Mind Of Your Own:

Your Success Mind Angelique Dawson, Many people have tried and failed with the Law of Attraction What went wrong The theory is missing a vital ingredient the Second Mind Each of us has a paranormal mind our unconscious to accompany our normal mind our consciousness You have to activate and harness this second mind before the universe will bend to your will and make your dreams come true Your paranormal mind is the key to the Success Formula You cannot succeed if you are not aligned with it Come inside and learn how to enter a prosperous partnership with your second mind the mind that in truth is your own soul

Japanese Philosophy James W. Heisig, Thomas P. Kasulis, John C. Maraldo, 2011-07-31 With Japanese Philosophy A Sourcebook readers of English can now access in a single volume the richness and diversity of Japanese philosophy as it has developed throughout history Leading scholars in the field have translated selections from the writings of more than a hundred philosophical thinkers from all eras and schools of thought many of them available in English for the first time The Sourcebook editors have set out to represent the entire Japanese philosophical tradition not only the broad spectrum of academic philosophy dating from the introduction of Western philosophy in the latter part of the nineteenth century but also the philosophical ideas of major Japanese traditions of Buddhism Confucianism and Shinto The philosophical significance of each tradition is laid out in an extensive overview and each selection is accompanied by a brief biographical sketch of its author and helpful information on placing the work in its proper context The bulk of the supporting material which comprises nearly a quarter of the volume is given to original interpretive essays on topics not explicitly covered in other chapters cultural identity samurai thought women philosophers aesthetics bioethics An introductory chapter provides a historical overview of Japanese philosophy and a discussion of the Japanese debate over defining the idea of philosophy both of which help explain the rationale behind the design of the Sourcebook An exhaustive glossary of technical terminology a chronology of authors and a thematic index are appended Specialists will find information related to original sources and sinographs for Japanese names and terms in a comprehensive bibliography and general index Handsomely presented and clearly organized for ease of use Japanese Philosophy A Sourcebook will be a cornerstone in Japanese studies for decades to come It will be an essential reference for anyone interested in traditional or contemporary Japanese culture and the way it has shaped and been shaped by its great thinkers over the centuries

Mindwise Nicholas Epley,2014-02-11 You are a mind reader born with an extraordinary ability to understand what others think feel believe want and know It s a sixth sense you use every day in every personal and professional relationship you have At its best this ability allows you to achieve the most important goal in almost any life connecting deeply and intimately and honestly to other human beings At its worst it is a source of misunderstanding and unnecessary conflict leading to damaged relationships and broken dreams How good are you at knowing the minds of others How well can you guess what others think of you know who really likes you or tell when someone is lying How well do you really understand the minds of those closest to you from your spouse to your kids to your best friends Do you really know what your coworkers employees competitors or clients want In this illuminating exploration of one of the great mysteries of the human mind University of Chicago psychologist Nicholas Epley introduces us to what scientists have learned about our ability to understand the most complicated puzzle on the planet other people and the surprising mistakes we so routinely make Why are we sometimes blind to the minds of others treating them like objects or animals Why do we sometimes talk to our cars or the stars as if there is a mind that can hear us Why do we so routinely believe that others think feel and want what we do when in fact they do not And why do we believe we understand our spouses family and friends so much better than we actually do Mindwise will not turn other people into open books but it will give you the wisdom to revolutionize how you think about them and yourself

Dreamcrafting Paul Levesque,Art McNeil,2003-02-16 Many people set out to achieve a dream starting a business or learning to play the piano or publishing a book but they don t succeed and the dream fizzles away In many cases these people have lots of skills and expertise such as deep knowledge of the business or career they are interested in so why don t they succeed Paul Levesque and Art McNeil have discovered that making a dream come true requires cultivating skills of a higher order macroskills that inevitably spell the difference between success and failure no matter what the specifics of a person s dreams are These are the skills Dreamcrafting outlines in detail

Soul Psychology Joshua David Stone,1995-08-01 There are tens of thousands of self help books on psychology and human relationships however there are very few that integrate the topics of the soul and spirit into the picture Most books on this subject focus on personality level self actualization The new wave in the field of psychology is transpersonal or soul psychology which will lead to monadic psychology for the more advanced students of the path The entire understanding of psychology is completely changed when the soul is properly integrated It has been said that personality level self actualization brings happiness soul

level self actualization brings joy and monadic and spiritual level self actualization bring bliss **The Masters Speak, Twenty-Seven Dialogues, The Himalayan Journals** M.G. Hawking, 2025-08-29 The dialogues presented in this book are transcribed from explorer M G Hawking's journals chronicling his conversations with extraordinary men and women he encountered in a remote region of the Himalayas allowing readers to experience first hand their expressions of the fundamental knowledge essential principles of consciousness and specific practices that can enable extraordinary perceptive abilities and powers Reviews What a rare resource Hawking brings together an important anthology from an amazing number of adepts masters with whom he engaged during a five year trip to the Himalayas I took pages of notes highly beneficial for anyone on the path to enlightenment Nothing else like this out there Absolutely mind blowing I am a long time student of the occult and this book's knowledge far surpasses anything I have ever read in over 50 years of reading Made abstract concepts clear Truly life changing for me Masters Speak is an amazing read the book is riveting From the author The knowledge and techniques presented in this book arise directly from the esoteric teachings of profoundly enlightened individuals If studied with patience and fully integrated into your core belief system these teachings will lay the foundation necessary to enable you to acquire very unique abilities Yet nothing explained in this volume is supernatural or beyond the ability of a properly equipped individual These abilities are not miracles Quite the contrary They do not require any capacities that are not inherent in the human species as a whole if those capacities are properly recognized and developed These discourses are intended for those whose passion for knowledge has instilled an enduring aspiration to see things whole to pursue the deepest understanding of consciousness and our true place and power in the Universe M G Hawking For untold millenniums this knowledge has been known only to a privileged few revelations long concealed from the world at large As entertaining as it is enlightening this is an incomparable book for anyone on a spiritual path or seeking greater knowledge and personal power 2025 Edition e reader page count 404 estimated varies with the reading device Includes Reference Citations and a Supplemental Material Section
