Military Assistance In Recent Wars:

Warfare and the Third World R. Harkavy, S. Neuman, 2016-04-30 This book is designed to help the reader better understand the conduct of war by focusing on the how not the why of warfare It examines a number of crucial dimensions of contemporary armed conflict such as the strategies operations tactics doctrines and weapons of conventional and low intensity war military geography the cultural underpinnings of strategies and tactics arms resupply security assistance and foreign intervention

International Law and New Wars Christine Chinkin, Mary Kaldor, 2017-04-19 International Law and New Wars examines how international law fails to address the contemporary experience of what are known as new wars instances of armed conflict and violence in places such as Syria Ukraine Libya Mali the Democratic Republic of Congo and South Sudan International law largely constructed in the nineteenth and twentieth centuries rests to a great extent on the outmoded concept of war drawn from European experience inter state clashes involving battles between regular and identifiable armed forces The book shows how different approaches are associated with different interpretations of international law and in some cases this has dangerously weakened the legal restraints on war established after 1945 It puts forward a practical case for what it defines as second generation human security and the implications this carries for international law

Weapons for Peace, Weapons for War Cassady B. Craft, 1999-08-04 On the debate over whether or not arms transfers increase or deter the chances of war Cassady B Craft offers a balanced assessment of the effect of arms transfers on war involvement and outcomes He considers correlations at the state and global level supplier and recipient relationships and the extent of the relationship in the perceptions of individual leaders This is the first study to examine the influence of arms transfers on combined interstate and civil wars Drawing on a variety of theories and quantitative methods including force on force attrition models it uses innovative techniques that have the potential to change the way analysts weigh the impact of weapons sales This book will provide both analysts and policymakers with a comprehensive examination of the various tradeoffs between weapons sales and the probability of conflict

New Wars Scott Nicholas Romaniuk, 2013 Al Qaeda s deadly assaults against the American homeland on September 11 2001 deeply altered regional security architectures the world over Religious extremists responsible for having coordinated and implemented the 9 11 attacks have brought state and non state actors to radically reconsider traditional concepts of security including responses and the need for tactical and strategic preemption in the face of growing conventional and asymmetric threats to communities at home and abroad Drawing upon critical new research the analyses presented by the contributors of this volume challenge and even shatter previously held ideas about domestic and international terrorism and state sanctioned violence They shed light upon new conceptions of security as well as the need for actors to address existing and emerging cultures of fear and critical susceptibilities in the face of wanton violence and

security of the state in the 21st century Foreign Assistance and Related Agencies for 1968 United States. Congress. House. Appropriations,1967 **Military Industry and Regional Defense Policy** Timothy D. Hoyt,2017-07-05 Military Industry and Regional Defense Policy re examines military industrialization in the developing world focusing on policy making in producer states and the impact of security perceptions on such policy making Timothy D Hoyt reassesses the role of regional state sub systems in international relations and recent historical studies of international technology and arms transfers Looking at Israel Iraq and India the three most powerful regional powers in the Cold War era he presents an expert analysis of the three sided phenomena of the regional hegemony the regional competitor and the small over achiever This new book breaks away from existing literature on military industries in the developing world which has focused on their economic and development costs and benefits These past studies have used primitive methodologies that focus on the production of complete weapons systems a misleading gauge in a world of growing international defense cooperation They have also ignored empirical evidence of the impact of local military industrial production on Cold War regional conflict and of the defence planning and concerns that drove development of indigenous military industries in key regional powers This new text delivers an incisive new perspective Air University Library Index to Military Periodicals ,1987 **The Arms Dynamic in South-East Asia During the Second Cold War** Mark. G Rolls,2017-11-30 This title was first published in 2002 This work uses the concept of the arms dynamic to identify and assess the various factors which influenced arms acquisitions of Southeast Asian states during the second Cold War period from 1979 to 1989 providing an essential basis for understanding contemporary developments The book provides a comprehensive and systematic explanation of the reasons for arms purchases in SE Asia during the 1980s and aims to fill a gap in the literature by fully exploring arms procurement processes in the region prior to the end of the Cold War *The Myth of the Military-Nation* A. Altınay,2004-12-09 Altınay examines how the myth that the military is central to Turkey's national identity was created perpetuated and acts to shape politics Tracing how the ideology of militarism is maintained and its implications for ethnic and gender relations she considers the challenges facing Turkey as it moves from being a plural to a pluralistic society **New Wars and New Soldiers** Paolo Tripodi,Jessica Wolfendale,2011 New military technologies the rise of private military companies and the increasing involvement of the military in counterterrorism and humanitarian operations all pose challenges to traditional ideas about the ethics of war the relevance of current international law governing armed conflict and Just War theory This book brings together experts on military ethics to discuss the changing nature of the military's role in the contemporary world *Economic Issues in Military Assistance* United States. Congress. Joint Economic Committee. Subcommittee on Economy in Government,1971 *Handbook of the Sociology of the Military* Giuseppe Caforio,Marina Nuciari,2018-05-19 This new edition of the volume is presented on the wave of the success which had its first edition 2003 It is entirely updated to the current situation of the disciplines covered and expanded with particular regard to the new missions that have become

