Since the United States entry into World War II the federal judiciary has taken a prominent role in the shaping of the nation's military laws. Yet a majority of the academic legal community studying the relationship between the Court and the military establishment argues otherwise providing the basis for a further argument that the legal construct of the military establishment is constitutionally questionable. Centering on the Cold War era from 1968 onward this book weaves judicial biography and a historic methodology based on primary source materials into its analysis and reviews several military law judicial decisions ignored by other studies. This book is not designed only for legal scholars. Its intended audience consists of Cold War military and political historians as well as political scientists and military and national security policy makers. Although the book's conclusions are likely to be favored by the military establishment the purpose of this book is to accurately analyze the intersection of the later twentieth century's American military political social and cultural history and the operation of the nation's armed forces from a judicial vantage.

Military Law and Precedents (Classic Reprint) William Winthrop, 2017-12-13

Excerpt from *Military Law and Precedents* In view of the absence and want of a comprehensive treatise on the science of Military Law it has been for some years the purpose of the author a member of the bar in the practice of his profession when in April 1861 he entered the military service to attempt to supply such want with a Work which by reason of its extended plan and full presentation of principles and precedents should constitute not merely a text book for the army but a law book adapted to the use of lawyers and judges. The present treatise was substantially completed in 1880 when the author was called upon to publish his annotated Digest of Opinions of the Judge Advocates General and some of the references embraced in the original work were inserted in the notes of that publication. pronounced by the courts and other legal authorities and our written military law especially the Army Regulations has been materially modified. Meanwhile also in England the time honored Mutiny Act and Articles of War have wholly passed away and been succeeded by the new Army Act and Rules of Procedure a reform of great interest to the military student and this legislation any imperfections that remain are intentionally left to preserve the state of such historical works **Military Law and Precedents** William Winthrop, 1896 Military Law Under the Uniform Code of Military Justice William B.
