**Numismatic Bibliography and Libraries** Francis D. Campbell,1984      *Numismatics and Greek Lexicography* Michael P. Theophilos,2019-11-28 Michael P Theophilos explores the fascinating variety of numismatic contributions to Greek lexicography pertaining to lexicographic studies of the Second Temple period in general and the New Testament in particular Theophilos considers previous scholarly attempts to grapple with and incorporate critical numismatic material into the emerging discipline of Greek lexicography including foundational work by F Preisigke and E Kiessling before outlining his own methodological approach Theophilos then examines the resources available for engaging with the numismatic material and presents a series of specific case studies throughout the New Testament material His carefully annotated images of coins draw readers in to a greater understanding of the material culture of the Greco Roman world and how this impacted upon the Greek language and the New Testament      A Bibliography of Applied Numismatics in the Fields of Greek and Roman Archaeology and the Fine Arts Cornelius Clarkson Vermeule,1956      *The Numismatic Circular and Catalogue of Coins, Tokens, Commemorative & War Medals, Books & Cabinets* Spink & Son,1906      **A Bibliography of Greek Coin Hoards** Sydney Philip Noe,1925      *Numismatic Circular List of Coins, Medals, War Medals, Books, Etc. Offered for Sale* Spink & Son,1909      William Hunter's World Nick Pearce,2017-07-05 Despite William Hunter s stature as one of the most important collectors and men of science of the eighteenth century and the fact that his collection is the foundation of Scotland s oldest public museum The Hunterian until now there has been no comprehensive examination in a single volume of all his collections in their diversity This volume restores Hunter to a rightful position of prominence among the medical men whose

research and amassing of specimens transformed our understanding of the natural world and man's position within it. This volume comprises essays by international specialists and are as diverse as Hunter's collections themselves, dealing as they do with material that ranges from medical and scientific specimens to painting prints, books and manuscripts. The first sections focus upon Hunter's own collection and his response to it, while the final section contextualises Hunter within the wider sphere. A special feature of the volume is the inclusion of references to the Hunterian's web pages and on-line databases. These enable searches for items from Hunter's collections both from his museum and library. Locating Hunter's collecting within the broader context of his age and environment, this book provides an original approach to a man and collection whose importance has yet to be comprehensively assessed.
