Mothers Versus Men Why Women Lose At Work:

The Impact of Losing Your Job Martin Ehlert, 2025-10-01 Losing a job has always been understood as one of the most important causes of downward social mobility in modern societies And it s only gotten worse in recent years as the weakening position of workers has made re entering the labour market even tougher The Impact of Losing Your Job builds on findings from life course sociology to show clearly just what effects job loss has on income family life and future prospects Key to Ehlert s analysis is a comparative look at the United States and Germany that enables him to show how different approaches to welfare state policies can ameliorate the effects of job loss but can at the same time make labour insecurity more common

Marriages and Families in the 21st Century Tasha R. Howe, 2011-09-15 Marriages and Families in the 21st Century provides an in depth exploration of a traditional field of study using a new and engaging approach The text covers all the important issues including parenting divorce aging families balancing work and family family violence and gender issues using a bioecological framework that takes into account our status as both biological and social beings Using this lens which emphasizes the individual s interactions with a series of larger systemic influences from family peers neighbors and teachers to schools media institutions and culture the book creates a cohesive overview of modern family life and helps students visualize the complex influences affecting all people in families It also examines the state of modern families using a strengths based approach which allows students to evaluate the health and functioning of a family considering the biological and cultural milieu in which it exists rather than on its observable structure or appearance alone Individual chapters cover historical and cultural trends and also explore the biological personal and social forces that shape individuals and families Each chapter investigates the wide diversity of human relationships and integrates discussions of ethnicity culture sexual orientation and gender seamlessly into the main narrative In addition the book explores recent research in neuroscience medicine and biopsychology to examine how family relationships are shaped by and also influence individuals biological functioning An accessible writing style coupled with numerous student friendly pedagogical features help readers come to a multi layered understanding of what makes families tick while also challenging them to reevaluate their own assumptions and experiences Key features Uses a bioecological model that takes into account our status as both biological and social beings Employs a strengths based approach that focuses on family processes rather than structure in evaluating families optimal health and happiness Incorporates discussion of neuroscience medicine and biopsychological research throughout Explores a wide diversity of family relationships integrating issues of ethnicity culture sexual orientation and gender Focus on my Family boxes profile real families who wrote essays in their own words about their diverse experiences How Would You Measure That sections emphasize students critical thinking and analysis of research design and conclusions Helps students analyze their own families strengths and attempt to build on those through psychometrically sound self assessments and Building Your Strengths exercises Engaging and accessible writing style incorporates contemporary real world examples
