**Minding Her Own Business** La Trecia Doyle, 2016-05-24 Know thyself by thy roots This book is to capture the Nubian Modern day woman that is seeking silence and peace in the spirit as well as everyday living **Copper King in Central Africa** Hyden Munene, 2022-01-31 Copper King in Central Africa offers a detailed account of the corporate history of the Rhokana Rokana Corporation and its Nkana mine Thematically and chronologically organised it explores the discovery of viable ores on the Northern Rhodesian Zambian Copperbelt in the late 1920s which attracted foreign capital from South Africa Britain and the USA prompting the development of the Nkana mine and the formation of the Rhokana Corporation in the early 1930s It follows through the evolution of the copper mining industry up to the re privatisation of the Zambian mining sector in 1991 The book ties into a single narrative the disparate themes of corporate organisation labour relations and profitability of Rhokana demonstrating how the firm was for a time the most important mining entity in the Northern Rhodesian Zambian mining industry Rhokana was both an investment firm on the Copperbelt and a mining company through Nkana mine Thus the Corporation was central to the development and profitability of the copper industry in Zambia Its corporate and labour policies influenced the Copperbelt as a whole Employing the largest labour force in the mining sector Rhokana spearheaded the labour movement on the Copperbelt Its Nkana mine was also the largest producer of copper in the Northern Rhodesian mining industry between 1940 and 1953 and contributed hugely to the war economies of Britain and the USA Throughout its history Nkana was also a major source of cobalt After nationalisation of the mining sector in 1970 Rhokana surrendered its investments in the wider copper industry but remained central to the Copperbelt s smelting and refining operations owning the biggest metallurgical facilities in the industry Referendum Robert A. Strauss, 2009-02-28 Life can be surprising From this point on my life s journey I look back and it almost seems surreal As I gaze through that long

traveled pathway of time I can honestly say that had I had a chance at the beginning to glimpse forward to see where this traveled road would take me I wouldn't have believed it And so this is probably true for a lot of us in my generation We were born into a time of change significant change The kind of change that would set our lives and those of the following generations apart from those of just one generation ahead of us The previous generations secured our future They paid for it with their personal sacrifice and unrivaled bravery That future has also served to make the world a smaller place whether it be by audio and video communications computers or the commonplace of jet travel As part of this new world I have gone on to see and do things that seemed to be out of reach from that generational point where I entered this life As I have reached the more senior years of my life I have found the temptation to document a lot of life's little adventures or misadventures as they may be I am also responding to those many people who have said you should write a book The technology of today has also made this temptation easy and practical to implement This book is my first pass at this endeavor at least in the non technical realm The subject matter was an easy choice The events covered in this book affected many things in many ways These effects include both future generations and the geographical aspects of the regions involved More importantly this story at least in part shares common elements with many other people and communities In some cases these same things are occurring right now in probably very similar circumstances This book just may provide helpful insight to others who now stand where we once stood Bob Strauss *Resources in Education*, 1977

**The Odyssey of Political Theory** Patrick J.
