**Lawrence Durrell: The Mindscape** Richard Pine, 2016-07-27 In this second volume of his study of the Anglo Irish novelist Lawrence Durrell following the appearance in 1988 of *The Dandy and the Herald Manners Mind and Morals from Brummell to Durrell* Richard Pine examines in detail Durrell's unique contribution to the development of the modern novel concentrating in particular on the evidence of Durrell's private notebooks and diaries Pine's twenty year friendship with Durrell has resulted in an intimate portrait of a singular mind whose

extraordinary career both as a writer and as a British colonial official is hallmarked by the creation of the Heraldic Universe an imaginative realm within which the artist reigns supreme

**Executive Thinking** Kevin Baize OD, Morris Graham PhD, 2011-02-18 Life is about how much we think Thinking is about how much mental capacity we possess Capacity in addition to our abilities and conscientiousness is about how much we can process combinations of verbal height quantitative width and spatial depth with decisiveness direction and speed No matter where we go or what we do as executives we take our thinking with us That may spoil everything because to a great extent we do and accomplish what we think about Our thoughts mold our aspirations attitudes and accomplishments during our life In other words our careers and lives are influenced more by the power of our thoughts than anything else The bad news is that most of us never fully use our mental capacities and never achieve our potential The good news is that neural technologies are now available to transform our thinking into the higher realms of brilliance Developing the spatial capacity to think higher wider and deeper means breaking away from the effects of years of flat thinking or educational backgrounds that stifles creative innovative potential Expand your mental agility through a development of higher order processes and discover a whole new world mentally in Executive Thinking

Arkography Gunnar Olsson, 2020-05-01 In this fascinating text Gunnar Olsson tells the story of an arkographer who with Pallas Athene's blessings travels down the Red River Valley navigates the Kantian Island of Truth and takes a house tour through the Crystal Palace the latter edifice an imagination grown out of Gunnael Jensson's sculpture Mappa Mundi Universalis This travel story carries the arkographer from the oldest creation epics extant to the power struggles of today nothing less than a codification of the taken for granted a mapping of the no man's land between the five senses of the body and the sixth sense of culture By constantly asking how we are made so obedient and predictable the explorer searches for the present day counterparts to the biblical ark the chest that held the commandments and the rules of behavior that came with them hence the term arkography a word hinting at an as yet unrecognized discipline In Arkography Olsson strips bare the governing techniques of self-declared authorities including those of the God of the Old Testament and countless dictators the latter supported by a horde of lackeys often disguised as elected representatives and governmental functionaries From beginning to end Arkography is an illustration of how every creation epic is a variation on the theme of chaos turning into cosmic order A palimpsest of layered meanings a play of things and relations identity and difference One and many you and me

Narrative Structure and Philosophical Debates in Tristram Shandy and Jacques le fataliste. Margaux Whiskin, 2014-01-02 Contrary to what might be expected from a philosophical novel Sterne and Diderot do not impose their own views upon the reader The author's voice is but one amongst many others Margaux Whiskin's argument hinges on Bakhtinian dialogism which can be defined as the presence of interacting voices and views In Tristram Shandy and Jacques le fataliste dialogism occurs through the narrative structure allowing for the confrontation of the contradictory discourses in the philosophical debates and enabling them to engage in dialogue instead of establishing the authorial voice as

the sole valid discourse in the text Through those contradictions the philosophical content takes on a different form that of a refusal of systematic discourse Sterne and Diderot do not offer a solution to the various questions debated in their novels However they do offer a philosophical approach whereby the confrontation of contradictory ideas creates a dynamic for the pursuit of truth By engaging in dialogue and constantly opening questions where there is no single right answer Sterne and Diderot redirect the focus of the reader and invite him to perceive truth not as a destination to be reached or as a closed conclusion but as being present in the quest itself in the ongoing dialogues and debates
