Millstatter Exodus A Crusading Epic:

The Millstätter Exodus D. H. Green, 1966 The Millstatter Exodus a German epic of the twelfth century is a poetic version of the opening chapters of the book of Exodus treating the events of the early life of Moses and culminating in the crossing of the Red Sea and the destruction of the Hebrews pagan enemies In form it represents the second attempt at a biblical epic on the large scale after the revival of German vernacular literature in the late eleventh century Professor Green analyses the Millstatter Exodus in form and in context He compares it with its predecessor the Wiener Genesis and with its biblical source throwing light on the early development of the German epic in the twelfth century and on the poetic intentions of the author of the Exodus Professor Green believes that the Millstatter Exodus can best be understood allegorically against the background of the crusading movement and he shows that it is one of the first literary attempts in Germany to come to terms with the crusades and the problem of Christian warfare

Exodus Annette Hoffmann, 2020-01-20 The scientific debates on border crossings and cultural exchange between Judaism Christianity and Islam have much increased over the last decades Within this context however little attention has been given to the biblical Exodus which not only plays a pivotal role in the Abrahamic religions but also is a master narrative of a border crossing in itself Sea and desert are spaces of liminality and transit in more than just a geographical sense Their passage includes a transition to freedom and initiation into a new divine community an encounter with God and an entry into the Age of law The volume gathers twelve articles written by leading specialists in Jewish and Islamic Studies Theology and Literature Art and Film history dedicated to the transitional aspects within the Exodus narrative Bringing these studies together the volume takes a double approach one that is both comparative and intercultural How do Jewish Christian and Islamic texts and images read and retell the various border crossings in the Exodus story and on what levels do they interrelate By raising these questions the volume aims to contribute to a deeper understanding of contact points between the various traditions

Medieval French Literature and the Crusades (1100-1300) D. A. Trotter, 1988 The Preaching of the Third Crusade (1187-1192) Alexander Marx, 2024-12-23 This book delivers the first substantial study of the preaching of the Third Crusade 1187-92 It assembles c 200 sermon texts and c 100 manuscripts to understand the explosive dynamic of mobilization in the Latin West Dealing with the essential fact that a genre called crusade sermon did not exist it develops methodological devices for identifying sermons relevant for the crusading purpose The book contests thus the modern historiography which has placed too much trust in the few chronicle reports However its fruitful blending of crusading preaching exegesis manuscript studies and intellectual history has much to offer beyond crusade studies The Cambridge History of German Literature Helen Watanabe-O'Kelly, 2000-06-12 This is the first book to describe German literary history up to the unification of Germany in 1990 It takes a fresh look at the main authors and movements and also asks what Germans in a given period were actually reading and writing what they would have seen at the local theatre or found in the local lending library it includes for example discussions of literature in Latin as well as in German eighteenth century letters and popular novels Nazi literature and radio plays and modern Swiss and Austrian literature A new prominence is given to writing by women Contributors all leading scholars in their field have re-examined standard judgements in writing a history

for our own times The book is designed for the general reader as well as the advanced student titles and quotations are translated and there is a comprehensive bibliography Armies of Heaven Jay Rubenstein,2011-11 Chronicles the apocalyptic motivations and brutality of the First Crusade which destroyed civilizations in the Near and Middle East

Preaching the Crusades to the Eastern Mediterranean Constantinos Georgiou,2018-03-05 Preaching was an integral part of the crusade movement This book focuses on the efforts of the first four Avignon popes to organize crusade preaching campaigns to the Eastern Mediterranean and on the role of the secular and regular clergy in their implementation Historians have treated the fall of Acre in 1291 as an arbitrary boundary in crusader studies for far too long The period 1305 1352 was particularly significant for crusade preaching yet it has not been studied in detail This volume thus constitutes an important addition to the flourishing field of late medieval crusade historiography The core of the book deals with two interlocking themes the liturgy for the Holy Land and the popular response to crusade preaching between the papacies of Clement V and Clement VI The book analyses the evolving use of the liturgy for the crusade in combination with preaching and it illustrates the catalytic role of these measures in driving popular pro crusade sentiments A key theme in the account is the analysis of the surviving crusade sermons of the Parisian theologians from the era Critical editions of these previously neglected propagandistic texts are a valuable addition to our corpus of papal correspondence relating to the crusades in the later Middle Ages This book will be of interest both to specialized historians and to students of late medieval crusading

