

A black and white photograph of a group of men in military uniforms standing in front of the Eiffel Tower in Paris. The men are wearing dark uniforms and caps, and are standing in a line. The Eiffel Tower is visible in the background, rising behind them. The image has a historical, slightly grainy quality.

## **Nazi Foreign Policy 1933 1941 The Road To Global War:**

*Nazi Foreign Policy, 1933-1941* Christian Leitz, 2003-12-04 How did the Second World War come about Nazi Foreign Policy 1933 1941 provides lucid answers to this complex question Focusing on the different regions of Nazi policy such as Italy France and Britain Christian Leitz explores the diplomatic and political developments that led to the outbreak of war in 1939 and its transformation into a global conflict in 1941 Nazi Foreign Policy 1933 1941 details the history of Nazi Germany's foreign policy from Hitler's inauguration as Reich Chancellor to the declaration of war by America in 1941 Christian Leitz gives equal weight to the attitude and actions of the Nazi regime and the perspectives and reactions of the world both before and during the war

**Nazi Foreign Policy, 1933-1941** Christian Leitz, 2004 Explores the diplomatic and political developments that led to the outbreak of war in 1939 and its transformation into a global conflict in 1941 **German Foreign Policy, 1918-1945** Christoph M. Kimmich, 2013-03-14 Christoph Kimmich's German Foreign Policy 1918 1945 A Guide to Current Research and Resources is a comprehensive guide to archival resources and published materials on the foreign policy of Weimar and Nazi Germany It catalogues the archives libraries and research institutes both public and private that house important collections especially in Germany but also elsewhere in Europe and in the United States and describes their holdings terms of access and use and guides and inventories available German Foreign Policy 1918 1945 also includes a substantial annotated bibliography of published sources ranging from documentary series to significant contemporary accounts from memoirs to secondary works The bibliography reflects current scholarship and draws attention to works that are innovative and accessible It also describes the various series of the Nuremberg War Crimes Trial Records and the original trial documents available in archives and libraries The guide canvasses the vast and growing offering of materials on the Web digitized print materials archival inventories and source materials In order to expedite work in the archives the guide also explains the organization and functioning of the German foreign ministry between 1918 and 1945 and how it kept and stored its records This third edition offers new information on German archives many of which were consolidated and relocated after German reunification on recently discovered archival holdings and on materials posted on the Web It is a reference source for both established scholars and young researchers offering quick and efficient access to the voluminous research and research materials that are now available **Global Great Depression and the Coming of**

**World War II** John E. Moser, 2015-11-17 The Global Great Depression and the Coming of World War II demonstrates the ways in which the economic crisis of the late 1920s and early 1930s helped to cause and shape the course of the Second World War Historian John E Moser points to the essential uniformity in the way in which the world's industrialized and industrializing nations responded to the challenge of the Depression Among these nations there was a move away from legislative deliberation and toward executive authority away from free trade and toward the creation of regional trading blocs away from the international gold standard and toward managed national currencies away from chaotic individual

liberty and toward rational regimentation in other words away from classical liberalism and toward some combination of corporatism nationalism and militarism For all the similarities however there was still a great divide between two different general approaches to the economic crisis Those countries that enjoyed easy unchallenged access to resources and markets the United States Great Britain the Soviet Union and France tended to turn inward erecting tariff walls and promoting domestic recovery at the expense of the international order On the other hand those nations that lacked such access Germany and Japan sought to take the necessary resources and markets by force The interplay of these powers then constituted the dynamic of international relations of the 1930s have nots attempting to achieve self sufficiency through aggressive means challenging haves that were too distrustful of one another and too preoccupied with their own domestic affairs to work cooperatively in an effort to stop them

### **Hitler and His Allies in World War Two Jonathan**

Adelman,2020-03-25 In an area where in depth studies of Hitler s relations with Nazi Germany s allies and the failure of Nazi Germany to make more effective use of them during the war are scant this is a survey that looks at the Soviet Union Japan France Italy Spain Romania and Hungary and their relationship to Nazi Germany Using a comparative approach seven case studies examine themes such as co operation and resistance military and economic aid treatment of Jews relations with the enemies and the popular sentiment towards Germany Jonathan Adelman has provided students of the Second World War with a welcome mine of information and a unique perspective on a much studied topic

