Ancient Ocean Crossings Stephen C. Jett, 2017-06-06 Paints a compelling picture of impressive pre Columbian cultures and Old World civilizations that contrary to many prevailing notions were not isolated from one another In Ancient Ocean Crossings Reconsidering the Case for Contacts with the Pre Columbian Americas Stephen Jett encourages readers to reevaluate the common belief that there was no significant interchange between the chiefdoms and civilizations of Eurasia and Africa and peoples who occupied the alleged terra incognita beyond the great oceans More than a hundred centuries separate the time that Ice Age hunters are conventionally thought to have crossed a land bridge from Asia into North America and the arrival of Columbus in the Bahamas in 1492 Traditional belief has long held that earth's two hemispheres were essentially cut off from one another as a result of the post Pleistocene meltwater fed rising oceans that covered that bridge The oceans along with arctic climates and daunting terrestrial distances formed impermeable barriers to interhemispheric communication This viewpoint implies that the cultures of the Old World and those of the Americas developed independently Drawing on abundant and concrete evidence to support his theory for significant pre Columbian contacts Jett suggests that many ancient peoples had both the seafaring capabilities and the motives to cross the oceans and in fact did so repeatedly and with great impact His deep and broad work synthesizes information and ideas from archaeology geography linguistics climatology oceanography ethnobotany genetics medicine and the history of navigation and seafaring making an innovative and persuasive multidisciplinary case for a new understanding of human societies and their diffuse but interconnected development

Survive Your Drive: A Survival Guide for Driving in the New Millennium Richard H. Freer, 2003-09 Skewed Views Too continues Roy Schlemme's cartoon exploration of our human faults and foibles Using everything from wry wit to out and out broad slapstick he intelligently takes the reader on a rambling merry journey Beginning at times with the most bizarre of premises Schlemme quickly cajoles even the most somber of us into forgetting our personal problems and laughing out loud at the adventures of his eccentric cast of zanies Unlike other more traditional cartoonists who generally of necessity work small and simple Schlemme utilizes the larger page along with a more detailed drawing style to enhance the final effect upon readers There's no single theme from one vignette to the next but rather a lively bouncing around certain to capture even the most humor resistant of us Skewed Views Too with over 150 humorous situations is sure to find itself one of the more appealing gift giving ideas and entertaining book options around

Mesopotamia, Rise and Fall A.J. Carmichael,2002-01-01 The most famous legacies of Mesopotamia are its human headed winged bulls and wedge shaped writing system Even though these objects offer a glimpse into an ancient culture s grandeur and mystery the region s influence extends far beyond them One of the first civilizations in the world Mesopotamia is often called the cradle of civilization The civilization contributed to the development of written language economics law and religion The pages of this book discuss many of these contributions In Mesopotamia for example the lunar calendar was divided into two seasons and the year was divided into 12 months There were seven days in a week in the Sumerian calendar Sexagesimal or base 60 mathematics survives to this day based on 60 minute hours and 24 hour days in Mesopotamia The term Mesopotamia is typically used by historians to refer to the region in southwest Asia that includes

modern day Iraq and parts of Turkey Iran and Syria Hellenistic Greeks used Mesopotamos to refer to the area between the Euphrates and Tigris rivers Fertile soil and water provided by these rivers enabled humankind to abandon its nomadic hunter gatherer lifestyle and become sedentary and agrarian The agricultural revolution was born in Mesopotamia because of this feature Almost 2 000 years ago Mesopotamia had little information about itself The history and culture of the region are revealed in the Hebrew Bible During the fifth century BC Herodotus described the area for the first time Anabasis Upcountry March a Greek mercenary historian and philosopher s account of his experiences crossing Anatolia and traveling along the Tigris and Euphrates was written over 100 years later A Chaldean priest of Bel who migrated to Greece left behind some of the region s most detailed and reliable accounts even though his writings are only extant in fragments **Ad \$ Summary** ,2005 Advertising expenditure data across ten media consumer magazines Sunday magazines newspapers outdoor network television spot television syndicated television cable television network radio and national spot radio Lists brands alphabetically and shows total ten media expenditures media used parent company and PIB classification for each brand Also included in this report are industry class totals and rankings of the top 100 companies of the ten media Encyclopedia of New Year's Holidays Worldwide William D. Crump,2016-03-30 Among the world s myriad cultures and their associated calendars the idea of a New Year is relative and hardly specifies a universal celebration or even a universal point in time Ways of celebrating the New Year range from the observances of religious rituals and superstitions to social gatherings featuring particular foods music dancing noisemaking fireworks and drinking This first encyclopedia devoted exclusively to the New Year includes 320 entries that give a global perspective on the New Year beyond its traditional Western associations with Christmas National or regional entries detail the principal traditions and customs of 130 countries while 27 entries discuss major calendar systems in current use or of significant historical interest The remaining entries cover a wide variety of subjects including literary works movies and television specials the customs of specific ethnic groups universal customs such as toasting and drinking football bowl games and parades and the New Year celebrations at the White House and the Vatican **More's Millenium** Saint Thomas More,1909
