Min Yong Hwan A Political Biography:

Min Yong-hwan Michael Finch, 2002-06-30 The diplomat and scholar official Min Y ng hwan 1861 1905 described by one contemporary Western observer as undoubtably the first Korean after the emperor is best remembered in Korean historiography for his pioneering diplomacy at the courts of Tsar Nicholas II and Queen Victoria in the late 1890s Furthermore he is considered to be the foremost patriot of Korea s Taehan era 1897 1907 This pioneering study of Min Y ng hwan is long overdue and provides us with a new perspective on a period of Korean history that still casts its shadow over the region today This new biography of Min contributes substantially to our understanding of this period by looking beyond the established view of Korea as being polarized between reformists and reactionaries in the late Choson era In doing so it provides us with deeper insight into the full range of responses of the late Choson leadership to the dual challenges of internal stagnation and external intervention at the juncture of the nineteenth and twentieth centuries It will be essential reading for anyone interested in the recent history of Korea late nineteenth century imperialism and Russian Japanese American and British foreign policy in northeast Asia The Routledge History of Monarchy Elena Woodacre, Lucinda H.S. Diplomatic Style and Foreign Policy Jeffrey Robertson, 2016-05-20 The book explores diplomatic style and its use as a means to provide analytical insight into a state s foreign policy with a specific focus on South Korea Diplomatic style attracts scant attention from scholars It is dismissed as irrelevant in the context of diplomacy s universalism misconstrued as a component of foreign policy alluded to perfunctorily amidst broader considerations of foreign policy or wholly absented from discussions in which it should comprise

an important component In contrast to these views practitioners maintain a faith like confidence in diplomatic style They assume it plays an important role in providing analytical insight giving them advantage over scholars in the analysis of foreign policy This book explores diplomatic style and its use as a means to provide analytical insight into foreign policy using South Korea as a case study It determines that style remains important to diplomatic practitioners and provides analytical insight into a state s foreign policy by highlighting phenomena of policy relevance which narrows the range of information an analyst must cover The book demonstrates how South Korea s diplomatic style which has a tendency towards emotionalism and is affected by status generational change cosmopolitanism and estrangement from international society can be a guide to understanding South Korea s contemporary foreign policy This book will be of much interest to students of diplomacy studies foreign policy Asian politics and International Relations in general *Min Yŏnghwan* Yŏng-hwan Min,2008 *Unconquered States* H. E. Chehabi,David Motadel,2024-11-25 In the heyday of empire most of the world was ruled directly or indirectly by the European powers *Unconquered States* explores the struggles for sovereignty of the few nominally independent non Western states in the imperial age It examines the ways in which countries such as China Ethiopia Japan the Ottoman Empire Persia and Siam managed to keep European imperialism at bay whereas others such as Hawai i Korea Madagascar Morocco and Tonga long struggled but ultimately failed to maintain their sovereignty The chapters in this book address four major aspects of the relations these countries had with the Western imperial powers armed conflict and military reform unequal treaties and capitulations diplomatic encounters and royal diplomacy Bringing together scholars from five continents this book provides the first comprehensive global history of the engagement of the independent non European states with the European empires reshaping our understanding of sovereignty territoriality and hierarchy in the modern world order An Chunggŭn: His Life and Thought in His Own Words Jieun Han,Franklin Rausch,2020-07-20 In *An Chunggŭn His Life and Thought in his own Words* Jieun Han and Franklin Rausch provide a complete translation of all of An s writings and excerpts from his trial and appeal Though An is most famous for killing It Hirobumi the contents of this volume show that there was much more to him than that For instance far from being anti Japanese An thought deeply about how China Japan and Korea could work together to build a regional peace that would eventually spread throughout the world Now for the first time all of An s extant writings have been assembled together into an English translation that includes annotations and an introduction that places An and his works in their historical context This translation was funded by the Institute of Korean Studies Yonsei University **Historical Dictionary of the Republic of Korea** James E. Hoare,2020-10-13 South Korea Republic of Korea is the more successful of the two Koreas in both economic and political terms Even the Asian economic crisis of 1997 1998 which hit badly was weathered successfully and when the next crisis came along in 2007 South Korea coped better than many other countries This economic strength taken with the steady progress of democratization since 1987 indicates that when the peninsula is eventually reunified as one day it probably will be a new unified Korea will follow the South Korea