### **Hitler's People Richard J**

Evans,2024-08-13 Named a Best Book of the Year by Kirkus Reviews and Air Mail A fascinating and instructive book elegantly written and perceptive Wall Street Journal Kaleidoscopic A fascinating exploration of individual agency that never loses sight of the larger context Just the kind of probing nuanced and unsparing study to help us think things through The New York Times Through a connected set of biographical portraits of key Nazi figures that follows power as it radiated out from Hitler to the inner and outer circles of the regime s leadership one of our greatest historians answers the enduring question how does a society come to carry out a program of unspeakable evil Richard Evans author of the acclaimed The Third Reich Trilogy and over two dozen other volumes on modern Europe is our preeminent scholar of Nazi Germany Having spent half a century searching for the truths behind one of the most horrifying episodes in human history in Hitler s People he brings us back to the original site of the Nazi movement namely the lives of its most important members Working in concentric circles out from Hitler and his closest allies Evans forms a typological framework of Germany society under Nazi rule from the top down With a novelist s eye for detail Evans explains the Third Reich through the personal failings and professional ambitions of its members from its most notorious deputies like Goebbels the regime s propagandist and Himmler the Holocaust s chief architect to the crucial enforcers and instruments of the Nazi agenda that history has largely forgotten like the schoolteacher Julius Streicher and the actress Leni Riefenstahl Drawing on a wealth of recently unearthed historical sources Hitler s People lays bare the inner and outer lives of the characters whose choices led to the deaths of millions

Nearly a century after Hitler's rise the leading nations of the West are once again being torn apart by a will to power. By telling the stories of these infamous lives as human lives, Evans asks us to grapple with the complicated nature of complicity, showing us that the distinctions between individual and collective responsibility and even between pathological evil and rational choice are never easily drawn.

**Ideology and the Rationality of Domination** Gerhard Wolf, 2020-06-09. This well researched, clear and convincing historical study examines the ideology and politics of Germanization during the WWII occupation of Poland. Nicholas Stargardt, author of *The German War*, following the brutal invasion and occupation of Poland, the Nazis moved swiftly to realize one of their key ideological aims: the expansion of German living space. This involved deporting Jews, bringing in German settlers, and establishing an evaluation process that separated Poles from ethnic Germans. As simple as this might have seemed initially, the various parts of the German occupation machinery were soon embroiled in a bitter fight about the essence of Germanness and how to identify a German. In this illuminating study, Gerhard Wolf reveals an astonishing development in which a more inclusive understanding of Germanness, based on the notion of Volk, won out against an exclusive definition based on Rasse. As Wolf demonstrates, this decision paved the way for turning three million Poles into German citizens. Parallel to the mass deportation and murder of Christian Poles and the genocide of Jewish Poles, the Nazis paradoxically also presided over the largest forced assimilation program in German history. Students and scholars of the Second World War, the Holocaust, and Nazism will find new analysis of German imperialism, ethnic cleansing, and genocide in this important book.

**Eight Hundred Heroes** Stephen Robinson, 2022-06-15. Acclaimed historian Stephen Robinson brings to life a legendary last stand: Shanghai 1937. With invading Japanese troops poised to capture one of the world's greatest cities after almost three months of brutal urban warfare, the Chinese Army begins to retreat, except for a single battalion that stays behind to fight. These soldiers, led by Lieutenant Colonel Xie Jinyuan, known as the Eight Hundred Heroes, defended Sihang Warehouse, a six-storey concrete building and natural fortress. The men repulsed waves of Japanese attacks with intense bravery as thousands of spectators looked on from the relative safety of the British Concession inside Shanghai's International Settlement. Western journalists with front row seats to the spectacle spread the story across the globe as the plight of the heroes captured the sympathy of the world. Their valour raised Chinese morale as did the actions of the heroine Yang Huimin, a Girl Guide who delivered a Chinese flag to the defenders that flew over Sihang Warehouse as a beacon of hope. *Eight Hundred Heroes* is an in-depth account resulting from extensive research that, for the first time, comprehensively utilises first-hand accounts of the Chinese participants and the observations of westerners who witnessed the battle at close range. It also explains how this incredible feat of heroism became an enduring myth that helped define modern China.

**Fascism through History** Patrick G. Zander, 2020-10-19. While fascism perhaps reached its peak in the regimes of Hitler and Mussolini, it continues to permeate governments today. This reference work explores the history of fascism and how it has shaped daily life up to the present day. Perhaps the most notable example of Fascism was Hitler's Nazi

Germany Fascists aimed to control the media and other social institutions and Fascist views and agendas informed a wide range of daily life and popular culture But while Fascism flourished around the world in the decades before and after World War II it continues to shape politics and government today This reference explores the history of Fascism around the world and across time with special attention to how Fascism has been more than a political philosophy but has instead played a significant role in the lives of everyday people Volume one begins with a introduction that surveys the history of Fascism around the world and follows with a timeline citing key events related to Fascism Roughly 180 alphabetically arranged reference entries follow These entries discuss such topics as conditions for working people conditions for women Fascist institutions that regulated daily life attitudes toward race physical culture the arts and more Primary source documents give readers first hand accounts of Fascist thought and practice A selected bibliography directs users to additional resources

