

Nurses In Nazi Germany

Mary T. Sarnecky

Nurses In Nazi Germany:

Nurses and Midwives in Nazi Germany Susan Benedict, Linda Shields, 2014-04-24 This book is about the ethics of nursing and midwifery and how these were abrogated during the Nazi era Nurses and midwives actively killed their patients many of whom were disabled children and infants and patients with mental and other illnesses or intellectual disabilities The book gives the facts as well as theoretical perspectives as a lens through which these crimes can be viewed It also provides a way to teach this history to nursing and midwifery students and for the first time explains the role of one of the world's most historically prominent midwifery leaders in the Nazi crimes Nurses in Nazi Germany Bronwyn Rebekah

McFarland-Icke, 2020-11-10 This book tells the story of German nurses who directly or indirectly participated in the Nazis euthanasia measures against patients with mental and physical disabilities measures that claimed well over 100 000 victims from 1939 to 1945 How could men and women who were trained to care for their patients come to kill or assist in murder or mistreatment This is the central question pursued by Bronwyn McFarland Icke as she details the lives of nurses from the beginning of the Weimar Republic through the years of National Socialist rule Rather than examine what the Party did or did not order she looks into the hearts and minds of people whose complicity in murder is not easily explained with reference to ideological enthusiasm Her book is a micro history in which many of the most important ethical social and cultural issues at the core of Nazi genocide can be addressed from a fresh perspective McFarland Icke offers gripping descriptions of the conditions and practices associated with psychiatric nursing during these years by mining such sources as nursing guides personnel records and postwar trial testimony Nurses were expected to be conscientious and friendly caretakers despite job stress low morale and Nazi propaganda about patients having lives unworthy of living While some managed to cope with this situation others became abusive Asylum administrators meanwhile encouraged nurses to perform with as little disruption and personal commentary as possible So how did nurses react when ordered to participate in or tolerate the murder of their patients Records suggest that some had no conflicts of conscience others did as they were told with regret and a few refused The remarkable accounts of these nurses enable the author to re create the drama taking place while sharpening her argument concerning the ability and the willingness to choose Nurses and Midwives in Nazi Germany Susan

Benedict, Linda Shields, 2014-04-24 This book is about the ethics of nursing and midwifery and how these were abrogated during the Nazi era Nurses and midwives actively killed their patients many of whom were disabled children and infants and patients with mental and other illnesses or intellectual disabilities The book gives the facts as well as theoretical perspectives as a lens through which these crimes can be viewed It also provides a way to teach this history to nursing and midwifery students and for the first time explains the role of one of the world's most historically prominent midwifery leaders in the Nazi crimes *A History of the U.S. Army Nurse Corps* Mary T. Sarnecky, 1999-11 Traces the history of the corps since its founding in 1901 A work essential to any study of the corps or military medicine Choice **German Women's Life Writing**

and the Holocaust Elisabeth Krimmer,2018-09-20 This important study examines women's life writing about the Second World War and the Holocaust such as memoirs diaries docunovels and autobiographically inspired fiction Through a historical and literary study of the complex relationship between gender genocide and female agency the analyzes correct androcentric views of the Second World War and seek to further our understanding of a group that although crucial to the functioning of the National Socialist regime has often been overlooked that of the complicit bystander Chapters on army auxiliaries nurses female refugees rape victims and Holocaust survivors analyze women's motivations for enlisting in the National Socialist cause as well as for their continuing support for the regime and in some cases their growing estrangement from it The readings allow insights into the nature of complicity itself the emergence of violence in civil society and the possibility of social justice

Women as Wartime Rapists Laura Sjoberg,2016-11-22 Women as Wartime Rapists reveals the stories of female perpetrators of sexual violence and their place in wartime conflict legal policy and the punishment of sexual violence Very few women are wartime rapists Very few women issue commands to commit sexual violence Very few women play a role in making war plans that feature the intentional sexual violation of other women This book is about those very few women More broadly Laura Sjoberg asks what do the actions and perceptions of female perpetrators of sexual violence reveal about our broader conceptions of war violence sexual assault and gender This book explores specific historical case studies such as Nazi Germany Serbia the contemporary case of ISIS and others to understand how and why women participate in rape during war and conflict Sjoberg examines the contrast between the visibility of female victims and the invisibility of female perpetrators as well as the distinction between rape and genocidal rape which is used as a weapon against a particular ethnic or national group Further she explores women's engagement with genocidal rape and how some orchestrated the ethnic cleansing of entire regions A provocative approach to a sensationalized topic Women as Wartime Rapists offers important insights into not only the topic of female perpetrators of wartime sexual violence but to larger notions of gender and violence with crucial cultural legal and political implications

