Miners And Medicine West Virginia Memories:

Miners and Medicine Claude Albee Frazier, Frieda Kenyon Brown, 1992 **Histories of nursing practice** Gerard Fealy, Christine E. Hallet, Susanne Malchau Dietz, 2015-10-01 Contains eleven landmark essays that explore the significance and meaning of nursing with a wide geographic range that expands the existing literature on nursing work *Nursing Rural America* John C. Kirchgessner, Arlene Wynbeek Keeling, 2014-07-15 Print CourseSmart *Growing Up in the United States of America* Joan W. Oxendine, 2018-06-11 Growing Up in the United States of America By Joan W Oxendine Joan W Oxendine grew up in poor coal country in deep southern West Virginia She knows firsthand the plight of the poor the plight of the sick the plight of the uninsured As a result of her upbringing she was called to become a nurse Throughout a forty year nursing career Joan has encountered various situations dealing with patients who were managing challenging health conditions Many of the conditions her patients encountered could have been prevented if each had health insurance Joan was thrilled with the benefits created with the Patient Protection Affordable Care Act and appalled by the Republican Congress who wants to destroy it With the current political climate as well as the present attack on health care Joan decided to write about her life growing up poor and working as a nurse She wants to share her experiences in the hopes of encouraging others to also speak out and stand up for what s right **Current Catalog** National Library of Medicine (U.S.), 1993 First multi year cumulation covers six years 1965 70 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1993

African American and Cherokee Nurses in Appalachia Phoebe Ann Pollitt, 2016-02-19 Few career opportunities were available to minority women in Appalachia in the first half of the 20th century Nursing offered them a respected relatively well paid profession and as few physicians or hospitals would treat people of color their work was important in challenging health care inequities in the region Working in both modern surgical suites and tumble down cabins these women created unprecedented networks of care managed nursing schools and built professional nursing organizations while navigating discrimination in the workplace Focusing on the careers and contributions of dozens of African American and Eastern Band Cherokee registered nurses this first comprehensive study of minority nurses in Appalachia documents the quality of health care for minorities in the region during the Jim Crow era Racial segregation in health care and education and state and federal policies affecting health care for Native Americans are examined in depth **Authorized to Heal** Sandra Lee Barney, 2003-07-11 In this book Sandra Barney examines the transformation of medical care in Central Appalachia during the Progressive Era and analyzes the influence of women volunteers in promoting the acceptance of professional medicine in the region By highlighting the critical role played by nurses clubwomen ladies auxiliaries and other female constituencies in bringing modern medicine to the mountains she fills a significant gap in gender and regional history Barney explores both the differences that divided women in the reform effort and the common ground that connected them to one another and to the male physicians who profited from their voluntary activity Held together at first by a shared goal of improving the public

welfare the coalition between women volunteers and medical professionals began to fracture when the reform agendas of women's groups challenged physicians' sovereignty over the form of health care delivery. By examining the professionalization of male medical practitioners, the gendered nature of the campaign to promote their authority and their displacement of community healers, especially female midwives, Barney uncovers some of the tensions that evolved within Appalachian society as the region was fundamentally reshaped during the era of industrial development. *Appalachia Inside Out: Conflict and change* Robert J. Higgs, Ambrose N. Manning, Jim Wayne Miller, 1995 An anthology of Appalachia writings. *Appalachian Nursing* Sharon Loury, 2025-04-28 This work provides an in-depth examination of early healthcare and the evolution of professional nursing in the heart of Appalachia. Existing histories of Appalachian healthcare tend to focus on physicians with little written about the evolution of nursing in the region and the nurses' roles, experiences, and contributions. During a time when access to healthcare was limited or nonexistent, nurses played a prominent role in the health and well-being of Appalachian communities. Archival materials, reports, journals, personal letters, memoirs, and oral histories provide insight into the nurses' activities, dedication, resilience, and innovation in delivering early healthcare care to rural and isolated Appalachian communities. **Social Approaches to an Industrial Past** Eugenia W. Herbert, A. Bernard Knapp, Vincent C. Pigott, 2002-02-07 Original theoretical viewpoint of thematic material. Historical and anthropological. A. Bernard Knapp is a well-known and respected author. Goes beyond economic/technological analysis to social/economic/historical and anthropological. Covers themes of gender, colonialism, ethnicity, production, consumption. **West Virginia History**, 1996 **Journal of Appalachian Studies**, 1995 *Bibliography of the History of Medicine*, 1993 *Excavating Memory* Maria Theresia Starzmann, John R. Roby, 2016-02-25 In this compelling study, Maria Theresia Starzmann and John Roby bring together an international cast of experts who move beyond the traditional framework of the constructed past to look at not only how the past is remembered but also who remembers it. They convincingly argue that memory is a complex process shaped by remembering and forgetting, inscription and erasure, presence and absence. Collective memory influences which stories are told over others, ultimately shaping narratives about identity, family, and culture. This interdisciplinary volume, melding anthropology, archaeology, sociology, history, philosophy, literature, and archival studies, explores such diverse arenas as archaeological objects, human remains, colonial landscapes, public protests, national memorials, art installations, testimonies, and even digital space as places of memory. Examining important sites of memory, including the Victory Memorial to Soviet Army, Blair Mountain, Spanish penitentiaries, African shrines, and the U.S.-Mexico borderlands, the contributors highlight the myriad ways communities reinforce or reinterpret their pasts. *New Deal Medicine* Michael R. Grey, 2002-05-24 In *New Deal Medicine*, physician and historian Michael Grey brings to light the diversity, reach, and complexity of the medical care programs of the Farm Security Administration. Drawing on oral histories, archival records, and medical journals from the 1930s and 1940s, Grey finds the programs were both a rehearsal for more modern forms of medical organization and a

lightning rod for critics of socialized medicine He assesses the compromises made to try to preserve the programs somewhat secret objective of providing the poor with health care while not running afoul of conservative politicians and their colleagues in the AMA Acknowledging the effect of changing demographics doctors nurses and farmers alike marched off to war and economics Grey contends that these factors do not fully explain the demise of the FSA experiment in health care Rather the political winds shifted at the same time that the medical profession acted to protect its authority over the practice of medicine New Deal Medicine shows that by the peculiarly American style of incrementalism many of the FSA medical care structures and goals have been at least partially realized in the United States and in Canada The lessons learned by the FSA personnel were transferred into health programs in Canada in the labor unions and finally in Lyndon Johnson s Great Society

Goldenseal ,2001 Journal of the American Medical Association ,1925 Includes proceedings of the association papers read at the annual sessions and lists of current medical literature **Memory's Orbit** Joseph Natoli,2012-02-01 Mixing memoir and cultural criticism Memory s Orbit examines the intersections between a wide range of films and current events finding its theme and orbiting narrative structure in the personal stories we live within and their relationship to the social and cultural order Joseph Natoli covers such films as The Matrix American Beauty Fight Club Eyes Wide Shut and American History X as well as such headline events as the death of John F Kennedy Jr the dot com boom the WTO protests in Seattle and Bush versus Gore consistently identifying those aspects of the social order that have shaped his narrating frame Eschewing theoretical exposition and jargon Natoli performs postmodern critique and this book continues his innovative work in the genre of cultural studies **Virginia Medical Quarterly** ,1993