**Remembering the Road to World War Two** Patrick Finney,2010-09-13 Remembering the Road to World War Two is a broad and comparative international survey of the historiography of the origins of the Second World War It explores how in the case of each of the major combatant countries historical writing on the origins of the Second World War has been inextricably linked with conceptions of national identity and collective memory

**Europe Between the Wars** Martin Kitchen,2014-01-14 Martin Kitchen s compelling account of Europe between the wars sets the twenty year crisis within the context of the profound sense of cultural malaise shared by many philosophers and artists the economic crises that plagued a Europe ruined by war and the social upheavals caused by widespread unemployment and grinding poverty amid a noticeable improvement of living standards This thoroughly revised edition with completely new sections on intellectual cultural and social history is richly illustrated with contemporary photographs It is an up to date and lively account of a critical period of European history when the old world collapsed the dictators offered seemingly exciting alternatives and democracies were put to the supreme test Written for undergraduate students studying 20th century European history this new edition of a classic will challenge and provoke a deeper understanding of the interwar years

**June 1940, Great Britain and the First Attempt to Build a European Union** Andrea Bosco,2016-06-22 June 2016 represents a significant moment in British history The decision to leave the European Union at the most critical period since its existence could bring unpredictable and far reaching consequences both for the United Kingdom and the Union itself June 1940 was also a turning point in British history On the afternoon of 16 June a few hours before the French Government opted for the capitulation Churchill made on behalf of the British Government an offer of indissoluble union When a sceptical Churchill put forward to the British Cabinet the text of the declaration drafted by Jean Monnet Sir Arthur Salter and Robert Vansittart he was surprised at the amount of support it received The Cabinet adopted the document with some minor amendments and de Gaulle who saw it as a means of keeping France in the war telephoned Reynaud with the proposal for an indissoluble union with joint organs of defence foreign financial and economic policies a common citizenship and a single War Cabinet The proposal however never reached

the table of the French Government The spirit of capitulation embodied in Weygand and P tain prevailed and France submitted herself to the German will for the second time in seventy years After the Munich crisis Great Britain had to face the danger of another European war with the inevitable loss of the Empire and it was at this point that the country first began to favour the application of the federalist principle to Anglo French relations In this conversion to federalism a fundamental role was played by the Federal Union the first federalist movement organised on a popular basis The contribution of Federal Union to the development of the federal idea in Great Britain and Europe was to express and organise the beginning of a new political militancy and it represented the first step of a historical process the overcoming of the nation State the modern political formula which institutionalises the political division of mankind This study principally examines the first eighteen months of the Federal Union during which time it was able to raise itself to the attention of the general public and the political class as the heir of the League of Nations Union The research is based on extensive unpublished archival material found across the globe from London Oxford Brighton and Edinburgh to Washington Paris and Geneva

*The Encyclopedia of Diplomacy, 4 Volume Set* Gordon Martel, 2018-04-30 The Encyclopedia of Diplomacy is a complete and authoritative 4 volume compendium of the most important events people and terms associated with diplomacy and international relations from ancient times to the present from a global perspective An invaluable resource for anyone interested in diplomacy its history and the relations between states Includes newer areas of scholarship such as the role of non state organizations including the UN and M decins Sans Fronti res and the exercise of soft power as well as issues of globalization and climate change Provides clear concise information on the most important events people and terms associated with diplomacy and international relations in an A Z format All entries are rigorously peer reviewed to ensure the highest quality of scholarship Provides a platform to introduce unfamiliar terms and concepts to students engaging with the literature of the field for the first time Nazi Germany Catherine A. Epstein, 2015-01-27 Nazi Germany Confronting the Myths provides a concise and compelling introduction to the Third Reich At the same time it challenges and demystifies the many stereotypes surrounding Hitler and Nazi Germany Creates a succinct argument driven overview for students by using common myths and stereotypes to encourage critical engagement with the subject Provides an up to date historical synthesis based on the latest research in the field Argues that in order to fully understand and explain this period of history we need to address its seeming paradoxes for example questioning why most Germans viewed the Third Reich as a legitimate government despite the Nazis criminality Incorporates useful study features including a timeline glossary maps and illustrations Democracy and Economic Openness in an Interconnected System Quan Li, Rafael Reuveny, 2009-07-31 Li and Reuveny use an interdisciplinary social scientific approach to investigate today s key political economic and environmental issues **The Explorer's Roadmap to National-Socialism** Sarah K. Danielsson, 2016-03-16 Whilst terms such as Lebensraum are commonly associated with National Socialist ideology of the 1930s and 40s ideas of racial living space were