William Franklin Sands in Late Choson Korea Wayne Patterson, 2021-07-29 After graduation from Georgetown University in 1896 William Franklin Sands joined the US diplomatic corps as second secretary in Tokyo His year there sparked his interest in East Asia so when a position in Korea opened he took it with the help of his influential father an admiral in the US navy For two years he served under US Minister Horace Allen until a more powerful position opened as chief adviser to the Korean government in 1900 As the most influential foreign adviser Sands attempted to convince Emperor Kojong to undertake reforms and to promote Korean neutrality to keep the country independent The author argues however that Sands was hampered by corrupt officials who had the ear of the emperor by the Japanese and the Russians who

competed for influence and who tried to replace Sands with their own advisers and ironically by Horace Allen. When he lost the confidence of Kojong and when the Russo Japanese War broke out Sands was forced out having failed to maintain Korea's independence as Japan moved to take over. Although his subsequent activities included other diplomatic postings teaching and writing he maintained an interest in Korea and offered his services as World War Two raged.

Park, 2003-02-28 From its humble straw mat origins to its paradoxical status as a national treasure p ansori has survived centuries of change and remains the primary source of Korean narrative and poetic consciousness. Sitings Timothy R. Tangherlini, Sallie Yea, 2007-12-03 Arranged around a set of provocative themes the essays in this volume engage in the discussion from various critical perspectives on Korean geography. Part One Geographies of the Colonial City focuses on Seoul during the Japanese colonial occupation from 1910 1945 and the lasting impact of that period on the construction of specific places in Seoul. In Part Two Geographies of the Imagined Village the authors delve into the implications for the conceptions of the village of recent economic and industrial development. In this context they examine both constructed space such as the Korean Folk Village and rural villages that were physically transformed through the processes of rapid modernization. The essays in Geographies of Religion Part Three reveal how religious sites are historically and environmentally contested as well as the high degree of mobility exhibited by sites themselves. Similarly places that exist at the margins are powerful loci for the negotiation of identity and aspects of cultural ideology. The final section Geographies of the Margin focuses on places that exist at the margins of Korean society. Contributors: Todd A. Henry, Jong Heon Jin, Laurel Kendall, David J. Nemeth, Robert Oppenheim, Michael J. Pettid, Je Hun Ryu, Jesook Song, Timothy R. Tangherlini, Sallie Yea.

Education Fever Michael J. Seth, 2002-09-30 In the half century after 1945 South Korea went from an impoverished largely rural nation ruled by a succession of authoritarian regimes to a prosperous democratic industrial society. No less impressive was the country's transformation from a nation where a majority of the population had no formal education to one with some of the world's highest rates of literacy high school graduates and university students. Drawing on their premodern and colonial heritages as well as American education concepts South Koreans have been largely successful in creating a schooling system that is comprehensive uniform in standard and universal. The key to understanding this educational transformation is South Korean society's striking nearly universal preoccupation with schooling what Koreans themselves call their education fever. This volume explains how Koreans' concern for achieving as much formal education as

possible appeared immediately before 1945 and quickly embraced every sector of society Through interviews with teachers officials parents and students and an examination of a wide range of written materials in both Korean and English Michael Seth explores the reasons for this social demand for education and how it has shaped nearly every aspect of South Korean society He also looks at the many problems of the Korean educational system the focus on entrance examinations which has tended to reduce education to test preparation the overheated competition to enter prestige schools the enormous financial burden placed on families for costly private tutoring the inflexibility created by an emphasis on uniformity of standards and the misuse of education by successive governments for political purposes

Laying Claim to the Memory of May Linda S. Lewis, 2002-04-30 The Kwangju Uprising Korea's Tiananmen is one of the most important political events in late twentieth century Korean history What began as a peaceful demonstration against the imposition of military rule in the southwestern city of Kwangju in May 1980 turned into a bloody people's revolt In the two decades since memories of the Kwangju Uprising have lived on assuming symbolic importance in the Korean democracy movement underlying the rise in anti American sentiment in South Korea and shaping the nation's transition to a civil society Nonetheless it remains a contested event the subject still of controversy confusion international debate and competing claims As one of the few Western eyewitnesses to the Uprising Linda Lewis is uniquely positioned to write about the event In this innovative work on commemoration politics social representation and memory Lewis draws on her fieldwork notes from May 1980 writings from the 1980s and ethnographic research she conducted in the late 1990s on the memorialization of Kwangju and its relationship to changes in the national political culture Throughout the chronological organization of the text is crisscrossed with commentary that provocatively disrupts the narrative flow and engages the reader in the reflexive process of remembering Kwangju over two decades Highly original in its method and approach Laying Claim to the Memory of May situates this seminal event in a broad historical and scholarly context The result is not only the definitive history of the Kwangju Uprising but also a sweeping overview of Korean studies over the last few decades
