The Challenges of the US-Japan Military Arrangement: Competing Security Transitions in a Changing International Environment Anthony DiFilippo, 2015-06-03

This is an in depth analysis of the U S Japan security alliance and its implications for Japan and the Asia Pacific region It moves away from the official line that the alliance is a vital aspect of Japan's security policy and introduces issues and arguments that are often overlooked American security policy has failed to achieve its goals Japan's interests are not fully served by the alliance the alliance itself is a source of instability in the region and the arrangement has placed constraints on Japan's own political development The author measures current developments in U S foreign policy against Japan's role in the region and Japan's own political development He assesses the consequences of the alliance for the current regional situation in Northeast Asia looks at future

policy options for Japan and makes the case for a neutralist security policy **Shaping U.S. Military Forces for the Asia-Pacific** Michael R. Kraig, 2014-06-04 The first twenty years of post Cold War US defense and diplomatic policies toward Asia have looked a good deal like the previous 50 namely continued deterrence based upon overwhelming offensive military predominance In East Asia all powers harbor common and divergent interests based on fragmented nationalist identities and complex economic interdependence In this multipolar Asian system new Chinese military capabilities could support both the wish to secure its own interests as well as a more expansive vision for regional leadership which might harbor a destabilizing geopolitical agenda How the United States addresses this reality via military procurements and employment concepts for the Asian theater could either detract from or enhance crisis stability The US defense establishment must reorient its force posture to save money manage conflicts of interest and prevent future interstate crises This analysis provides a framework for how the United States should ideally structure and use military power so as to best support the diplomatic resolution of conflicting interests without resorting to full scale warfare It also critiques the usual Western military focus on offensive strategic predominance in force postures itself often fuelled by the unrealistic pursuit of the opponent's complete submission via victory in decisive battles *Rethinking Security in East Asia* J. J. Suh, Peter J. Katzenstein, Allen Carlson, 2004 Is East Asia heading towards war This text makes a case for a new theoretical approach called analytical eclecticism by the authors to the study of Asian security *Maritime Security between China and Southeast Asia* Liselotte Odgaard, 2017-03-02 Arguing that security relations between China and Southeast Asia are profoundly affected by disputes over maritime space and territory in the South China Sea the author demonstrates that the primacy of strategic competition over strategic partnerships promotes the emergence of a structure of deterrence encouraging South East Asia to side with the United States to balance the military power of China Combining the concepts of international disputes and order the book establishes a framework designed to focus on periods of transition where international regulatory mechanisms are out of step with developments in the security environments of states Features include Substantial evidence that strategic competition between the United States China and South East Asia promotes stability A comprehensive account of military diplomatic economic historical and legal aspects of security environments of states Suitable for scholars and graduate students of international relations international law security studies conflict management and regionalism it will also be invaluable supplementary reading for undergraduate courses Japan's Security Relations with China Since 1989 Reinhard Drifte, 2005-08-03 1 Japanese Chinese relations under Cold War conditions 2 The rise of traditional and non traditional security concerns 3 Between power balancing and enmeshment policies 4 The dynamics of engagement **Air University Library Index to Military Periodicals**, 1999 *South Asia's Cold War* Rajesh M. Basrur, 2008-04-28 This book is a groundbreaking analysis of the India Pakistan nuclear confrontation as a form of cold war that is a hostile relationship between nuclear rivals Drawing on nuclear rivalries between similar pairs United States Soviet Union United States China Soviet

Union China and United States North Korea the work examines the rise process and potential end of the cold war between India and Pakistan It identifies the three factors driving the India Pakistan rivalry ideational factors stemming from partition oppositional roles created by the distribution of power in South Asia and the particular kind of relationship created by nuclear weapons The volume assesses why India and Pakistan continue in non crisis times to think about power and military force in outmoded ways embedded in pre nuclear times and draws lessons applicable to them as well as to other contemporary nuclear powers and states that might be engaged in future cold wars An Awkward Embrace Dan Blumenthal, Phillip Swagel, 2012 In An Awkward Embrace Phillip Swagel applies his experience at the Treasury Department to show the reader why America's economic relationship with China has been a beneficial one and details what needs to happen for this trend to continue Daniel Blumenthal a former official specializing in Asia at the Department of Defense is far less optimistic when examining the military diplomatic and security ties the United States has or lacks with China China's overall view of the West and especially of America is one of hostility and suspicion Furthermore China has engaged in military diplomatic and human rights actions that are objectionable to a nation such as the United States which seeks to encourage the establishment of responsible government worldwide The tension here is real how can the United States manage this relationship in a way that keeps its economic engagement with China on a steady course but likewise protects its national security interests Blumenthal and Swagel offer three possible paths for the U S China relationship In all of them they strive to demonstrate how internal forces are shaping China's interactions with other nations and furthermore how US leaders can attempt to attain a world order that includes a strong China that contributes positively while nonetheless preparing for the worst case scenario of China engaging in more assertive and destabilizing behavior Rethinking Japanese Security Peter J. Katzenstein, 2008 Since the unexpected end of the Cold War standard arguments about power politics can no longer be adopted uncritically This has led to a renewed interest in Japan's unusually peaceful security policy Japan's championing of comprehensive security is central to this collection Peter J Katzenstein's essays explore this concept which not only encompasses traditional military concerns but also domestic aspects of security The book's focus on counter terrorism and national security highlights a policy approach which over decades Japan has developed with political patience and diplomatic finesse These essays advocate an eclectic approach that helps in recognizing new questions and that seek to combine elements from different analytical perspectives in the exploration of novel lines of argument Additionally the book features an entirely new substantial introduction that explores and elaborates the themes of the collection while bringing it up to date This collection will be of significant interest to students and scholars of Japanese politics security studies and international relations Balance of Power T. V. Paul, James J. Wirtz, Michel Fortmann, 2004 Since the sudden disappearance of the Soviet Union many scholars have argued that the balance of power theory is losing its relevance This text examines this viewpoint as well as looking at systematic factors that may hinder or favour the return of balance of power politics The U.S. Army

