**Nuke** Dave Eberhart,2004-03 Special prosecutor John Stryker uncovers a fiendish terrorist plot when he investigates mutilated radiation burned human bodies      **US Narratives of Nuclear Terrorism Since 9/11** David Seed,2019-04-06 This study examines the US fiction and related films which makes a series of interventions in the cultural debate over the threat of nuclear terrorism It traces the beginnings of this anxiety from the 1970s which increased during the 1990s after the collapse of the Soviet Union The traumatic events of 9 11 became a major reference point for this fiction which expressed the fear that of a second and worse 9 11 The study examines narratives of conspiracies which are detected and forestalled and of others which lead to the worst of all outcomes nuclear detonations sometimes delivered by suitcase nukes In some of these narratives the very fate of the nation hangs in the balance in the face of nuclear apocalypse The discussion considers cases of attacks by electromagnetic pulse EMP cyberterrorism and even bioterrorism Some of the authors examined are present or former politicians members of the CIA and former president Bill Clinton      **The Progressive Parent** Kavin Senapathy,2024-08-06 An evidence based social justice minded exploration of modern parenting from an award winning science journalist and cofounder of SciMoms How can we raise happy well adjusted kids today amid so much injustice and uncertainty This is the question at the heart of the progressive parent s dilemma Fortunately award winning science journalist Kavin Senapathy has the answers In this lively accessible exploration of modern parenting Senapathy guides readers through the complex cultural environmental economic and political issues facing all families today Equipped with practical tips and research driven advice for parents of kids from infancy to early teens she helps readers build a more fulfilling relationship with their children and themselves by addressing pressing questions such as Is formula feeding okay What is natural parenting How much screen time is too much screen time How do I help my children navigate questions around race and gender identity Informed by her experiences as a nonbinary parent of color and filled with a science journalist s hard won wisdom The Progressive Parent is an essential read for any parent or parent to be who believes that the values of science truth equity and justice should be applied not only individually but collectively      **Global Cases in Best and Worst Practice in Crisis and Emergency Management** Ali Farazmand,2016-04-19 Global Cases in Best and Worst Practice in Crisis and Emergency Management is the first book to focus on select global cases from the perspective of best and worst practices in the context of crisis and emergency management Bringing together the most established scholars and experts in the field it offers theories along with an empirical success      *North Korea's Second Nuclear Crisis and Northeast Asian Security* Tae-Hwan Kwak,2016-05-23 North Korea s testing of a nuclear bomb sent out a shock wave throughout the world and totally changed the strategic equation in the Korean peninsula and Northeast Asia This testing has far reaching implications for Korean peace and unification Northeast Asian security and America s global war on terrorism This key volume provides an in depth analysis of the inter Korean and international dynamics of North Korea s nuclear crisis It offers

new insights into the six party talks designed to resolve the crisis suggests creative formulas to resolve the ongoing crisis through peaceful diplomatic means and delves into the interests and policies of the major powers the US China Japan and Russia at the six party negotiating table The contributing authors are distinguished specialists and experts in the field and as such offer valuable expertise into the dynamics of this nuclear crisis for students and academics

### **Eve of Destruction**

John Hughes-Wilson,2021-04-22 It is certainly a good thing for the world that Hitler s crowd or Stalin s did not discover this atomic bomb It seems to be the most terrible thing ever discovered US President Harry S Truman Truman evidently understood the terrifying power of atomic weaponry but no one could have realised its full potential when he ordered the bombings of Hiroshima and Nagasaki in August 1945 Those military attacks along with the disasters at the Fukushima and Chernobyl nuclear reactors might immediately spring to mind at the mention of nuclear destruction but the vast majority of the events recorded in this book are entirely unknown to most people This book records the facts many of them still shrouded in secrecy which show a worrying truth we have teetered precariously on the brink of Armageddon far more frequently than the general public realises Since that first and last atomic war in 1945 there have been a terrifying number of nuclear accidents and mishaps from the careless or accidental to the genuinely intentional and only narrowly averted Despite the catastrophic nature of any nuclear conflict we have come to the very borders of such a situation ten times since the 1960s Most people know about the Cuba Missile Crisis and a few about Operation Able Archer in 1984 which if anything was even more frightening than Cuba but there have been eight other occasions that might easily have toppled over into outright war These were potential conflicts but there have been other accidents such as the reactor meltdown at the nuclear generating plant at Three Mile Island Pennsylvania in 1979 or the Palomares Incident in 1966 when a USAF B 52 bomber crashed after a mid air collision dropping four hydrogen bombs on Spanish soil Eve of Destruction is a warning from history recent history It is a call to sit up and listen and to take note of the very real danger of nuclear catastrophe It is a timely and important book because after all the future of our planet has to concern us all

