The Healing Powers of Herbs Ranjit Roy Chaudhury, 2007-06-08. The stress and strain of modern-day living takes its toll on our mind and body. Lack of time and patience make us resort to methods which provide instant relief, and often we forget that the answer to a problem is an effective cure. Modern medicine has made many discoveries, yet the side effects of many of the wonder drugs cannot be ignored. This book on medicinal plants and their healing powers is a compilation of articles written for Asian Age by the author. The articles are interesting and informative and throw light on the little-known facts about various herbs. What makes this book stand out amongst countless numbers of books on alternative medicine is that the healing properties of each medicinal plant have been explained in detail, and many of them are taken from ancient traditional books on medicine of the Indian as well as the Chinese culture. The readers are also made aware about the importance of the many treasured herbs and also the issue of patent regarding the same. A fountain of knowledge on medicinal plants, this book is a must for professional as well as personal collection.
