Minerva's Aviary John G. Slater, 2005-01-01 In *Minerva's Aviary* John G Slater documents the history of Toronto's Philosophy Department from its founding to contemporary times *Dictionary Of Modern American Philosophers* John R. Shook, 2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought The Routledge Handbook of Phenomenology and Phenomenological Philosophy Daniele De Santis, Burt C. Psyche Phyllis Young,2008-10-06 A child who is the centre of her parents life is torn away in the darkness from her comfortable urban home and left to grow up in the barren hills of northern mining country Over time recognizing that she has outgrown the kindly but uneducated couple who raise her she begins a relationship with an artist who initiates her into the wider world and adulthood *Psyche* is the gripping story of a mother s undying faith in her child s survival and the child s remarkable resilience as she embarks on a dramatic journey of self discovery through art education and interaction with a varied cast of colourful characters This 1959 international bestseller focuses on issues of character and environment in an unconventional coming of age story that draws the reader into an exploration of still decidedly modern themes the search for biological roots and identity and the question of what most influences that identity nature or nurture

The Fiddlehead Moment Tony Tremblay,2019-12-05 For many Canadians the small province of New Brunswick on Canada s scenic east coast is a nice place to visit but no place to live plagued for generations by outmigration and economic stagnation In *The Fiddlehead Moment* Tony Tremblay challenges this potent stereotype by showcasing the work of a group of literary modernists who set out to change the meaning of New Brunswick in the national lexicon Alfred Bailey Desmond Pacey Fred Cogswell and a formidable group of local poets and cultural workers collectively New Brunswick s Fiddlehead School sought to restore New Brunswick s literary reputation by adapting avant garde modernist practices to the contours of the province opening it to the contemporary world while also encouraging writers to make it their subject The result was a non urban form of modernism that was as responsive to technical innovation as to the human geographies of New Brunswick By placing New Brunswick writers and critics at the forefront of Canadian literature in the midcentury modernist project Tremblay adds an important new chapter to our understanding of Canadian modernism

The Fiddlehead Moment is the first critical examination of this group's considerable influence. Whether through Bailey's ethnomethodology, Pacey's critical ordering, or Cogswell's editorial eclecticism in the Fiddlehead magazine and Fiddlehead Poetry Books, authors in New Brunswick Tremblay argues had a profound impact on writing in Canada.

The Creation of Scientific Psychology David J. Murray, Stephen W. Link, 2021-02-15. With an emphasis on developments taking place in Germany during the nineteenth century, this book provides in-depth examinations of the key contributions made by the pioneers of scientific psychology. Their works brought measurement and mathematics into the study of the mind. Through unique analysis of measurement theory by Whewell, mathematical developments by Gauss, and theories of mental processes developed by Herbart, Weber, Fechner, Helmholtz, Müller, Delboeuf, and others, this volume maps the beliefs, discoveries, and interactions that constitute the very origins of psychophysics and its offspring, Experimental Psychology. Murray and Link expertly combine nuanced understanding of linguistic and historic factors to identify theoretical approaches to relating physical intensities and psychological magnitudes. With an eye to interactions and influences on future work in the field, the volume illustrates the important legacy that mathematical developments in the nineteenth century have for twentieth and twenty-first century psychologists. This detailed and engaging account fills a deep gap in the history of psychology. *The Creation of Scientific Psychology* will appeal to researchers, academics, and students in the fields of history of psychology, psychophysics, scientific and mathematical psychology.

Educating the Imagination Alan Bewell, Neil ten Kortenaar, Germaine Warkentin, 2015-10-01. Northrop Frye's long career made him Canada's most creative public intellectual. A century after his birth, his many books demonstrate a powerful vision of the resources of the human imagination. Frye's critical theory sought the continuities linking human creation in all spheres of life, trusting in the idea of a single human community sharing myths, stories, and images that express shared visions and desires. The essays in *Educating the Imagination* illustrate the extraordinary range of Frye's ideas. Robert Bringhurst examines how Frye mapped the mind; Ian Balfour considers what belief meant for Frye; and Gordon Teskey re-examines two of the critic's great subjects, Blake and Milton. Michael Dolzani and Thomas Willard discuss Frye's symbolism, and Robert Tally looks at his utopianism. A strong thread running through all the essays is Frye's interest in the Romantic era, as Mark Ittenson shows. Three essays pair Frye with other titans of the time: Fredric Jameson, Paul de Man, and Jacques Derrida. Troni Y Grande examines a gender issue in Frye's theory of tragedy, and J. Edward Chamberlin concludes by relating Frye's writings to songs, ceremonies of belief, and the common ground that they represent across cultures. Engaging with significant matters of contemporary concern, *Educating the Imagination* provides a renewed understanding of Northrop Frye and the fertility of his ideas about the imagination and society. Contributors include Ian Balfour (York), Robert Bringhurst (Adam Carter, Lethbridge), J. Edward Chamberlin (Toronto), Alexander Dick (British Columbia), Michael Dolzani (Baldwin Wallace), Troni Y Grande (Regina), Mark Ittenson (Zurich), Garry Sherbert (Regina), Robert T. Tally Jr. (Texas State), Gordon Teskey (Harvard), and Thomas Willard (Arizona).
