Millennialism Utopianism And Progress:

Millennialism, Utopianism, and Progress Theodore Olson, 1982 The Oxford Handbook of Millennialism Catherine Wessinger, 2016-07 Seventh Day Adventists Melanesian cargo cults David Koresh's Branch Davidians and the Raelian UFO religion would seem to have little in common What these groups share however is a millennial orientation the audacious human hope for a collective salvation which may be either heavenly or earthly The Oxford Handbook of Millennialism offers readers an in depth look at both the theoretical underpinnings of the study of millennialism and its many manifestations across history and cultures *Technological Utopianism in American Culture* Howard P. Segal, 2005-11-07 Featuring twenty five writers in all this book includes Howard P Segal's acclaimed work on utopian visionaries **Utopianism for a Dying Planet** Gregory Claeys, 2024-12-10 How the utopian tradition offers answers to today's environmental crises In the face of Earth's environmental breakdown it is clear that technological innovation alone won't save our planet A more radical approach is required one that involves profound changes in individual and collective behavior Utopianism for a Dying Planet examines the ways the expansive history of utopian thought from its origins in ancient Sparta and ideas of the Golden Age through to today's thinkers can offer moral and imaginative guidance in the face of catastrophe The utopian tradition which has been critical of conspicuous consumption and luxurious indulgence might light a path to a society that emphasizes equality sociability and sustainability Gregory Claeys unfolds his argument through a wide ranging consideration of utopian literature social theory and intentional communities He defends a realist definition of utopia focusing on ideas of sociability and belonging as central to utopian narratives He surveys the development of these themes during the eighteenth and nineteenth centuries before examining twentieth and twenty first century debates about alternatives to consumerism Claeys contends that the current global warming limit of 1.5C 2.7F will result in cataclysm if there is no further reduction in the cap In response he offers a radical Green New Deal program which combines ideas from the theory of sociability with proposals to withdraw from fossil fuels and cease reliance on unsustainable commodities An urgent and comprehensive search for antidotes to our planet's destruction Utopianism for a Dying Planet asks for a revival of utopian ideas not as an escape from reality but as a powerful means of changing it *Utopias* Howard P. Segal, 2012-03-02 This brief history connects the past and present of utopian thought from the first utopias in ancient Greece right up to present day visions of cyberspace communities and paradise Explores the purpose of utopias what they reveal about the societies who conceive them and how utopias have changed over the centuries Unique in including both non Western and Western visions of utopia Explores the many forms utopias have taken prophecies and oratory writings political movements world's fairs physical communities and also discusses high tech and cyberspace visions for the first time The first book to analyze the implicitly utopian dimensions of reform crusades like Technocracy of the 1930s and Modernization Theory of the 1950s and the laptop classroom initiatives of recent years **Evangelical Millennialism in the Trans-Atlantic World, 1500-2000** C. Gribben, 2015-12-04 This book

offers the first complete overview of the intellectual history of one of the most significant contemporary cultural trends the apocalyptic expectations of European and American evangelicals in an account that guides readers into the origins its evolution and its revolutionary potential in the modern world The Decline of Nature Gilbert F. LaFreniere,2012-07