and the New National Security Strategy Lynn E. Davis, Jeremy Shapiro, Bruce Nardulli, Roger Cliff, Nora Bensahel, 2003-07-09 This book examines the Army's role in the war on terrorism the Army's homeland security needs the implications of increased emphasis on Asia the Army's role in coalition operations the unfinished business of jointness the lessons learned from operations and how to prepare for the future the Army's deployability logistical and personnel challenges and whether the Army can afford its Transformation These examinations are bracketed by an introduction a description of the Army's place in the new national security strategy and a summary of the authors conclusions **Liberating Kosovo** David L. Phillips, 2012-07-20 A compelling account of the diplomatic and military actions that led to Kosovo's independence and their implications for future U S and UN interventions Kosovo after its incorporation into the Serbian Republic of Yugoslavia became increasingly restive during the 1990s as Yugoslavia plunged into internal war and Kosovo's ethnic Albanian residents Kosovars sought autonomy In March 1999 NATO forces began airstrikes against targets in Kosovo and Serbia in an effort to protect Kosovars against persecution The bombing campaign ended in June 1999 and Kosovo was placed under transitional UN administration while negotiations on its status ensued Kosovo eventually declared independence in 2008 Despite internal political tension and economic problems the new nation has been recognized by many other countries and most of its inhabitants welcome its separation from Serbia In *Liberating Kosovo* David Phillips offers a compelling account of the negotiations and military actions that culminated in Kosovo's independence Drawing on his own participation in the diplomatic process and interviews with leading participants Phillips chronicles Slobodan Milosevic's rise to power the sufferings of the Kosovars and the events that led to the disintegration of Yugoslavia He analyzes how NATO the United Nations and the United States employed diplomacy aerial bombing and peacekeeping forces to set in motion the process that led to independence for Kosovo He also offers important insights into a critical issue in contemporary international politics how and when the United States other nations and NGOs should act to prevent ethnic cleansing and severe human rights abuses The Arms Race in Asia Andrew T.H. Tan, 2013-12-13 This book is the first systematic examination of the emerging arms race in Asia The global trade in arms is to a large degree underpinned by the strong demand for arms in Asia and the Middle East the two largest arms export markets in the world Of these two regions Asia has become particularly significant led by the emergence of China and India as major powers It is therefore not surprising that the rapid military modernisation in Asia accompanied by significant increases in the size and sophistication of armed forces has generated attention as to its trends key characteristics causes and implications This phenomenon which has become evident since the end of the Cold War has also been widely described as an Asian arms race This book evaluates the key conceptual ideas which can shed light on this phenomenon as well as examining the complex mix of internal external and technological factors that have led to its emergence The volume explores the way in which the arms race is leading ultimately to three distinctive blocs in the emerging geostrategic landscape a loose bloc of US allies in the region a counter bloc of potential US adversaries and a

neutral bloc of states with industrial age armed forces whose allegiances will vary according to circumstances and geostrategic developments The Arms Race in Asia concludes that if the emerging arms race is left unchecked it is likely that Asia will increasingly become a region of instability marked by conflicts and interstate wars The book will be of great interest to students of Asian politics strategic studies defence studies security studies and IR in general **Regional Peacemaking and Conflict Management** Carmela Lutmar,Benjamin Miller,2015-11-06 This volume examines mechanisms for regional peacemaking and conflict management in Europe and the Middle East To date little research has been devoted to uncovering the conditions for peace and the factors that contribute to stabilizing the state of peace This volume assesses the factors that contribute to regional pacification the incentives that motivate states in establishing peaceful relations and most importantly how regions become peaceful It discusses the conditions under which various types of peace might emerge on a regional level and the factors most likely to determine the outcome The book takes an innovative approach through a systematic comparison of two regions that are particularly prominent and important for the subject of regional pacification Europe and the Middle East While many believe that the European case is the indispensable model for peacemaking others believe that these two regions are too different for Europe to be a useful framework for the Middle East This volume occupies a middle ground between these two extreme positions It argues that while a mindless copying of European models will not lead to peace in the Middle East important insights can be gained from the most successful case of regional peacemaking to date This work will be of much interest to students of regional security peacemaking conflict management Middle East politics European security and IR in general **Naval War College Review** ,2001 **Asia-Pacific Strategic Relations** William T. Tow,2001-12-10 This comprehensive 2002 book is an overview of security issues in the Asia Pacific It is also an argument for a strategy that promises to achieve greater regional stability It argues that current approaches by policy makers increase the likelihood of conflict Instead it proposes that a strategy of convergent security be adopted to build a more enduring and peaceful regional security framework A concise survey of key approaches to regional security politics it presents a vast selection of empirical discussion both historical and current Assessing the outlook for the three powers most likely to vie for regional dominance the United States China and Japan the book also reviews the prospects for other secondary powers including Korea and Taiwan and analyses the role of Australia and the ASEAN nations of Southeast Asia Unique accessible authoritative and broad ranging survey designed for a wide body of analysts and students of contemporary Asian politics and strategy
