to those interested in Kenyan history post colonial Africa British foreign policy and forms of diplomacy and policy making

Intelligence in the Cold War: What Difference did it Make? Michael Herman, Gwilym Hughes, 2013-09-13 Intelligence was a major part of the Cold War waged by both sides with an almost warlike intensity Yet the question What difference did it all make remains unanswered Did it help to contain the Cold War or fuel it and keep it going Did it make it hotter or colder Did these large intelligence bureaucracies tell truth to power or give their governments what they expected to hear These questions have not previously been addressed systematically and seven writers tackle them here on Cold War aspects that include intelligence as warning threat assessment assessing military balances Third World activities and providing reassurance Their conclusions are as relevant to understanding what governments can expect from their big secret organizations today as they are to those of historians analysing the Cold War motivations of East and West This book is valuable not only for intelligence international relations and Cold War specialists but also for all those concerned with intelligence's modern cost effectiveness and accountability This book was published as a special issue of Intelligence and National Security The Oxford Handbook of War Julian Lindley-French, Yves Boyer, 2012-01-19 This comprehensive study explores the history theory ethics and practice of war in the 21st century **Defence Under Thatcher A.**

Dorman, 2002-03-07 Drawing upon a wide range of interviews with many of the key actors Andrew Dorman examines how defence policy was formulated and implemented during the premiership of Margaret Thatcher This period witnessed major transformations in international and domestic politics with defence emerging from its traditional postwar position of relative insignificance to become one of the key issues at the 1983 and 1987 general elections Dorman provides a new understanding of policymaking by analysing defence policy in terms of three constituent parts declaratory policy military strategy and

procurement policy War: A Matter of Principles Air Marshal David Evans, 2016-07-27 The author has carried out a searching review of the principles promulgated by the British and American Defence Forces in order to assess their continuing validity and relevance to warfare in the late 1990s and the 21st century Recognising that principles will be applied by commanders to meet specific situations in the field he extends this study to embrace leadership and training for leadership and command In the final chapter he addresses the moral responsibilities of those exercising command of their fellow countrymen and other assigned forces

Geopolitics Bert Chapman, 2011-04-07 This concise introduction to the growth and evolution of geopolitics as a discipline includes biographical information on its leading historical and contemporary practitioners and detailed analysis of its literature An important book on a topic that has been neglected for too long Geopolitics A Guide to the Issues will provide readers with an enhanced understanding of how geography influences personal national and international economics politics and security The work begins with the history of geopolitics from the late 19th century to the present then discusses the intellectual renaissance the discipline is experiencing today due to the prevalence of international security threats involving territorial airborne space based and waterborne possession and acquisition The book emphasizes current and emerging international geopolitical trends examining how the U S and other countries including Australia Brazil China India and Russia are integrating geopolitics into national security planning It profiles international geopolitical scholars and their work and it analyzes emerging academic military and governmental literature including gray literature and social networking technologies such as blogs and Twitter

Arms, Economics and British Strategy G. C. Peden, 2007-02-08 This book integrates strategy technology and economics and presents a new way of looking at twentieth century military history and Britain's decline as a great power G C Peden explores how from the Edwardian era to the 1960s warfare was transformed by a series of innovations including dreadnoughts submarines aircraft tanks radar nuclear weapons and guided missiles He shows that the cost of these new weapons tended to rise more quickly than national income and argues that strategy had to be adapted to take account of both the increased potency of new weapons and the economy's diminishing ability to sustain armed forces of a given size Prior to the development of nuclear weapons British strategy was based on an ability to wear down an enemy through blockade attrition in the First World War and strategic bombing in the Second and therefore power rested as much on economic strength as on armaments

Military and Government Sir Ewan Broadbent, 1988-06-18 Governments have changed the central defence organization in attempts to improve decision taking and to streamline the Ministries Have the changes worked This book provides a view of how a part of government has evolved over this period

The Official History of the UK Strategic Nuclear Deterrent Matthew Jones, 2017-05-12 Volume I of The Official History of the UK Strategic Nuclear Deterrent provides an authoritative and in depth examination of the British government's strategic nuclear policy from 1945 to 1964 Written with full access to the UK documentary record this volume examines how British governments after 1945 tried to build and then maintain an

independent nationally controlled strategic nuclear capability and the debates this provoked in official circles Against a background of evolving British ideas about deterrence during the Cold War it focuses on the strategic political and diplomatic considerations that compelled governments in the face of ever increasing pressures on the defence budget to persist in their efforts to develop nuclear weapons and to deploy a credible nuclear force as the age of the manned bomber gave way to the ballistic missile Particular attention is given to controversies over the portion of the defence budget devoted to the deterrent programme the effects of the restoration of Anglo American nuclear collaboration after 1958 increasing reliance on the United States for nuclear delivery systems the negotiations that led to the Nassau Agreement of 1962 and the supply of Polaris and discussions within the Western Alliance over the control of nuclear forces By the time of the October 1964 election when this volume concludes previous dismissal of the prospects for successful ballistic missile defence were giving way to growing doubts over the long term effectiveness of the Polaris system in its role as an independent deterrent several years before it was due to enter service with the Royal Navy This book will be of much interest to students of British politics Cold War history nuclear proliferation and international relations *Ending 'East of Suez'* P. L. Pham, 2010-01-28 P L Pham examines the reasons for the Wilson Government's decision to withdraw from East of Suez Drawing upon previously classified records in the United Kingdom USA and Australia Pham provides a detailed and comprehensive examination of the British policy process leading up to the final decision to withdraw **Soviet Power: The Continuing Challenge** James Sherr, 1991-06-18 Representing the culmination of an RUSI main theme study Soviet Power and Prospects this volume is based on the Institute's proposition that military power exerts a profound influence on the course of world politics and that such power cannot be divorced from its social and political context