in fact generated in the previous decades by an international geographic community of explorers and academics Focusing on one of the most influential figures within this group Sven Hedin this is the first study that systematically connects the geographic community to the intellectual history of the development of National Socialist ideology and genocidal practices The book demonstrates how colonial racial and nationalistic policies were often spearheaded by explorers and geographers such as Hedin In Germany Britain France and Russia their positions as publicly recognized authors and reputable academics made them highly influential with politicians Whilst this influence was to become most visible within Hitler's Germany the debates were not by any means restricted to or even originated in Germany Germany was the home of some of the most prominent geographers but this scientific community had a tradition of international debate and exchange with especially British French and Russian geographic societies and institutions Many issues that were later discussed and championed by National Socialist ideology were aired and debated in this international setting raising important questions about the international character and impact of National Socialism Tracing the intellectual history of the international geographic community and its relationship to National Socialism this study provides an assessment of Hedin's close involvement with the Nazi elite as a culmination of decades of political and scientific work In so doing the book uncovers a long ignored or overlooked important connection between exploration geographers and genocide

Contact Zones in China Merle Schatz, Laura De Giorgi, Peter Ludes, 2020-04-20 The local experiences of foreigners in China in the 19th and early 20th centuries exemplify the often latent or tacit patterns of social encounters individually or in groups with certain cultural boundedness stability and homogeneity This book takes into account virtual mediated imaginative contact zones and looks back at much slower and delimited times and focuses primarily on some selective experiences by Italians and Germans In doing so it accounts for trajectories from individual and small groups with local territorial physical and fully sensual interfaces to fully programmed and highly steered contact zones in the 21st century

From the Great Wall to the New World: Volume 11 Julia C. Strauss, Ariel C. Armony, 2012-05-24 Analysis of China Latin America relations is usually dominated by policy analysis in political economy defense strategy and bilateral relations While integrating these topics this volume differs from earlier works by engaging notions of going out *zou chuqu* and arriving in *desembarco* as metaphors to characterize a wide range of new interactions between China and Latin America transnational flows of capital and people adaptation in industrial production and mining the fluidity of perceptions between China and Latin America stereotypes and othering of Latin America within China and changing rhetorical assumptions of the leadership for the China Latin America relationship Unusually this volume has several articles that consider the role of Latin America within China as well as China's more obvious impact on Latin America With its primary source material from Mexico Peru Colombia Brazil and China this volume offers an early contribution to the emerging body of scholarship on China and Latin America

**German Diplomatic Relations 1871-1945** William Young, 2006-09-04 The continuity issue has been a theme in German

historiography for half a century Historians have examined the foreign policy of Wilhelmine and Nazi Germany that led to two world wars Dr William Young examines the continuity of German Foreign Office influence in the formulation of foreign policy under the leadership of Otto von Bismarck 1862 1890 Kaiser William II 1888 1918 the Weimar Republic 1919 1933 and Adolf Hitler 1933 1945 He stresses the role and influence of strong German leaders in the making of policy and the conduct of foreign relations German Diplomatic Relations 1871 1945 will be of value to individuals interested in the history of Germany Modern Europe and International Relations      *The Holocaust in Eastern Europe* Waitman Wade Beorn, 2025-09-18 This book provides an authoritative history of the Holocaust in Eastern Europe and makes a compelling case for why the region can be considered the epicentre of the final solution Waitman Wade Beorn introduces us to pre war Jewish life in Eastern Europe before tracing the escalating nature of Nazi policies in the area during the Second World War Beorn crucially reflects on the German obsession with the East and its impact on the Nazi genocidal project there The Holocaust in Eastern Europe also examines Soviet occupation and its consequences for the Shoah while offering vital coverage of key themes like ghettoization the Final Solution rescue collaboration resistance and many others The book considers the commonalities and differences of regional Holocaust experiences from the perspectives of perpetrators witnesses collaborators and victims survivors Adeptly incorporating material on challenging subjects like sexual violence the use of slave labour the treatment of Soviet POWs and profiteering this 2nd edition includes two brand new chapters that enhance the scope and usefulness of the text even further one addresses sources methods historiographical debates in the field and the other focuses on non Jewish victims of the Nazi genocidal project such as Soviet prisoners of war the mental and physically handicapped Sinti and Roma and other civilians
