**The Irish regiments in the Great War** Timothy Bowman, 2013-07-19 The British army was almost unique among the European armies of the Great War in that it did not suffer from a serious breakdown of discipline or collapse of morale It did however inevitably suffer from disciplinary problems While attention has hitherto focused on the 312 notorious shot at dawn cases many thousands of British soldiers were tried by court martial during the Great War This book provides the first comprehensive study of discipline and morale in the British Army during the Great War by using a case

study of the Irish regular and Special Reserve battalions In doing so Timothy Bowman demonstrates that breaches of discipline did occur in the Irish regiments but in most cases these were of a minor nature Controversially he suggests that where executions did take place they were militarily necessary and served the purpose of restoring discipline in failing units Bowman also shows that there was very little support for the emerging Sinn Fein movement within the Irish regiments This book will be essential reading for military and Irish historians and their students and will interest any general reader concerned with how units maintain discipline and morale under the most trying conditions *History of the Great War (All 6 Volumes)* Arthur Conan Doyle, 2024-01-18 In *History of the Great War* Arthur Conan Doyle offers a comprehensive narrative that intricately covers the theater of World War I detailing the political social and military aspects that influenced the conflict Written with the meticulous care characteristic of Doyle's literary style the volumes combine vivid storytelling with extensive historical analysis utilizing first hand accounts and military records to provide an authoritative chronicle of the war The book serves as both a cohesive history and a poignant reflection on the human experience during one of the most devastating conflicts in history echoing themes of valor sacrifice and the complexities of modern warfare Arthur Conan Doyle best known for creating the iconic detective Sherlock Holmes was also a keen historian and an impassioned supporter of the British war effort His background as a physician and a life long observer of human behavior lent a unique perspective to his writing allowing him to capture the emotional and psychological dimensions of soldiers and civilians alike Doyle's own experiences during the war including serving as a volunteer physician deeply informed his insights and inflected his narrative with a sense of urgency and authenticity This extensive six volume work is indispensable for historians scholars and enthusiasts of military literature It not only illuminates the events of World War I but also invites readers to contemplate the broader implications of war on society Doyle's blend of narrative prowess and historical rigor makes this series an essential addition to any library offering an invaluable resource for understanding the Great War's lasting impact **Oxford in the Great War** Malcolm Graham, 2014-11-30 This book tells the fascinating and largely forgotten story of Oxford's part in the Great War The University City became a military training camp as soldiers and officer cadets occupied men's colleges left virtually empty as undergraduates enlisted Public buildings were converted into military hospitals where many war casualties were treated The City also took in Belgian and Serbian refugees Oxford dons engaged in vital war work and academic life largely depended upon the women's colleges Local industries including Morris's new car factory at Cowley converted to war production and women made munitions or replaced men in other work Fear of invasion sparked the formation of a Dad's Army and a black out protected the City from air raids Civilians especially women supported the war effort through fund raising and voluntary work They also cultivated war allotments as food shortages led to communal kitchens and rationing This expert account shows a civilian population coping with anxiety during a titanic struggle in which college heads and the humblest citizens were afflicted equally by the loss of loved ones **Worcestershire Regiment in the Great War Vol 2**

**The Territorial Force at War, 1914-16** W. Mitchinson, 2014-10-02 William Mitchinson analyses the role and performance of the Territorial Force during the first two years of World War I The study looks at the way the force was staffed and commanded its relationship with the Regular Army and the War Office and how most of its 1st Line divisions managed to retain and promote their local identities

**The Story of the Great War, Volume 8 (END)** Churchill, Miller, and Reynolds, 2016-02-19 World War I WWI or WW1 also known as the First World War or the Great War was a global war centred in Europe that began on 28 July 1914 and lasted until 11 November 1918 More than 70 million military personnel including 60 million Europeans were mobilised in one of the largest wars in history Over 9 million combatants and 7 million civilians died as a result of the war including the victims of a number of genocides a casualty rate exacerbated by the belligerents technological and industrial sophistication and the tactical stalemate caused by trench warfare a grueling form of warfare in which the defender held the advantage It was one of the deadliest conflicts in history and paved the way for major political changes including revolutions in many of the nations involved The war drew in all the world s economic great powers assembled in two opposing alliances the Allies based on the Triple Entente of the United Kingdom British Empire