Routledge Revivals: The Illuminations of the Stavelot Bible (1978) Wayne Dynes,2017-11-22 First published in 1978 this book offers a comprehensive study of the illuminations of the Stavelot Bible The illuminations themselves have been recognized as occupying an important place in the incipient stage of the Romanesque style in the Meuse valley The two volumes of the Bible contain no less than ninety seven illuminated initials almost half of them containing figures Wayne Dynes s study brings this into context by giving the historical background of the abbey of Stavelot and the manuscript itself and then the exegetical and illustrative tradition shaping earlier illuminated Bibles A third chapter examines the question of the assignment of the hands providing at the same time a survey of the contents This clears the way for discussions of areas of importance including the famous full page composition of Christ in Majesty and analyses key miniatures and groups of miniatures This procedure serves to clarify the overall scheme of illumination and permit a comparison with earlier achievements in the history of Bible illumination **The Vorau Moses and Balaam** David Arthur Wells,1970 **The Uses of the Bible in Crusader Sources** ,2017-05-22 The Uses of the Bible in Crusader Sources sets out to understand the ideology and spirituality of crusading by exploring the biblical imagery and exegetical interpretations which formed its philosophical basis Medieval authors frequently drew upon scripture when seeking to justify praise or censure the deeds of crusading warriors on many frontiers After all as the fundamental written manifestation of God s will for mankind the Bible was the ultimate authority for contemporary writers when advancing their ideas and framing their world view This volume

explores a broad spectrum of biblically derived themes surrounding crusading and by doing so seeks to better comprehend a thought world in which lethal violence could be deemed justifiable according to Christian theology Contributors are Jessalynn Bird Adam M Bishop John D Cotts Sini Kangas Thomas Lecaue T J H McCarthy Nicholas Morton Torben Kjersgaard Nielsen Luigi Russo Uri Shachar Iris Shagrir Kristin Skottki Katherine Allen Smith Thomas W Smith Carol Sweetenham Miriam Rita Tessera Jan Vandeburie Julian J T Yolles and Lydia Marie Walker

Making Sense of Old Testament Genocide Christian Hofreiter, 2018 The divine commands to annihilate the seven nations living in Canaan to devote them to destruction herem in Biblical Hebrew are perhaps the most morally troubling texts of the Hebrew and Christian bibles Making Sense of Old Testament Genocide Christian Interpretations of Herem Passages addresses the challenges these texts pose It presents the various ways in which interpreters from the first century to the twenty first have attempted to make sense of them The most troubling approach was no doubt to read them as divine sanction and inspiration for violence and war the analysis of the use of herem texts in the crusades the inquisition and various colonial conquests illustrates this violent way of reading the texts which has such alarming contemporary relevance Three additional approaches can also be traced to antiquity viz pre critical non literal and divine command theory readings Finally critics of Christianity from antiquity via the Enlightenment to today have referenced herem texts their critical voices are included as well Christian Hofreiter combines a presentation of a wide range of historical sources with careful analysis that scrutinizes the arguments made and locates the texts in their wider contexts Influential contributions of such well known figures as Augustine Origen Gregory the Great Thomas Aquinas and John Calvin are included as well as those of critics such as Marcion Celsus and Matthew Tindal and less widely known texts such as crusading histories songs and sermons colonial conquest accounts and inquisition manuals The book thus sheds new light on the ways in which these texts have shaped the thoughts and actions of their readers through the centuries and offers pertinent insights into how readers might be able to make sense of them today

A Preface to the 'Nibelungenlied', 1987-06 This book aims to make available the necessary background for an informed reading of the Nibelungenlied the twelfth century epic perhaps best known to non Germans from Wagner s music dramas Two traditions of scholarly thought exist about the Nibelungenlied The first sees the poem as a development out of German heroic legend the second focuses on the work s location in the contemporary literary context at the end of the twelfth century The first and older school deals with the evolution of the story over time and the question of how short heroic poems attained epic compass in the later Nibelungenlied The second seeks to interpret the poem in terms of the new emergence of Arthurian romance around 1200 The author attempts to bridge the gap between the two contending schools suggesting that neither approach precludes the other Although the Nibelungenlied poet drew the story itself from earlier heroic poems the author makes clear that the poet absorbed impulses from other types of literature as well The book is in three parts Part I discusses literary antecedents tracing the development of German heroic poetry from the Migration Age on then describing narrative practice in the twelfth