Experience and Expression Elizabeth Roberts Baer,Myrna Goldenberg,2003 Publisher's description The many powerful accounts of the Holocaust have given rise to women's voices and yet few researchers have analyzed these perspectives to learn what the horrifying events meant for women in particular and how they related to them In Experience and Expression the authors take on this challenge providing the first book length gendered analysis of women and the Holocaust a topic that is emerging as a new field of inquiry in its own right The collection explores an array of fascinating topics rescue and resistance the treatment of Roma and Sinti women the fate of female forced laborers Holocaust politics nurses at so called euthanasia centers women's experiences of food and hunger in the camps the uses and abuses of Anne Frank and the representations of the Holocaust in art film and literature in the postwar era

Nursing History Review, Volume 10, 2002 Diane Hamilton,Joan E. Lynaugh, RN, PhD, FAAN,2001-10-30 Long neglected the history of nursing has recently become the focus of a considerable amount of

attention Over the past decade developments in the history of medicine the history of women particularly of women s work and nursing itself have resulted in a new recognition of the importance of the subject Nursing History Review enables those interested in nursing and health care history to trace new and developing work in the field The Review publishes significant scholarly work in all aspects of nursing history as well as reviews of recent books and updates on national and international activities in health care history Under the distinguished editorship of Joan Lynaugh with the Editorial Review Board including such noted nurses as Ellen Baer Susan Baird Olga Maranjian Church Donna Diers Marilyn Flood Beatrice Kalisch The Review provides historical articles historiographic essays discourse on the work of history and multiple book reviews in each annual issue

The Nazi Doctors and the Nuremberg Code : Human Rights in Human Experimentation George J. Annas Edward R. Utley Professor of Health Law, Medicine Michael A. Grodin Associate Professor of Philosophy and Associate Director of Law, and Ethics Program both of the Boston University Schools of Medicine and Public Health, 1992-05-07 The atrocities committed by Nazi physicians and researchers during World War II prompted the development of the Nuremberg Code to define the ethics of modern medical experimentation utilizing human subjects Since its enunciation the Code has been viewed as one of the cornerstones of modern bioethical thought The sources and ramifications of this important document are thoroughly discussed in this book by a distinguished roster of contemporary professionals from the fields of history philosophy medicine and law Contributors also include the chief prosecutor of the Nuremberg Military Tribunal and a moving account by a survivor of the Mengele Twin Experiments The book sheds light on keenly debated issues of both science and jurisprudence including the ethics of human experimentation the doctrine of informed consent and the Code s impact on today s international human rights agenda The historical setting of the Code s creation some modern parallels and the current attitude of German physicians toward the crimes of the Nazi era are discussed in early chapters The book progresses to a powerful account of the Doctors Trial at Nuremberg its resulting verdict and the Code s development The Code s contemporary influence on both American and international law is examined in its historical context and discussed in terms of its universality are the foundational ethics of the Code as valid today as when it was originally penned The editors conclude with a chapter on foreseeable future developments and a proposal for an international covenant on human experimentation enforced by an international court A major work in medical law and ethics this volume provides stimulating provocative reading for physicians legal professionals bioethicists historians biomedical researchers and concerned laypersons