France and the Russian Empire versus the Central Powers of Germany and Austria Hungary Although Italy was a member of the Triple Alliance alongside Germany and Austria Hungary it did not join the Central Powers as Austria Hungary had taken the offensive against the terms of the alliance These alliances were reorganised and expanded as more nations entered the war Italy Japan and the United States joined the Allies while the Ottoman Empire and Bulgaria joined the Central Powers The trigger for the war was the assassination of Archduke Franz Ferdinand of Austria heir to the throne of Austria Hungary by Yugoslav nationalist Gavrilo Princip in Sarajevo on 28 June 1914 This set off a diplomatic crisis when Austria Hungary delivered an ultimatum to the Kingdom of Serbia and entangled international alliances formed over the previous decades were invoked Within weeks the major powers were at war and the conflict soon spread around the world On 28 July the Austro Hungarians declared war on Serbia and subsequently invaded As Russia mobilised in support of Serbia Germany invaded neutral Belgium and Luxembourg before moving towards France leading the United Kingdom to declare war on Germany After the German march on Paris was halted what became known as the Western Front settled into a battle of attrition with a trench line that would change little until 1917 Meanwhile on the Eastern Front the Russian army was successful against the Austro Hungarians but was stopped in its invasion of East Prussia by the Germans In November 1914 the Ottoman Empire joined the Central Powers opening fronts in the Caucasus Mesopotamia and the Sinai Italy joined the Allies in 1915 and Bulgaria joined the Central Powers in the same year while Romania joined the Allies in 1916 followed by United States in 1917 The Russian government collapsed in March 1917 and a subsequent revolution in November brought the Russians to terms with the Central Powers via the Treaty of Brest Litovsk which constituted a massive German victory After a stunning German offensive along the Western Front in the spring of 1918 the Allies rallied and drove back the Germans in a series of successful offensives On 4 November 1918 the Austro Hungarian empire agreed to an armistice and Germany which had its own trouble with revolutionaries agreed to an armistice on 11 November 1918 ending the war in victory for the Allies By the end of the war the German Empire Russian Empire Austro Hungarian Empire and the Ottoman Empire had ceased to exist National borders were redrawn with several independent nations restored or created and Germany's colonies were parceled out among the winners During the Paris Peace Conference of 1919 the Big Four Britain France the United States and Italy imposed their terms in a series of treaties The League of Nations was formed with the aim of preventing any repetition of such a conflict This however failed with economic depression renewed European nationalism weakened member states and the German feeling of humiliation contributing to the rise of Nazism These conditions eventually contributed to World War II

Miners' Battalion Malcolm Keith Johnson, 2017-03-30 The true nature and functions of a pioneer battalion were never fully understood during the war either by military or laymen. Pioneers pioneered a red-hatted Staff Captain to me the other day. Sort of labor battalion aren't you? We sure are, I agreed. These words written by Captain R. Ede England who served with 12th King's Own Yorkshire Light Infantry during the whole of the Great War are as true today as they were when he wrote the original history of the battalion in the early 1920s. Little is known or understood of the contribution made by the many thousands of men who served with the original Pioneer battalions. Building and repairing roads, bridges, railway lines, gun emplacements and laying barbed wire to protect the Front Line were just some of the tasks that they performed on a regular basis. Fortunately, the subject of the British Army's logistical support in the war zone during the new industrialized warfare that developed between 1914 and 1918 is now being examined in greater detail. Miners' Battalion: A History of the 12th Pioneers, King's Own Yorkshire Light Infantry 1914-1918 follows the battalion throughout the war and shows how the men, mainly Yorkshire miners, applied their civilian skills to the purposes of war. It also reveals that in 1918, when forced to fight as infantrymen, the battalion performed with distinction, gaining the nickname the Yorkshire Guards.

Colonial Encounters in a Time of Global Conflict, 1914-1918 Santanu Das, Anna Maguire, Daniel Steinbach, 2021-09-28 This volume gathers an international cast of scholars to examine the unprecedented range of colonial encounters during the First World War. More than four million men of color and an even greater number of white Europeans and Americans crisscrossed the globe. Others in occupied areas behind the warzone or in neutral countries were nonetheless swept into the maelstrom. From local encounters in New Zealand, Britain and East Africa to army camps and hospitals in France and Mesopotamia, from cafes and clubs in Salonika and London to anticolonial networks in Germany, the USA and the Dutch East Indies, this volume examines the actions and experiences of a varied company of soldiers, medics, writers, photographers and revolutionaries to reconceptualize this conflict as a turning point in the history of global encounters. How did people interact across uneven intersections of nationality, race, gender, class, religion and language? How did encounters, direct and mediated, forced and unforced, shape issues from cross-racial intimacy and

identity formation to anti colonial networks civil rights movements and visions of a post war future The twelve chapters delve into spaces and processes of encounter to explore how the conjoined realities of war race and empire were experienced recorded and instrumentalized

the day of stress and trouble is that with manhood suffrage goes manhood obligation for service not necessarily with arms in hand but for service somewhere in that great complex mass which constitutes the organization of a nation's might and resources for defense organization which will make us think in terms of the nation and not those of city State or personal interest organization which will result in all performing service for the nation with singleness of purpose in a common cause preparedness for defense preparedness to discharge our plain duty whatever it may be Such service will make for national solidarity the doing away with petty distinctions of class and creed and fuse the various elements of this people into one homogeneous mass of real Americans and leave us a better and a stronger people Once such a moral organization is accomplished the remaining organization will be simple This will include an organization of transportation on land and sea and of communications An organization of the nation's industrial resources so that the energy of its great manufacturing plants may be promptly turned into making what they can best make to supply the military needs of the nation By military needs we mean all the complex requirements of a nation engaged in war requirements which are many of them requirements of peace as well as of war It will also include a thorough organization of the country's chemical resources and the development thereof so that we may be as little dependent as possible upon materials from overseas At present many important and essential elements come from overseas nations and would not be available in case of loss of sea control
