The Making of Theatrical

Reputations Yael Zarhy-Levo, 2008-04-21 Today's successful plays and playwrights achieve their prominence not simply because of their intrinsic merit but because of the work of mediators who influence the whole trajectory of a playwright's or a theatre company's career. Critics and academic writers are primarily considered the makers of reputations but funding organizations and various media agents as well as artistic directors, producers, and directors also pursue separate agendas in shaping the reputations of theatrical works. In *The Making of Theatrical Reputations*, Yael Zarhy-Levo demonstrates the processes through which these mediatory practices by key authority figures situate theatrical companies and playwrights within cultural and historical memory. To reveal how these authorizing powers that promote theatrical events, companies, and playwrights, Zarhy-Levo presents four detailed case studies that reflect various angles of the modern London theatre. In the case of the English Stage Company's production of John Osborne's *Look Back in Anger*, she centers on a specific event. She then focuses on the trajectory of a single company, the Theatre Workshop, particularly through its first decade at the Theatre Royal Stratford East, London. Next, she explores the career of the dramatist John Arden, especially its first ten years, in part drawing upon an interview with Arden and his wife, actress and playwright Margaretta D'Arcy. Before turning to her fourth study, the playwright Harold Pinter's shifting reputation throughout the different phases of his career, Zarhy-Levo's accounts of these theatrical events, companies, and playwrights through the prism of mediation bring fresh insights to these landmark productions and their creators.

Pinter's Odd Man Out Sidney Homan, 1993 Pinter's *Odd Man Out* records Sidney Homan's experience directing the playwright's *Old Times* for both stage and television. His most commercially successful play and surely one of his best, no other work of Pinter's has generated more critical and scholarly commentary or more varied, sometimes conflicting readings. In the two opening chapters, Homan surveys the theatrical and critical history of the play before describing the generic world of Pinter that provides the context of *Old Times*: secluded rooms, their occupants, and the visitor who, in seeking entrance, challenges the room's exclusive yet deceptive serenity, the outside, and the threat it poses. The subtext pressing on the dialogue, the power of the past, and perception, the presence of the play itself, characters who function as artists, the issue of gender, mother and father figures, and the silence of Pinter's pauses. Homan then describes his company's preparations for the performance, ranging from the director's concept, the set, props, costumes, lighting, and music to blocking and the rehearsal period. After his own account of the stage production and the ways in which the audience taught the performers through their reactions to and discoveries about the play, Homan turns to his actors, Stephanie Dugan, Thomas Pender, and Sandra Langsner, who in their own words describe how they wrestled with the characters of Kate Deeley and Anna from rehearsals to performance. A chapter on *The Camera as Guest* records the experience of filming the stage play. Here, the focus is on the technological and aesthetic differences between the media of television and the stage and what effect such differences had on the filmed version of *Old Times*. To what degree does the camera allow the director to assert more control? What changes in blocking, set, and lighting were required? In an appendix

Homan looks at Carol Reed's 1950s film *Odd Man Out* which figures prominently in *Old Times* and which may have been a source in a highly flexible use of that term for the play. On the surface Pinter's *Odd Man Out* concentrates on a single play. In reality it is about the ways in which people in the theatre approach a production, the process they go through from rehearsals to opening night and the complex interaction among playwright, director, actors and audience. It also raises the issue of what happens when a work intended for the stage is translated to another medium such as television. If the book at times suggests that the worlds of the scholar and the theatre professional are different, indeed incompatible in some ways, it also shows how the two professions can learn from each other.

The Pinter Review, 2008 [Stages of Struggle](#) John Louis DiGaetani, 2015-01-27 One way or another all playwrights use their work to explore the issues that interest them. The characters in a play may trumpet their creator's political views from the stage or an unusual structure or set design may result from the playwright's interest in theatrical form. It is also common, particularly in the plays of the 20th and 21st century, to see a playwright delving into psychological issues raised by his own mental struggles or those of people he loves. Luigi Pirandello, tormented by the schizophrenia of his wife and other family members, repeatedly explored the problems caused by different visions of reality. Noel Coward's self-obsessed characters reflect his own narcissism. Alcoholism is a recurrent theme in the works of many playwrights, including Eugene O'Neill, Edward Albee and Brian Friel. Through their exploration of these issues and more, the great writers of the theater have turned suffering into art. This book looks at the work of 20 playwrights to see how their examination of the disturbed mind has influenced the modern theater.