Nursing History for Contemporary Role Development Sandra B. Lewenson, Annemarie McAllister, Kylie Smith, 2016-11-15 Underscores the importance of viewing current nursing issues in the context of history Nursing practice has progressed beyond Florence Nightingale and so has nursing history This book delves into the intricacies of nursing history and its impact on contemporary nursing practice education and research Nurses have always been political advocates for underprivileged and vulnerable populations during times of war changing cultural landscapes and social unrest Today is

no different With historically significant case studies that ground the narrative this book weaves the complex story of how the role of nurses has changed over time to adapt to new environments and needs all the while retaining the key leadership and advocacy roles that have been inherent since the birth of the profession Chapters examine key issues in contemporary nursing today such as the care of diverse populations rural health care mental health care neonatal health care the nurse educator role entry into practice issues and more and contextualize their evolution showing what remains tried and true what has been disproven and what remains to be examined The text illustrates how nursing history fits into the broader context of culture and society from the late 19th century to the present Each chapter features critical thinking questions and extensive resources for all levels of nursing education An accompanying instructor s manual features guidelines for bringing historical elements into nursing curricula Key Features Embeds historical material into contemporary nursing practice education and research issues Demonstrates how contemporary nursing roles and issues evolved throughout history Includes numerous case studies from expert nursing historians Addresses the intersection of gender race and ethnicity as they impact health care today

Russian and Soviet Health Care from an International Perspective Susan Grant,2017-02-20 This collection compares Russian and Soviet medical workers physicians psychiatrists and nurses and examines them within an international framework that challenges traditional Western conceptions of professionalism and professionalization through exploring how these ideas developed amongst medical workers in Russia and the Soviet Union Ideology and everyday life are examined through analyses of medical practice while gender is assessed through the experience of women medical professionals and patients Cross national and entangled history is explored through the prism of health care with medical professionals crossing borders for a number of reasons to promote the principles and advancements of science and medicine internationally to serve altruistic purposes and support international health care initiatives and to escape persecution Chapters in this volume highlight the diversity of experiences of health care but also draw attention to the shared concerns and issues that make science and medicine the subject of international discussion

The Good Samaritan Nurse in a Secular Age Teresa Lynch,2023-08-24 Christian and other nurses in the hostile modern and increasingly secular age may feel helpless in an environment that created the Liverpool Care Pathway LCP and continues to foster end of life care through sedation and dehydration The book aims to enlighten both health professionals and the public alike to their rights of conscience and knowledge of the needs of vulnerable patients whether related to ethical care or guidance and the law which can affect them Indifference to patients needs and suffering may be injurious to nurses health all of whom have a conscience This must be respected protected and used as a guide to truly care for the patient s benefit regardless of laws and professional pathways which may prove harmful to many vulnerable patients The questioning nurse on ethical issues and dilemmas needs consideration respect and support when attempting to act as the patient advocate Managers at all levels need to be aware of the concerns of front line nurses and to be mindful that recruitment and retention are both equally

important factors for the quality of patient care and nurse morale and work satisfaction The NHS was a wonderful creation which is only as good as its staff at all levels Its managers and government ministers must remember that the more authority invested in them the more the accountability and transparency expected by both health professionals their patients and the public Nursing History Review, Volume 14, 2006 Patricia D'Antonio, RN, PhD, FAAN, 2005-11-21 Nursing History Review an annual peer reviewed publication of the American Association for the History of Nursing is a showcase for the most significant current research on nursing history Regular sections include scholarly articles over a dozen book reviews of the best publications on nursing and health care history that have appeared in the past year and a section abstracting new doctoral dissertations on nursing history Historians researchers and individuals fascinated with the rich field of nursing will find this an important resource Caring and Killing Thomas Foth, 2013 Under the Nazi regime in Germany a calculated killing of chronic mentally ill patients took place Nurses executed this program in their everyday practice However suspicions have been raised that psychiatric patients were also assassinated before and after the Nazi regime suggesting that the motives for these killings must be investigated within psychiatric practice itself This book highlights the mechanisms and scientific discourses in place that allowed nurses to perceive patients as unworthy of life This study analyzes patient records as inscriptions that actively intervene in interactions in institutions and that create a specific reality on their own accord The question is not whether the reality represented within the documents is true but rather how documents worked in institutions and what their effects were It is shown how nurses were actively involved in the construction of patients identities and how these documentary identities led to the death of thousands of humans **Mothers, Midwives, and Reproductive Labor in Interwar and Wartime Britain**, Sandra Trudgen Dawson, 2024-01-26 Mothers Midwives and Reproductive Labor in Interwar and Wartime Britain is about the experiences of mothers and midwives as they navigated the changing political and social issues surrounding childbirth and motherhood during interwar and wartime Britain The needs and agency of women as mothers and midwives often conflicted with the ideals of the state While government officials understood the importance of safe childbirth to the nation they also chose to allow economic crises and war preparation to take precedence The interwar plans for a national maternal healthcare system met financial constraints and a lack of political will As the outbreak of the Second World War appeared imminent politicians planned for pregnant women and those with small children to evacuate from cities The reception areas were less well planned and pregnant women returned to their homes rather than deliver among strangers Wartime maternity provision didn't take into account the needs and desires of mothers and midwives Reproductive laborers mothers and midwives demonstrated agency throughout the period Pregnant women chose to deliver at home with untrained or trained birth attendants midwives entered and left the profession on their own terms offering or withholding their skills when it suited individual need rather than at the behest of government **Nurse Memoirs from the Great War in Britain, France, and Germany** Jerry Palmer, 2021-10-19 Nurse Memoirs from the Great War in Britain

