Isabel Gejo-Santos, 2017-11-15 **El violento Far-West y sus armas** Miguel Ángel Navarro Crego, 2023-09-13 Esta obra nos presenta cómo fue la violenta conquista del Oeste El Far West representa la esencia de lo que desde su inicio fue Estados Unidos pues su naturaleza y su carácter amalgama muchas de las peculiaridades identitarias aspiraciones y contradicciones que hay en el origen de esta nación Centrándose en las armas utilizadas y su desarrollo en algunos personajes históricos notables que hicieron uso de ellas en los hechos y en los mitos creados principalmente por la cinematografía el autor nos devela no solo la historia sino también la negra intrahistoria de los Estados Unidos del Far West que ha quedado blanqueada posteriormente a través del *western* *Bulletin of the Philadelphia College of Pharmacy and Alumni Report*, 1908 **Catálogos de la Biblioteca nacional de México** Biblioteca Nacional de México, 1895 **The Political Economy of Latin American Independence** Alexandre Mendes Cunha, Carlos Eduardo Suprinyak, 2016-09-19

Although historians usually trace its origins to the Haitian Revolution of the late 18th Century Latin American political economic and cultural emancipation is still very much a work in progress As new national identities were developed fresh reflection and theorising was needed in order to understand how Latin America related to the wider world Through a series of case studies on different topics and national experiences this volume shows how political economy has occupied an important place in discussions about emancipation and independence that occurred in the region The production of political economic knowledge in the periphery of capitalism can take on many forms importing ideas from abroad translating and adapting them to local realities or else producing concepts and theories specifically designed to make sense of the uniqueness of particular historical experiences The Political Economy of Latin American Independence illustrates each of these strategies exploring issues such as trade policy money and banking socio economic philosophy nationalism and economic development The expert authors stress how the originality of Latin American economic thought often resides in the creative appropriation of ideas originally devised in different contexts and thus usually ill suited to local realities Taken together the chapters illustrate a fertile methodological approach for studying the history of political economy in Latin

America This book is of great interest to economic historians specialising in Latin America as well as those who study history of economic thought political economy and Latin American history Foes to Friends. Spain, the United States and the United Kingdom from the Civil War to the Cold War Emilio Sáenz-Francés, 2025-06-03 Was Franco's Spain really a pariah in the Anglosphere This book examines pro Francoism and the significant influence of a Spanish lobby in shaping US and British policy towards Spain during the Second World War and the years leading up to the Pact of Madrid in 1953 This lobby included not only pressure groups but also legislators and members of the executive as well as the armed forces who shared economic and strategic interests and ideological sympathies in the growing anti Communist atmosphere of the First Cold War The first two chapters provide the historical background to this rapprochement examining monetary and credit policies in the United States and Spain during the 1930s and 40s focusing in particular on the key roles played by American financial and business sectors including Chase National Bank to further the clandestine economic activities of US state companies and agencies in Spain during the Second World War The book then turns to the role of the Spanish lobby in post war US Spanish diplomatic relations looking at American individuals directly courted by the Spanish embassy in Washington as well as pro Francoist congressmen who favored a closer relationship with Spain The next chapter moves from Washington and New York to the West Coast to analyze local Spanish consular efforts to normalize Spain in the eyes of the United States Finally the book turns to British relations with Spain during and after the Second World War and shows how the government's dependency on the US led to Britain becoming the junior partner in the formulation of Western policy towards Franco
