Minerals Yearbook 1982 Volume 3 Area Reports:

Copper King in Central Africa Hyden Munene, 2022-01-31 Copper King in Central Africa offers a detailed account of the corporate history of the Rhokana Rokana Corporation and its Nkana mine Thematically and chronologically organised it explores the discovery of viable ores on the Northern Rhodesian Copperbelt in the late 1920s which attracted foreign capital from South Africa Britain and the USA prompting the development of the Nkana mine and the formation of the Rhokana Corporation in the early 1930s It follows through the evolution of the copper mining industry up to the re privatisation of the Zambian mining sector in 1991 The book ties into a single narrative the disparate themes of corporate organisation labour relations and profitability of Rhokana demonstrating how the firm was for a time the most important mining entity in the Northern Rhodesian Zambian mining industry Rhokana was both an investment firm on the Copperbelt and a mining company through Nkana mine Thus the Corporation was central to the development and profitability of the copper industry in Zambia Its corporate and labour policies influenced the Copperbelt as a whole Employing the largest labour force in the mining sector Rhokana spearheaded the labour movement on the Copperbelt Its Nkana mine was also the largest producer of copper in the Northern Rhodesian mining industry between 1940 and 1953 and contributed hugely to the war economies of Britain and the USA Throughout its history Nkana was also a major source of cobalt After nationalisation of the mining sector in 1970 Rhokana surrendered its investments in the wider copper industry but remained central to the Copperbelt s smelting and refining operations owning the biggest metallurgical facilities in the industry

Mikesell, Raymond

Mikesell,2025-10-01 In an uncertain international economic environment the United States is increasingly dependent upon foreign suppliers for many things including nonfuel minerals This book deals with the major problems and policy issues involved with these minerals The major problems concern the medium and long term availability of world supplies the competitive structure of nonfuel mineral industries and the location of world production and consumption Special attention is given to the production of nonfuel minerals in developing countries and the role of foreign investment in Third World mineral industries The major policy include reducing U S vulnerability to disruption of imports of nonfuel minerals subsidizing or protecting against imports domestic producers of nonfuel minerals conflicts between environmentalists and the mining industry and international loans to Third World metal producing countries While the treatment of conflicting policy positions is objective the author comes out on the side of unrestricted competition in world markets including elimination of domestic subsidies to import barriers the use of economic stockpiles to reduce vulnerability to import disruption and maintenance of strict environmental pollution standards The author is optimistic about the long run outlook for mineral supplies necessary to meet world requirements for economic growth United States domestic mineral independence may be unnecessary in terms of national security and too costly to consumers and the environment
