Philosophy before the Greeks Marc Van De Mieroop, 2017-02-28 There is a growing recognition that philosophy isn't unique to the West that it didn't begin only with the classical Greeks and that Greek philosophy was influenced by Near Eastern traditions Yet even today there is a widespread assumption that what came before the Greeks was before philosophy In Philosophy before the Greeks Marc Van De Mieroop an acclaimed historian of the ancient Near East presents a groundbreaking argument that for three millennia before the Greeks one Near Eastern people had a rich and sophisticated tradition of philosophy fully worthy of the name In the first century BC the Greek historian Diodorus of Sicily praised the Babylonians for their devotion to philosophy Showing the justice of Diodorus's comment this is the first book to argue that there were Babylonian philosophers and that they studied knowledge systematically using a coherent system of logic rooted in the practices of cuneiform script Van De Mieroop uncovers Babylonian approaches to knowledge in three areas the study of language which in its analysis of the written word formed the basis of all logic the art of divination which interpreted communications between gods and humans and the rules of law which confirmed that royal justice was founded on truth The result is an innovative intellectual history of the ancient Near Eastern world during the many centuries in which Babylonian philosophers inspired scholars throughout the region until the first millennium BC when the breakdown of this cosmopolitan system enabled others including the Greeks to develop alternative methods of philosophical reasoning *Terror Television* John Kenneth Muir, 2013-02-25 Although horror shows on television are popular in the 1990s thanks to the success of Chris Carter's *The X-Files* such has not always been the case Creators Rod Serling Dan Curtis William Castle Quinn Martin John Newland George Romero Stephen King David Lynch Wes Craven Sam Raimi Aaron Spelling and others have toiled to bring the horror genre to American living rooms for years This large scale reference book documents an entire genre from the dawn of modern horror television with the watershed Serling anthology *Night Gallery* 1970 a show lensed in color and featuring more graphic makeup and violence than ever before seen on the tube through more than 30 programs including those of the 1998 1999 season Complete histories critical reception episode guides cast crew and guest star information as well as series reviews are included along with footnotes a lengthy bibliography and an in depth index From Kolchak *The Night Stalker* to *Millennium* from *The Evil Touch* to *Buffy the Vampire Slayer* and *Twin Peaks* *Terror Television* is a detailed reference guide to three decades of frightening television programs both memorable and obscure