Apocalypse Theory and the Ends of the World Malcolm Bull,1995 In this volume leading historians critics and theorists review 3 000 years of apocalyptic theory Tracing the history of millenarianism they investigate the modern and postmodern debates Philosophy **Millennium, Messiahs, and Mayhem** Thomas Robbins,Susan J. Palmer,2013-10-28 As we approach the Millennium apocalyptic expectations are rising in North America and throughout the world Beyond the symbolic aura of the millennium this excitation is fed by currents of unsettling social and cultural change The millennial myth ingrained in American culture is continually generating new movements which draw upon the myth and also reshape and reconstruct it Millennium Messiahs and Mayhem examines many types of apocalypticism such as economic racist environmental feminist as well as those erupting from established churches Many of these movements are volatile and potentially explosive Millennium Messiahs and Mayhem brings together scholars of apocalyptic and millennial groups to explore aspects of the contemporary apocalyptic fervor in all original contributions Opening with a discussion of various theories of apocalypticism the editors then analyze how millennialist movements have gained ground in largely secular societal circles Section three discusses the links between apocalypticism and established churches while the final part of the book looks at examples of violence and confrontation from Waco to Solar Temple to the Aum Shinri Kyo subway disaster in Japan Contributors James Aho Dick Anthony Robert Balch Michael Barkun John Bozeman David Bromley Michael Cuneo John Dimitrovich John Hall Massimo Introvigne Philip Lamy Ronald Lawson Martha Lee Barbara Lynn Mahnke Vanessa Morrison Mark Mullins Ansun Shupe Susan Palmer Thomas Robbins Philip Schuyler and Catherine Wessinger *Dictionary of Ethics, Theology and Society* Paul A. B. Clarke,Andrew Linzey,2013-11-05 This Dictionary provides a unique and groundbreaking survey of both the historical and contemporary interrelations between ethics theology and society In over 250 separately authored entries a selection of the world s leading scholars from many disciplines and many denominations present their own views on a wide range of topics Arranged alphabetically entries cover all aspects of philosophy theology ethics economics politics and government Each entry includes a concise definition of the term a description of the principal ideas behind it analysis of its history development and contemporary relevance a detailed bibliography giving the major sources in the field The entire field is prefaced by an editorial introduction outlining its scope and diversity Selected entries include Animal Rights Capital Punishment Communism Domestic Violence Ethics Evil Government Homophobia Humanism Liberation Theology Politics Pornography Racism Sexism Society Vivisection Women s Ordination *Film and the Nuclear Age* Toni A. Perrine,2019-01-22 Just as we generally pay scant attention to the potential dangers of nuclear power and nuclear war until quite recently scholars have made limited critical attempts to understand the cultural manifestations of the nuclear status

quo Films that feature nuclear issues most often simplify and trivialize the subject They also convey a sense of the ambivalence and anxiety that pervades cultural responses to our nuclear capability The production of popular narrative films with nuclear topics largely conforms to periods of heightened nuclear awareness or fear such as the fear of fallout from nuclear testing manifested in the atomic creatures in science fiction movies of the late 1950s By their very numbers and through a set of recurring stylistic and narrative conventions nuclear films reflect a deep seated cultural anxiety This study includes detailed textual analysis of films that depict nuclear issues including the development and use of the first atomic bombs nuclear testing and the fear of fallout nuclear power the Cold War arms race loose nukes and future nuclear war and its aftermath Includes bibliographic references index filmography choronology Illustrated *Romance and Revolution* David Duff,1994-09 Relates the revival of literary romance to the French Revolution s imaginative impact on English Romanticism

Liberty, Authority, Formality John Morrow,2012-03-26 The essays in this volume are all inspired by the historical scholarship of J C Davis During a prolific career Davis has transformed our understanding of early modern utopian literature and its contexts and compelled students of seventeenth century English to re evaluate the significance of movements and individuals who have had a prominent place in the historiography of the English Revolution Davis s analyses of groups like the Levellers and individuals like Gerrard Winstanley and Oliver Cromwell has reoriented the inquiry around the contemporary moral themes of liberty authority and formality around which concepts this volume engages *Fallen Languages* Robert Markley,2019-05-15 According to Robert Markley historians and philosophers of science who link the rise of science to the rise of modern objective forms of writing are interpreting the works of Robert Boyle Isaac Newton and their contemporaries far too narrowly Focusing on the crises of representation in the discourse of physico theology in English natural philosophy from 1660 to 1740 Markley demonstrates the crucial role played by theology in the development of modern science World History and the Eonic Effect John C. Landon,2010-04-27 At a time when theories of evolution are undergoing renewed controversy the study of the Eonic Effect can break the deadlock by looking at world history in the light of evolution The assumption that evolution occurs at random is the crux of the dispute and one confused with issues of religion and secularism We can detect a non random pattern in the record of civilization itself to see evolution in action on a stupendous scale We live in the first generations with enough data to detect this phenomenon In the confusion of evolutionary theories the unexpected discovery of deep level structure can allow us to deconstruct fl at history and assess claims of directionality in evolution In the process the theory of natural selection applied to human evolution is seen to fail a photo finish test The book provides a new model for the study of the overlap of history and evolution and a critique of current views of the descent of man Prophecy & Apocalypticism Stephen L. Cook,1995 Did Israelite Jewish apocalyptic literature originate among alienated or disenfranchised groups In this overview of apocalypticism in the Hebrew Bible Stephen Cook contends that such thinking and writing stems from priestly groups that held power Apocalypse without God Ben