the main challenge for the armed forces in these first decades of the new millennium with new insights to technological development toward so called cyborg warriors new forms of leadership and changes in soldier s identity and organisational culture It is compiled of documents coming from various researchers at universities around the world as well as military officers devoted to the sector of study Covered in this volume is a historical excursus of studies prior to contemporary research interpretive models and theoretical approaches developed specifically for this topic civic military relations including issues surrounding democratic control of the armed forces military culture professional training conditions and problems of minorities in the armed forces an examination of the structural change within the military over the years including new duties and functions following the Cold War

The Routledge Research Companion to Security Outsourcing Joakim Berndtsson, Christopher Kinsey, 2016-06-10 Conveniently structured into five sections The Routledge Research Companion to Outsourcing Security offers an overview of the different ways in which states have come to rely on private contractors to support interventions Part One puts into context the evolution of outsourcing in Western states that are actively involved in expeditionary operations as well as the rise of the commercial security sector in Afghanistan To explain the various theoretical frameworks that students can use to study security military outsourcing Part Two outlines the theories behind security outsourcing Part Three examines the law and ethics surrounding the outsourcing of security by focusing on how states might monitor contractor behaviour hold them to account and prosecute them where their behaviour warrants such action The drivers politics and consequences of outsourcing foreign policy are covered in Part Four which is divided into two sections section one is concerned with armed contractors providing the provision of private security with the main driver being a capability gap on the part of the military law enforcement agencies and section two looks at military contractors supporting military operations right back to antiquity less controversial politically and often technologically driven The final Part takes into consideration emerging perspectives exploring areas such as gender feminist methodology maritime security and the impact of private security on the military profession This book will be of much interest to students of military and security studies foreign policy and International Relations

Life Course Perspectives on Military Service Janet M. Wilmoth, Andrew S. London, 2013-01-04 This edited volume provides a comprehensive and critical review of what we know about military service and the life course what we don t know and what we need to do to better understand the role of military service in shaping people s lives It demonstrates that the military like colleges and prisons is a key social institution that engages individuals in early adulthood and shapes processes of cumulative disadvantage over the life course The chapters provide topical syntheses of the vast but diffuse research literatures on military service and the life course while the volume as a whole helps to set the agenda for the next generation of data collection and scholarship Chapter authors pay particular attention to how the military has changed over time how experiences of military service vary across cohorts and persons with different characteristics how military service affects the lives of service members spouses children and families

United States. Congress. Senate. Committee on Foreign Relations,1973 A History of the Laws of War: Volume 2
Alexander Gillespie,2011-10-07 This unique new work of reference traces the origins of the modern laws of warfare from the earliest times to the present day Relying on written records from as far back as 2400 BCE and using sources ranging from the Bible to Security Council Resolutions the author pieces together the history of a subject which is almost as old as civilisation itself The author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and ascribing rules to them protecting civilians who are either inadvertently or intentionally caught up between them and controlling the use of particular classes of weapons that may be used in times of conflict Thus it is that this work is divided into three substantial parts Volume 1 on the laws affecting combatants and captives Volume 2 on civilians and Volume 3 on the law of arms control This second book on civilians examines four different topics The first topic deals with the targetting of civilians in times of war This discussion is one which has been largely governed by the developments of technologies which have allowed projectiles to be discharged over ever greater areas and attempts to prevent their indiscriminate utilisation have struggled to keep pace The second topic concerns the destruction of the natural environment with particular regard to the utilisation of starvation as a method of warfare and unlike the first topic this one has rarely changed over thousands of years although contemporary practices are beginning to represent a clear break from tradition The third topic is concerned with the long standing problems of civilians under the occupation of opposing military forces where the practices of genocide collective punishments and or reprisals and rape have occurred The final topic in this volume is about the theft or destruction of the property of the enemy in terms of either pillage or the intentional devastation of the cultural property of the opposition As a work of reference this set of three books is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself *War Service of the University of New Mexico ,1919*