century in historical and legendary epic on the one hand and romance on the other Part II analyzes the Nibelungenlied in its immediate literary context addressing possible sources and narrative innovations The author relates the story of the poem to the immediate antecedent versions of the legend that are now preserved only in the Norse Thidrek's Saga surveys recent general interpretations and suggests a literary historical analysis that can plot the Nibelungenlied more accurately on the literary map of the twelfth century Part III comprises previously untranslated texts and summaries of source materials bearing on the Nibelungenlied

War and the Making of Medieval Monastic Culture Katherine Allen Smith, 2013-09-19
 Finalist for AAH First Book Prize The monastic life traditionally considered as an area of withdrawal from the world is here shown to be shaped by metaphors of war and to be actively engaged with battle in the world outside An extremely interesting and important book makes an important contribution to the history of medieval monastic spirituality in a formative period whilst also fitting into wider debates on the origins development and impact of ideas on crusading and holy war Dr William Purkis University of Birmingham Monastic culture has generally been seen as set apart from the medieval battlefield as those who prayed were set apart from those who fought However in this first study of the place of war within medieval monastic culture the author shows the limitations of this division Through a wide reading of Latin sermons letters and hagiography she identifies a monastic language of war that presented the monk as the archetypal soldier of Christ and his life of prayer as a continuous combat with the devil indeed monks' claims to supremacy on the spiritual battlefield grew even louder as Church leaders extended the title of soldier of Christ to lay knights and crusaders So while medieval monasteries have traditionally been portrayed as peaceful sanctuaries in a violent world here the author demonstrates that monastic identity was negotiated through real and imaginary encounters with war and that the concept of spiritual warfare informed virtually every aspect of life in the cloister It thus breaks new ground in the history of European attitudes toward warfare and warriors in the age of the papal reform movement and the early crusades Katherine Allen Smith is Assistant Professor of History University of Puget Sound

Medieval German Literature Marion Gibbs, Sidney M. Johnson, 2002-09-11 Medieval German Literature provides a comprehensive survey of this Germanic body of work from the eighth century through the early fifteenth century The authors treat the large body of late medieval lyric poetry in detail for the first time

The Second Crusade Jonathan Phillips, 2008-01-08 The Second Crusade 1145-1149 was an extraordinarily bold attempt to overcome unbelievers on no less than three fronts Crusader armies set out to defeat Muslims in the Holy Land and in Iberia as well as pagans in northeastern Europe But to the shock and dismay of a society raised on the triumphant legacy of the First Crusade only in Iberia did they achieve any success This book the first in 140 years devoted to the Second Crusade fills a major gap in our understanding of the Crusades and their importance in medieval European history Historian Jonathan Phillips draws on the latest developments in Crusade studies to cast new light on the origins planning and execution of the Second Crusade some of its more radical intentions and its unprecedented ambition With original insights into the legacy of the First Crusade and the

roles of Pope Eugenius III and King Conrad III of Germany Phillips offers the definitive work on this neglected Crusade that despite its failed objectives exerted a profound impact across Europe and the eastern Mediterranean *The Tongue of the Fathers* David Townsend, Andrew Taylor, 1998-05-29 Although historians and scholars of vernacular medieval literatures have increasingly focused on constructions of gender sex and sexuality specialists in medieval Latin have been largely isolated from such developments Much scholarship on medieval Latin has remained grounded in the methodologies of the old philology When readers from other disciplines have looked to Latin texts they have in turn used them mostly as benchmarks against which to measure the innovations of the vernacular *The Tongue of the Fathers* forges a stronger and more productive relationship between medieval Latin and gender studies David Townsend Andrew Taylor and their collaborators focus on the representations and constructions of gender and sexual difference in a range of texts emerging from the centers of twelfth century cultural prestige and power In chapters on Abelard Heloise Bernard Silvestris Hildegard of Bingen Bernard of Clairvaux and Walter of Châtillon they consider on the one hand the ways twelfth century Latin texts constituted Latin as a monologic tongue in support of patriarchy and on the other the sites of resistance offered by the texts to the very ideologies they ostensibly supported
