Oakman, 2021-01-25 The Radical Jesus offers a companion to the author's previous article collection Jesus and the Peasants Even more than in Jesus and the Peasants these eleven chapters sharpen the focus on the political economic meaning of Jesus then and the deeper values embodied in him that perhaps are still pertinent for now Part One considers his activities and aims within the political economy of first century Galilee Part Two offers perspectives on the critical hermeneutical task of linking the values of Jesus and the Bible to a world that has undergone what Karl Polanyi called the Great Transformation Polanyi argued persuasively in his 1944 book that economy in the pre industrial age was embedded in social relations and served necessary social purposes while society after the Great Transformation became embedded within market capitalist economy to the detriment of social relations This book finds in sustained critical dialog with the Radical Jesus another transforming force and a guiding light toward a more humane economy and society that will serve human need rather than selfish greed **The Archaeology of Early Medieval and Medieval South Asia** Swadhin Sen, Supriya Varma, Bhairabi Prasad Sahu, 2022-11-30 This book looks at the ways in which archaeological methods have been used in debates concerning the early medieval and medieval periods in South Asia Despite the incorporation and use of archaeological data to corroborate historical narratives the theories and methods of archaeology are largely ignored in and excluded from the dominating institutionalized and hegemonic disciplinary discourses The volume offers contesting insights polemical narratives and new data from archaeological contexts to initiate a debate on many foundational premises of archaeological and historical narratives It focuses on the much neglected region of the Eastern Ganga Brahmaputra Basin as a spatial frame to do this and studies themes such as spatial and temporal scales of concepts and methods multi scalar factors and processes of continuity and changes the settlement archaeology of the alluvial landscape changing patterns of agrarian transformation and material cultures including coins inscriptions pottery and sculptures in their contexts in sub regional regional and supra regional intersections Dedicated to historian Brajadulal Chattopadhyaya this volume presents a crucial and unprecedented intervention in the study of the early medieval and the medieval periods It will be useful for scholars and researchers of archaeology ancient history medieval history water history earth sciences palaeoecology historical ecology epigraphy art history material culture studies Indian history and South Asian studies in general **The People beside Paul** Joseph A.
