Divine Science and the Science of God Victor Preller, 2005-05-17 In this book Victor Preller examines the logical status of religious language in the light of recent developments in American analytic philosophy The problem inherent in religious language is presented in terms of the referential status of the word God The author argues that the significance of any referential term is dependent upon the ability of that term to play a significant role within a unified conceptual system The problem is shown to transcend the epistemological dogmas of Positivism and Conceptual Empiricism and to be inherent in any intelligible epistemology including that of Thomas Aquinas whose theological treatises serve as a model of religious language for the thesis of this book According to Professor Preller Divine Science Aquinas term for what we now call Natural Theology results from a reflection upon the limitations encountered by the intellect in its attempt to render intelligible the objects of human experience In the Science of God Aquinas term for that mode of knowing engendered by faith the unknown meta empirical referent of Divine Science becomes the object of the human intellect While this study develops out of the discussions inaugurated by Flew and McIntyre in *New Essays in Philosophical Theology* it rejects the excessively empirical approach of most other studies in that tradition It applies post positivistic analysis to specifically Catholic theological language but it obviously applies to the theological language involved in any form of theism

Autism Spectrum Disorders Through the Life Span Digby Tantom, 2012 This book contains the latest research on assessment diagnosis treatment intervention and support of individuals with ASD and examines their implications at various stages of life A wide range of

neurological genetic psychological developmental social and emotional issues are covered **It Is the Same Light** Daljit Singh Jawa, 2015-03-28 Sri Guru Granth Sahib is generally known as the holy scripture of Sikhism the world's fifth largest religion. But this holy scripture is neither a storybook nor just the philosophy of the Sikh saints or prophets. It is more like a collection of divine revelations and hymns expressing the feelings of love and devotion of the Sikh Gurus for the Supreme Being along with the similar yearnings and longings of the devotees and saints from all faiths prevalent in Indian subcontinent during those times. The beauty of this 1430 page hymnal written in 22 different languages lies in the fact that while it spiritually connects the human mind to the original source of eternal bliss it provides a very practical and effective way to live in love and harmony with other fellow human beings irrespective of their faith color caste creed or race. The following are a few examples of the views of eminent writers and scholars regarding Sri Guru Granth Sahib. Mankind's religious future may be obscure yet one thing can be foreseen. The living higher religions are going to influence each other more than ever before in the days of increasing communications between all parts of the world and branches of the human race. In this coming religious debate the Sikh religion and its scriptures the Sri Guru Granth Sahib will have something of special value to say to the rest of the world. Arnold Toynbee Historian. I have studied the scripture of great religions but I do not find elsewhere the same power of appeal to the heart and mind as I find here in these volumes of Sri Guru Granth Sahib. There is something strangely modern about these scriptures. They speak to the people of any religion or of none. They speak for the human heart and the searching mind. Mrs Pearl S Buck Nobel Laureate. In Volume five of the **It Is The Same Light** series SGGGS pages 801-1000 author Daljit Singh Jawa continues his humble effort to share the beauty of the SGGGS with those who have limited familiarity with the language Gurmukhi history or context. The following are some of the comments received on the volume 7 pages 1201-1430 of SGGGS. This translation of Guru Granth Sahib is one of the best English translations in my view as it is in simple understandable English. Each shabad's summary message is given. There is connection between the shabads to reveal continuity of thought process in Guru Ji's message. Thanks to S Daljit Singh Ji for the great work which will benefit future generations understand Guru Ji's message easily. Amarjit Singh M D University at Buffalo Buffalo NY. A monumental undertaking reflecting a lifetime of devotion to the Sri Guru Granth Sahib and to the scholarly study of its voluminous texts. Both its rendition of the original Gurmukhi script with accompanying English transliteration and its erudite commentary on each of the Granths many hymns mark this work as a stunning achievement which will benefit all serious students of the Sikh religion and of world religions in general. Barry Crawford Ph D Washburn University Topeka Kansas. Perfecting Wisdom The Dalai Lama, 2019-07-16. Based on a lecture given by the Dalai Lama on the wisdom chapter of *A Guide to the Bodhisattva Way of Life* this book comments on Tibetan Buddhist philosophy in a clear and direct way. Shantideva's *A Guide to the Bodhisattva Way of Life* is one of the most important texts in the Mahayana tradition of Buddhist practice. Its ninth chapter the section on transcendent wisdom is known among Buddhist scholars as a challenging

exposition of Madhyamika philosophy and difficult to understand without a commentary This extraordinarily clear discussion of the wisdom chapter is based on an oral teaching given by His Holiness the Dalai Lama before an audience of thousands of Tibetans and Westerners This invaluable volume with its precise explanation of core issues of Tibetan Buddhism stands as a key work in Buddhist literature This book was previously published under the title Transcendent Wisdom **The Song of Silence** Deep Suri,2024-04-25 Seeing and experiencing the world as it is is freedom and peace in itself but the spiritual seeker who seeks the answer to life s biggest mystery Who is the experiencer of the I must aspire through self contemplation to find an articulate all embracing answer to the true meaning and significance of the concepts of freedom and peace What is their true power Can freedom and peace be internalized through the intellect or is true genuine freedom and peace an experience and a state in itself a state where true and false do not configure a state where opposites cannot force their entry an unshakable point in the emptiness in the empty space In the empty inner and outer space united and undivided where silence and awareness merge in an By embracing silence in an atmosphere of absolute presence where the limitations of language fade away and the all pervading power of silence fills the space surrounding the human body communication will occur without effort This eternal ever present silence is the universal language for all beings that enter this universe Observing each other in silence is to transcend the world of conclusions where outwardly two different entities with their own perceptions of the world limited by nationality culture and religion merge into one entity that communicates through the timeless language of silence The most profound discovery we can make on this stage of life is that there is no I that our existence is merely a mental projection playing out in the mind through the stormy sea of learned concepts and ideas