Jones,2022-04-21 Explains why apocalyptic thought despite often being dismissed as bizarre has persistent appeal in political life

The Gospel and Its Meaning Harry Lee Poe,1996 The Gospel speaks to a broad range of concerns concerns that differ from person to person group to group culture to culture Yet the practice of the twentieth century church has been to concentrate on one part of the Gospel repentance and justification as if it were the whole and to proclaim that part uniformly often without meaningful context that would demonstrate the relevance of Christ to the hearer The Gospel and Its Meaning breaks fresh ground for evangelism It equips the students of evangelism with theological foundations for reaching diverse groups from Hindi pantheists to radical environmentalists without compromising the Gospel s integrity The Gospel and Its Meaning Identifies the basic elements of the Gospel Shows the relationship of these elements to specific doctrines of theology Identifies theologians and systems that have focused on particular doctrines Shows which elements of the Gospel deal most clearly with various issues of evangelism Suggests avenues of ministry that can address each evangelistic issue By showing how different parts of the Gospel address the concerns of people within and without the Judeo Christian worldview The Gospel and Its Meaning helps those in any kind of evangelistic ministry to develop a means for connecting the Gospel directly to the world of the hearer while distinguishing it clearly from philosophies of relativism and pluralism

Optimism, Literature, and Culture in American Capitalism and Chinese Socialism Wendy Larson,2025-10-09 This book examines and interprets the uncanny similarity between capitalism and socialism over the twentieth century as both systems found ways to encourage happiness and optimism in their citizens As inheritors of the Enlightenment s emphasis on scientific rationality these cultures sought to instill in their citizens a belief in progress in essence history shows steady improvement and the future will continue in this direction indefinitely Optimism which bears a temporal quality a continual gaze to the future is the favored state of mind in both capitalist and socialist societies which have embraced progress as a theory of history Related to optimism is happiness which emphasizes the present When

progress as a theory of history is generally accepted happiness becomes a transference of future advancement into present subjectivity ultimately expressing acceptance of and satisfaction with society Fundamentally a literary study strongly embedded in history this project looks to fiction to show not only how imaginary characters became models for readers but also how narrative encouraged readers to engage in a struggle for new values Characters worked out or failed to work out questions related to the personal and larger cultural shaping of an ongoing optimism At the same time writers questioned these models and purposefully or otherwise displayed the downsides of excessive mandated or coerced optimism They also challenged the way in which optimism encompassed a belief in progress that itself could be camouflaged and the demands for a happiness that imposed everyone else's wellbeing before one's own The book compares Yang Mo's famous *Song of Youth* 1958 with Horatio Alger Jr's *Ragged Dick* 1868 Eleanor Hodgman Porter's *Pollyanna* 1913 and Frederick Kohner's *Gidget* 1957 Wang Meng's *Long Live Youth* written 1953 and *A Young Man Arrives at the Organization Department* 1956 are evaluated against Jack Kerouac's *On the Road* 1958 This study both incorporates and challenges various political and cultural theoretical concepts including revolutionary optimism permanent revolution the theory of literary typicality the New Soviet Person and the positive hero optimistic autosuggestion cultural authenticity and positive thinking
