Million dollar baby F. X. Toole, 2005 *Clint Eastwood's America* Sam B. Girgus, 2013-11-22

The steady rise of Clint Eastwood's career parallels a pressing desire in American society over the past five decades for a figure and story of purpose, meaning, and redemption. Eastwood has not only told and filmed that story, he has come to embody it for many in his public image and film persona. Eastwood responds to a national yearning for a vision of individual action and initiative, personal responsibility, and potential for renewal. An iconic director and star for his westerns, urban thrillers, and adventure stories, Eastwood has taken film art to new horizons of meaning in a series of masterpieces that engage the ethical and moral consciousness of our times, including *Unforgiven*, *Million Dollar Baby*, and *Mystic River*. He revolutionized the war film with the unprecedented achievement of filming the opposing sides of the same historic battle in *Flags of Our Fathers* and *Letters from Iwo Jima*, using this saga to present a sharply critical representation of the new America that emerged out of the war, a society of images and spectacles. This timely examination of Clint Eastwood's oeuvre against the backdrop of contemporary America will be fascinating reading for students of film and popular culture as well as readers with interests in Eastwood's work and American film and culture.

A Theory of Adaptation Linda Hutcheon, 2012-08-21

A Theory of Adaptation explores the continuous development of creative adaptation and argues that the practice of adapting is central to the story-telling imagination. Linda Hutcheon develops a theory of adaptation through a range of media from film and opera to video games, pop music, and theme parks, analysing the breadth, scope, and creative possibilities within each. This new edition is supplemented by a new preface from the author discussing both new adaptive forms, platforms, and recent critical developments in the study of adaptation. It also features an illuminating new epilogue from Siobhan O'Flynn focusing on adaptation in the context of digital media. She considers the impact of transmedia practices and properties on the form and practice of adaptation as well as studying the extension of game narrative across media platforms, fan-based adaptation from Twitter and Facebook to home movies, and the adaptation of books to digital formats. *A Theory of Adaptation* is the ideal guide to this ever-evolving field of study and is essential reading for anyone interested in adaptation in the context of literary and media studies.
