

The Milwaukee *Electrics*

By Noel T. Holley

Milwaukee Electrics

Ian Pickup

Milwaukee Electrics:

Electric Locomotives Brian Solomon, The history of electric freight and inter urban commuter locomotives in the U S begins with their development in East Coast urban centers and continues their service in the present day Railways that used or continue to use electric motive power in cities suburbs and even over mountain passes including the B O Pennsylvania New Haven New York Central Norfolk Western Illinois Central Milwaukee Road and Amtrack are depicted in period and modern color photography The book also covers legendary electrics like the S motors that towed steam powered trains through tunnels and into busy urban stations and several more The text includes discussion on the roles played by GE and Westinghouse specialized equipment and how technology laid the groundwork for the development of diesel electric locomotives prior to WW II Internal Combustion Edwin Black, 2007-12-10 Internal Combustion is the compelling tale of corruption and manipulation that subjected the United States and the world to an oil addiction that could have been avoided that was never necessary and that could be ended not in ten years not in five years but today Edwin Black award winning author of *IBM and the Holocaust* has mined scores of corporate and governmental archives to assemble thousands of previously uncovered and long forgotten documents and studies into this dramatic story Black traces a continuum of rapacious energy cartels and special interests dating back nearly 5 000 years from wood to coal to oil and then to the bicycle and electric battery cartels of the 1890s which created thousands of electric vehicles that plied American streets a century ago But those noiseless and clean cars were scuttled by petroleum interests despite the little known efforts of Thomas Edison and Henry Ford to mass produce electric cars powered by personal backyard energy stations Black also documents how General Motors criminally conspired to undermine mass transit in dozens of cities and how Big Oil Big Corn and Big Coal have subverted synthetic fuels and other alternatives He then brings the story full circle to the present day oil crises global warming and beyond Black showcases overlooked compressed gas electric and hydrogen cars on the market today as well as inexpensive all function home energy units that could eliminate much oil usage His eye opening calls for a Manhattan Project and a new Green Fleet Initiative for immediate energy independence will help energize society to finally take action Internal Combustion and its interactive Web site www.internalcombustionbook.com have already generated a much needed national debate It should be read by every citizen who consumes oil everyone Internal Combustion can change everything not by reinventing the wheel but by excavating it from where it was buried a century ago Milwaukee Heavy-duty Electric Tools for Contractors and Industry Milwaukee Electric Tool Corporation, 1980 **Utility Corporations** United States. Federal Trade Commission, 1936 Electric Power Development in the United States United States. Department of Agriculture, 1916 *Poor's Manual of Public Utilities* , 1917 *Report of the Wisconsin Interim Legislative Committee on Water and Electric Power, Submitted to the Legislature August 30, 1929 ...* Wisconsin.
