Gattone,2006-03-14 What is the role of the social scientist in public affairs How have changes in the structure of the university system and the culture of academia reshaped the opportunities and constraints facing contemporary scholars The Social Scientist as Public Intellectual addresses these and other questions by reviewing the ideas of seminal thinkers in Europe and the United States and relating their conclusions to today s world In this book Charles Gattone examines the analyses of Max Weber Thorstein Veblen Karl Mannheim Joseph Schumpeter C Wright Mills John Kenneth Galbraith and Pierre Bourdieu tracing their perspectives through two World wars the Cold War and into the present Gattone situates the ideas of these authors in historical context showing the ways the realities of their time fascism totalitarianism the rise of bureaucratic institutions and the expansion of industrial democracy informed their assessments regarding the place of the intellectual in the political realm He brings their work into the current context addressing the difficulties involved in bridging the gap between the ideas of scholarly inquiry and the practical realities of politics and examining the ways newer factors such as the mass media relate to the character and trajectories of popular sentiment Gattone argues that although political and economic institutions continue to influence the course of academic

knowledge opportunities remain for social scientists to act independently and develop insight that can ultimately be of value to a wide spectrum of the population in the modern order Rather than follow the habit of striving to satisfy the narrow demands of institutional supporters Gattone suggests that social scientists have the potential to approach their work from the standpoint of a broader orientation and address social issues as public intellectuals *A Catalogue of the Books Belonging to the Library Company of Philadelphia* Library Company of Philadelphia,1856 Author index to additions 1890-1899 Providence R.I., publ. libr,1900 **Survey of Current Business**,1964 *Steel Prices, Unit Costs, Profits, and Foreign Competition* United States.