### **From Stones to Nukes** Adolf Kellenberger,2024-01-15

This volume offers a sophisticated exploration of the history of weapons and warfare in Europe and the Atlantic world aimed at stimulating and inspiring those with an interest in this domain It invites readers to revisit the foundational principles that underpinned the development of contemporary armaments and military practices until shortly before the turn of the millennium In an era where global challenges have become inescapable this book emphasizes the importance of reconnecting with our shared origins and understanding our unique paths As our world undergoes rapid changes in politics society economics and technology this exploration of history sheds light on the dynamics of change both in times of peace and war

*Nuclear Romance* Abby Luby,2011-10-14 Nuclear Romance a debut novel by New York journalist Abby Luby was written after the devastating accident at Japan s Fukushima nuclear power plants in March 2011 In the novel the tragic and mysterious death of a 7 year old girl after swimming at a beach across from a nuclear power plant sets off a chain of events

involving a sports journalist an anti nuclear activist a grieving mother and her son A young woman reporter falls prey to a callous plant executive who is driven to keep the multi billion dollar nuclear company viable A clandestine love affair develops against the backdrop of growing anti nuclear sentiment which escalates after highly radioactive steam escapes from the plant forcing a mass evacuation

**America's War Machine** James McCartney, Molly Sinclair McCartney, 2015-10-27 A veteran Washington reporter reveals how years of military slanted domestic and foreign policy have turned the U S into a perpetual war machine When President Dwight D Eisenhower prepared to leave the White House in 1961 he did so with an ominous message for the American people about the disastrous rise of the military industrial complex Fifty years later the complex has morphed into a virtually unstoppable war machine one that dictates U S economic and foreign policy in a direct and substantial way Based on his experiences as an award winning Washington based reporter covering national security James McCartney presents a compelling history from the Cold War to present day that shows that the problem is far worse and far more wide reaching than anything Eisenhower could have imagined Big Military has become too big to fail and has grown to envelope the nation s political cultural and intellectual institutions These centers of power and influence including the now complicit White House and Congress have a vested interest in preparing and waging unnecessary wars The authors persuasively argue that not one foreign intervention in the past 50 years has made us or the world safer With additions by Molly Sinclair McCartney a fellow journalist with 30 years of experience America s War Machine provides the context for today s national security state and explains what can be done about it

*Empty Quiver* M John, 2017-05-03 The most immediate and extreme threat to global security is a nuclear weapon falling into the hands of terrorists who have the will to use it The plot was hatched in a tiny village in the tribal area of Pakistan It starts with the kidnapping of a young woman Next is a wave of deadly bomb blasts in the Indian capital city Delhi The resulting situation permits terrorists to grab a few nuclear weapons The targets India Israel and USA are blissfully unaware of the threat A covert Indian Intelligence agency gets an inkling of the deadly plan and its small team of operatives start the initial countermoves with active involvement of the Intelligence agencies of Israel and the USA each agency is working to protect its own interests The race against time has started

*Generic EIS for Nuclear Power Plant Operating Licenses Renewal* ,1996 Atoms, Bytes and Genes Martin W. Bauer, 2015-02-11 Atom byte and gene are metonymies for techno scientific developments of the 20th century nuclear power computing and genetic engineering Resistance continues to challenge these developments in public opinion This book traces historical debates over atoms bytes and genes which raised controversy with consequences and argues that public opinion is a factor of the development of modern techno science The level and scope of public controversy is an index of resistance examined here with a pain analogy which shows that just as pain impacts movement resistance impacts techno scientific mobilization it signals that something is wrong and this requires attention elaboration and a response to the challenge This analysis shows how different fields of enquiry deal with the resistance of social psychological mentalities in the face of

industrial scientific and political activities inspired by projected futures      **Ballistic Missiles** United States. Congress. Senate. Committee on Foreign Relations,2000      Will Terrorists Go Nuclear? Brian Michael Jenkins,2009-12-02 For more than 30 years Jenkins has been advising the military government and prestigious think tanks on the dangers of nuclear proliferation Now he goes beyond what the experts know to examine how terrorists themselves think about such weapons

