Modern Management Technology Defined La Fayette Ron Hubbard, 1976-01-01 *Handbook of Scientology* James R. Lewis, 2017-01-05 The Handbook of Scientology brings together a collection of fresh studies of the most persistently controversial of all contemporary New Religions In recent years increasing scholarly attention has been directed at the Church of Scientology resulting in a small tsunami of new scholarship We have finally reached a point in time where a book on Scientology need not restrict itself to basics Thus for example the historical chapters in the present volume are not really aimed at providing elementary facts on Scientology s background but rather focus on understanding how the Church of Scientology developed over the years In short the Handbook of Scientology will provide a wealth of new information on a topic that one might otherwise have thought exhausted Contributors are Matthew Charet Dorthe Refslund Christensen Carole M Cusack Bernard Doherty Marco Frenschkowski Liselotte Frisk Kjersti Helles y Don Jolly James R Lewis Renee Lockwood Andr s M t T th G bor D niel Nagy Johanna Petsche Erin Prophet Susan Raine David G Robertson Mikael Rothstein Lisbeth Tuxin Rubin Nicole S Ruskell Shannon Trospen Schorey Michelle Swainson Inga B rdsen T llefsen Hugh G Urban Donald A Westbrook and Benjamin Zeller **The Religion Toolkit** John Morreall, Tamara Sonn, 2024-06-13 THE RELIGION TOOLKIT A comprehensive survey of the study of religion worldwide from ancient indigenous traditions to today s religious nationalism This is an excellent book that is a good comprehensive overview of the history of religions and the ways of studying religion within Religious Studies it really brings religions to life for the reader Gavin Flood Professor of Hindu Studies and Comparative Religion Oxford University The authors provide a clear first rate introduction to the study of religions origins leading scholars and their theories and beliefs This is by far the best introductory volume I am aware of both in terms of substance clarity and insights John L Esposito Distinguished University Professor Georgetown University and Past President of the American Academy of Religion The Religion Toolkit Understanding Religion in the World Today is a clear and comprehensive introduction to the academic study of religions providing readers an introduction to the history and theories of Religious Studies a survey of global religious traditions and an overview of religion in the public sphere today Discusses theory and methodology in religion including the disciplines of anthropology psychology philosophy biblical studies and theology Describes the early development of religion with overviews of traditions around the world including Judaism Christianity Islam Baha i Hinduism Zoroastrianism Jainism Buddhism Sikhism Daoism Confucianism and Shinto Covers traditions not commonly addressed in introductory textbooks such as Santeria Vodou Tengrism and indigenous traditions of the Americas Examines recent developments and contemporary issues such as secularization bioethics and the rise of religious nationalism Includes access to a companion website with discussion questions additional material and helpful primary and secondary sources Providing the knowledge and tools required to explore and understand the nature and roles of religion The Religion Toolkit Understanding Religion in the World Today Second Edition is an excellent introductory

textbook for undergraduate and graduate courses in Religious Studies History of Religion Religions of the World and Theory and Method in the Study of Religion as well as a valuable resource for general readers interested in the role of religion in the world today Scientology in Popular Culture Stephen A. Kent, Susan Raine, 2017-07-14 This multidisciplinary study of Scientology examines the organization and the controversies around it through the lens of popular culture referencing movies television print and the Internet an unusual perspective that will engage a wide range of readers and researchers For more than 60 years Scientology has claimed alternative religious status with a significant number of followers despite its portrayals in popular culture domains as being bizarre What are the reasons for the vital connections between Scientology and popular culture that help to maintain or challenge it as an influential belief system This book is the first academic treatment of Scientology that examines the movement in a popular culture context from the perspective of several Western countries It documents how the attention paid to Scientology by high profile celebrities and its mention in movies television and print as well as on the Internet results in millions of people being aware of the organization to the religious organization s benefit and detriment The book leads with a background on Scientology and a discussion of science fiction concepts pulps and movies The next section examines Scientology s ongoing relationship with the Hollywood elite including the group s use of celebrities in its drug rehabilitation program and explores movies and television shows that contain Scientology themes or comedic references Readers will learn about how the Internet and the mainstream media of the United States as well as of Australia Germany and the UK have regarded Scientology The final section investigates the music and art of Scientology

The Church of Scientology Hugh B. Urban, 2013-02-24 Scientology s long and complex journey to recognition as a religion Scientology is one of the wealthiest and most powerful new religions to emerge in the past century To its detractors L Ron Hubbard s space age mysticism is a moneymaking scam and sinister brainwashing cult But to its adherents it is humanity s brightest hope Few religious movements have been subject to public scrutiny like Scientology yet much of what is written about the church is sensationalist and inaccurate Here for the first time is the story of Scientology s protracted and turbulent journey to recognition as a religion in the postwar American landscape Hugh Urban tells the real story of Scientology from its cold war era beginnings in the 1950s to its prominence today as the religion of Hollywood s celebrity elite Urban paints a vivid portrait of Hubbard the enigmatic founder who once commanded his own private fleet and an intelligence apparatus rivaling that of the U S government One FBI agent described him as a mental case but to his followers he is the man who solved the riddle of the human mind Urban details Scientology s decades long war with the IRS which ended with the church winning tax exempt status as a religion the rancorous cult wars of the 1970s and 1980s as well as the latest challenges confronting Scientology from attacks by the Internet group Anonymous to the church s efforts to suppress the online dissemination of its esoteric teachings The Church of Scientology demonstrates how Scientology has reflected the broader anxieties and obsessions of postwar America and raises profound questions about how religion is defined and who

gets to define it **Scientology** James R. Lewis, 2009-03-11 Scientology is arguably the most persistently controversial of all contemporary New Religious Movements James R Lewis has assembled an unusually comprehensive anthology incorporating a wide range of different approaches In this book a group of well known scholars of New Religious Movements offers an extensive and evenhanded overview and analysis of all of these aspects of Scientology including the controversies to which it continues to give rise **Among the Scientologists** Donald A. Westbrook, 2019 The Church of Scientology is one of the most recognizable American born new religions but perhaps the least understood With academic and popular interest on the rise many books have been written about Scientology and surely more will follow Although academics have begun to pay more attention to Scientology the subject has received remarkably little qualitative attention Indeed no work has systematically addressed such questions as what do Scientologists themselves have to say about their religion s history theology and practices How does Scientology act as a religion for them What does lived religion look like for a Scientologist This is not so much a book about the Church of Scientology its leaders or its controversies as it is a compilation of narratives and histories based on the largely unheard or ignored perspectives of Scientologists themselves Drawing on six years of interviews fieldwork and research conducted among members of the Church of Scientology this groundbreaking work examines features of the new religion s history theology and praxis in ways that move discussion beyond apostate driven and expos accounts *Catalog of Copyright Entries.