France and Germany examines an understudied corpus of memoirs in English French and German stemming from the unprecedented involvement of women in the war effort Jerry Palmer considers the memoirs in relationship to public opinion collective memory and other women's writing about the war Through close readings of the memoirs and their contexts the book identifies themes present in the texts and considers the nurse memoir as rhetoric examining to what extent the texts are promoting or countering arguments in the public sphere about their involvement or more widely about women's position in society Palmer explores the multiple contexts related to the nurse memoirs including public response to volunteer wartime nursing the organisation of the military health services of the three nations and their conduct in the war and changes in the post war organization of public health services and the professionalization of nursing

Nursing Research Using Historical Methods Mary De Chesnay, 2014-12-10 This is a concise step by step guide to conducting qualitative nursing research using various forms of historical analysis It is part of a unique series of books devoted to seven different qualitative designs and methods in nursing written for both novice researchers and specialists seeking to develop or expand their competency Historical research is a qualitative research method that systematically examines past events from existing documents or other data or by interviewing individuals who lived through those events in order to understand the past Written by a noted qualitative research scholar and contributing experts the book describes the philosophical basis for conducting research using historical analysis and delivers an in depth plan for applying its methodologies to a particular study including appropriate methods ethical considerations and potential challenges It presents practical strategies for solving problems related to the conduct of research using the various forms of analysis and presents a rich array of case examples from published nursing research These include author analyses to support readers in decision making regarding their own projects The book provides a variety of examples of historical method studies on topics such as mental health research working with Navajo communities World War II evacuation nursing and many others Focused on the needs of both novice researchers and specialists it will be of value to health institution research divisions in service educators and students and graduate nursing educators and students

Key Features Explains how to conduct nursing research using autobiography biography oral history and document review Presents state of the art designs and protocols Focuses on solving practical problems related to the conduct of research Features rich nursing exemplars in a variety of health mental health clinical settings in the United States and internationally

The Nurse in Popular Media Marcus K. Harmes, Barbara Harmes, Meredith A. Harmes, 2021-10-28 The image of the nurse is ubiquitous both in life and in popular media One of the earliest instances of nursing and media intersecting is the Edison phonographic recording of Florence Nightingale's voice in 1890 Since then a parade of nurses good bad or otherwise has appeared on both cinema and television screens How do we interpret the many different types of nurses real and fictional lifelike and distorted sexual and forbidding who are so visible in the public consciousness This book is a comprehensive collection of unique insights from scholars across the Western

world Essays explore a diversity of nursing types that traverse popular characterizations of nurses from various time periods The shifting roles of nurses are explored across media including picture postcards film television journalism and the collection and preservation of uniforms and memorabilia The Catholic Church And Nazi Germany Guenter

Lewy,2009-09-09 The subject matter of this book is controversial Guenter Lewy states plainly in his preface To show the German Catholic Church s congeniality with some of the goals of National Socialism and its gradual entrapment in Nazi policies and programs Lewy describes the episcopate s support of Hitler s expansionist policies and its failures to speak out on the persecution of the Jews To this tragic history Lewy brings new focus and research illuminating one of the darkest corners of our century with scholarship and intellectual honesty in a riveting and often painful narrative **The Effect of Bombing on Health and Medical Care in Germany** United States Strategic Bombing Survey,1947 An attempt to determine the effect of bombing upon the willingness and capacity of German civilians to give full support to the war effort
