news stories prove this imperative is routinely violated In *Who Really Matters* Art Kleiner argues that the dissonance between a declared mission and actual operation can be seen at organizations large and small All organizations have one motive in common Every decision which projects to back who to promote or how to spend money is affected by the perceived wants and needs of a core group of people who really matter The composition of the group can differ from organization to organization Often the most senior people in the hierarchy are members but not always Sometimes the people who matter can extend far down the corporate ladder or even reach outside the company to include key customers labor union leaders and stockholders Kleiner gives readers clues about how to identify a core group s real mission by observing its day to day actions listening to the fundamental message it sends employees examining its management of new members understanding the ideas that shape its policies about management money and the way the world works and avoiding the taboos governing the way it operates Whether you re a member of the Core Group or want to be this deft engaging blend of argument and observation anecdotes and advice is the one guide you ll need to achieve your career goals and aspirations by navigating the hidden pathways in any organization large or small