**The China-India Nuclear Crossroads** Lora Saalman,2012-08-10 Global power is shifting to Asia The U S military is embarking on an American pivot to the Indo Pacific region and the bulk of global arms spending is directed toward Asian theaters India and Pakistan are thought to be building up their nuclear arsenals while questions persist about China s potential to sprint to parity China remains by far the world s largest market for new nuclear energy production and India aspires to be on a similar trajectory Despite these trends **The China India Nuclear Crossroads** is the first serious book by leading Chinese and Indian experts to examine the political military and technical factors that affect Sino Indian nuclear relations In this book editor and translator Lora Saalman presents a comprehensive framework through which China and India can pursue enhanced cooperation and minimize the unintended consequences of their security dilemmas      The United States, Russia and Nuclear Peace Stephen J. Cimbala,2020-02-03 This book analyzes the United States and Russia s nuclear arms control and deterrence relationships and how these countries must lead current and prospective efforts to support future nuclear arms control and nonproliferation The second nuclear age following the end of the Cold War and the demise of the Soviet Union poses new challenges with respect to nuclear strategic stability deterrence and nonproliferation The spread of nuclear weapons in Asia and the potential for new nuclear weapons states in the Middle East create new possible axes of conflict potentially stressful to the existing world order Other uncertainties include the interest of major powers in developing a wider spectrum of nuclear weapons and delivery systems possibly for use in limited nuclear wars and the competitive technologies for antimissile defenses being developed and deployed by the United States and Russia Other technology challenges including the implications of cyberwar for nuclear deterrence and crisis management are also considered Political changes also matter The early post Cold War hopes for the emergence of a global pacific security community excluding the possibility of major war have been dashed by political conflict between Russia and NATO by the roiled nature of American domestic politics with respect to international security and by a more assertive and militarily competent China Additionally the study includes suggestions for both analysis and policy in order to prevent the renewed U S Russian nuclear arms race and competition in new technologies This volume would be ideal for graduate students researchers scholars and anyone who is interested in nuclear policy international studies and Russian politics      Routledge Handbook of Nuclear Proliferation and Policy Joseph Pilat,Nathan Busch,2015-05-15 This new Handbook is a comprehensive examination of the rich and complex issues of nuclear proliferation in the early 21st century The future of the decades long effort to prevent the further spread of weapons of mass destruction is at a crossroads today If international nonproliferation

efforts are to be successful an integrated multi tiered response will almost certainly be necessary A serious thorough and clear eyed examination of the range of threats challenges and opportunities facing the international community is a necessary first step This Handbook which presents the most up to date analysis and policy recommendations on these critical issues by recognized leading scholars in the field intends to provide such an examination The volume is divided into three major parts Part I presents detailed threat assessments of proliferation risks across the globe including specific regions and countries Part II explains the various tools developed by the international community to address these proliferation threats Part III addresses the proliferation risks and political challenges arising from nuclear energy production including potential proliferation by aspiring states and nonstate groups This Handbook will be of great interest to students and practitioners of nuclear proliferation arms control global governance diplomacy and global security and IR general

North Korea in Quotation ,2005-06-30 Since the end of World War II the small country of North Korea has occupied a disproportionate amount of the world s diplomatic and military attention Its defiance of the international community has mystified and frustrated generations of leaders both in Asia and throughout the world With its closed borders and xenophobic leadership little is known about North Korea s government or its intentions leaving us to examine the words of the country s leaders and international statesmen analysts and journalists for a balanced critical assessment of North Korea and its relationship to the world The 20 categories covered here provide an overview of the breadth of issues facing the Northeast Asian country For each quote the speaker and his or her title are identified along with the original source of the quotation and its context Indexed by speaker subject and keywords

**Terrorism and Counterterrorism** Brigitte L. Nacos,2023-05-16 Focusing on the continued terrorist threat by jihadist groups such as Al Qaeda and ISIS and homegrown violent far right and far left extremists in the West Terrorism and Counterterrorism investigates this form of political violence in a historical and contemporary context In this comprehensive and highly readable text renowned expert Brigitte Nacos clearly defines terrorism s diverse causes actors and strategies outlines anti and counterterrorist responses and highlights terrorism s relationship with the public and media Terrorism and Counterterrorism introduces students to the field s main debates and helps them critically assess our understanding of and our strategies for addressing this complex and enduring issue New to the Seventh Edition The new chapter 3 reviews the history of terrorism both domestic and international whereas the new chapter 4 analyses the terrorist landscape in the third decade of the 21st century including the transnational links between violent far right and far left violent extremists The discussion of religious terrorism in chapter 5 ends with an added section about QAnon as religiopolitical cult An extended section in chapter 7 is devoted to the increasingly militant roles of females in violent far right extremism The revised chapter 10 starts with the withdrawal of U S led troops from Afghanistan and an account of total costs spent on the post 9 11 war against terrorism before discussing the counterterrorism strategies of presidents G W Bush Obama Trump and Biden The failures and successes of the U S intelligence community in efforts to

prevent terrorism at home with relevant data and case studies are new features in chapter 12      Smart Power Ted Galen Carpenter, 2008 Trying to thwart the drive to war against Iraq Assessing the Iraq debacle America's other war Afghanistan The War on Terror Attempting to head off war against Iran Prospects for peace and democracy in the Middle East New approaches for the troubled Korean peninsula The dangerous Taiwan issue A delicate relationship with China NATO the Balkans and relations with Russia The disastrous war on drugs The connection between foreign policy and domestic liberty
