Pioneer In Peace Psychology Milton Schwebel Special Issue Of Peace And Conflict:

Pioneer in Peace Psychology Richard V. Wagner, 2004-02-01 This issue is the first in a projected series of issues devoted to the contributions of pioneers in the field of peace psychology starting with Peace and Conflict Founding Editor Milton Schwebel This inaugural issue presents not only portions of the interview with Schwebel but a brief resum and representative publications for each decade 1940 2000 It continues with statements from three of his colleagues providing accounts of his importance to them Then a paper dealing with the moral development of child soldiers in conflict throughout the world is discussed Finally Schwebel s recent book is the subject of a Review Essay Pioneers in Peace Psychology Richard V. Wagner, 2014-05-12 First published in 2005 This is a Special Issue of Peace and Conflict Journal of Peace Psychology Volume 11 Number 4 2005 focusing on Doris K Miller It includes works on her being an active psychologist as being a pioneer of peace psychology and social responsibility as well as a personal account of her being a colleague and a friend *Pioneers of Peace Psychology* Richard V. Wagner, 2005-03-01 This unique journal is guided by the vision of a world in which peaceful means of resolving conflict prevail over violent ones and in which equity and social justice are hallmarks of all relations This special edition celebrates the early pioneer Ralph K White **Morton Deutsch: A Pioneer in Developing Peace Psychology** Peter T. Coleman, Morton Deutsch, 2015-01-21 Commemorating Morton Deutsch s 95th birthday this book presents ten major texts by this highly respected social psychologist on war and peace This first volume presents Deutsch in his role as a leading social science activist on issues of war and peace writing papers making speeches and participating in demonstrations After serving in the U S Air Force during World War II and being awarded two Distinguished Flying Cross medals as a psychologist he was determined to work for a more peaceful world Influenced by Kurt Lewin who believed that nothing was as practical as a good theory Deutsch pursued theoretical work on such issues as cooperation competition conflict resolution and social justice with regard to issues of war and peace As President of the Society for the Study of Peace Conflict and Violence the Society for the Psychological Study of Social Issues and the International Society of Political Psychology he helped to foster social science efforts to make for a more peaceful world **Morton Deutsch: Major Texts on Peace Psychology** Peter T. Coleman, Morton Deutsch, 2015-01-21 Commemorating Morton Deutsch s 95th birthday this book presents ten major texts by this highly respected social psychologist on war and peace This second volume presents Deutsch in his role as a leading social science activist on issues of war and peace writing papers making speeches and participating in demonstrations After serving in the U S Air Force during World War II and being awarded two Distinguished Flying Cross medals as a psychologist he was determined to work for a more peaceful world Influenced by Kurt Lewin who believed that nothing was as practical as a good theory Deutsch pursued theoretical work on such issues as cooperation competition conflict resolution and social justice with regard to issues of war and peace As President of the Society for the Study of Peace Conflict and Violence the Society for the Psychological Study of Social Issues and the International Society of

Political Psychology he helped to foster social science efforts to make for a more peaceful world **Civil Political Discourse** Milton Schwebel, 2001-02-12 This special issue is an outgrowth of the work to increase constructiveness of political discourse through the application of psychological theory and research The main article discusses the nature of political discourse its role in democratic decision making and the intentions of the founders of American democracy in placing political discourse at the center of civic life It also addresses the characteristics that founders and early American citizens gave to political discourse other forms of political persuasion and the role of psychology in maintaining the health of democracy A theory program of research and normative procedure for ensuring that political discourse is conducted in constructive ways are then described It is followed by a series of commentaries remarking on issues raised by the main article Peace Psychology Herbert H. Blumberg, A. Paul Hare, Anna Costin, 2006-12-07 This textbook provides a comprehensive introduction to peace psychology covering interdisciplinary practice primary psychological topics core peace studies topics and terrorism Peace by Forceful Means? Milton Schwebel, 1999-03 Taken together this collection of papers studies the question do we have the capability to live in a world that will resolve its differences by peaceful means or is violence just an incontrovertible fact of every day life Even as we struggle to achieve the civilized status of using peaceful means to maintain the peace we must not deny the grim realities of life today This varied group of articles contributes to this important and ongoing debate *Millennium Issue II* Abelardo Brenes, 2001-09 To build cultures of peace one must often lay aside the expert label and become a student in the world who is willing to learn from other cultures in pursuit of peace To set up an intercultural dialogue on this topic the Committee for the Psychological Study of Peace in conjunction with the University for Peace and the Institute for Psychological Research of the University of Costa Rica sponsored the 6th International Symposium on the Contribution of Psychology to Peace This special issue extends the dialogue which began at the Symposium Aiming to help define the role and contributions of psychologists in building cultures of peace the articles in this issue address topics relating to human rights how psychologists can contribute to democratization how psychology has much to say on the causes and dynamics of intolerance and the processes of building tolerance in the context of intergroup relations how psychology can contribute to understanding and fostering nonviolence how cultures of peace will not be possible without a concerted effort to bring about global environmental security and that our failure to restore environmental health is fundamentally a psychological problem and psychologically informed policies for the promotion of cultures of peace including the importance of gender equity *Special Issue: Peace Psychology*, 2013 *Enlarging the Scope of Peace Psychology* Mohamed Seedat, Shahnaaz Suffla, Daniel J. Christie, 2016-12-06 With the major goal of building an inclusive international community that promotes peace related research and action this volume reflects on local national and global peace engagement and works towards transdisciplinary understandings of the role of psychology in peace conflict and violence Drawn primarily from 14th Biennial International Symposium on the Contributions of Psychology the chapters focus

on peacemaking or the pursuit of harmony in human relations and peacebuilding or equity in human relations with a special emphasis on voices from typically underrepresented areas in psychology such as the Global South In order to move beyond a Western centered idea of peace psychology the volume is divided into two major parts The first half of the volume puts an emphasis on peace psychology research and praxis in a number of geohistorical contexts including Malaysia Northern Ireland Thailand and Kashmir that bear on conflict harmony and equity in human relations Chapters in the second half of the volume fulfill the mandate of Biennial Symposia namely to create more equity in the production of peace theory and praxis by bringing forward the voices of scholars and change agents that are often unheard in peace discourses including a number of scholars and chapters from South Africa Additionally throughout the chapters the authors and editors of the volume emphasize emancipatory agendas as an important alternative to militarism and state sponsored violence With the aim of bringing forward voices from cultures and situations that are typically not included or highly visible in peace discourses Enlarging the Scope of Peace Psychology in Invited and Invented Spaces African and World Regional Contributions is a thought provoking timely and informative work Psychologists anthropologists sociologists political scientists activists public policy makers and all those interested in promoting peace and justice are sure to find this an invaluable and illuminating resource

Peace and Conflict Studies David P Barash, Charles P Webel, 2002-03-19 I teach an introductory course on this topic and can think of no other useful text in the field I like the organization and scope of this volume beginning with the nature and causes of war then proceeding to negative peace and then positive peace I also liked the extensive use of literary fragments my students would relate to that There s a need for it and I think the authors are on the right track Michael Klare Hampshire College This core textbook comprehensively introduces students to the relatively young interdisciplinary field of peace and conflict studies This field is unabashedly value oriented and although the authors are up front about their own values and opinions they attempt to present all sides of complex debates to assist students in forming personal and social opinions insisting only that those opinions be informed by serious intellectual effort A hallmark of the book is an effort to encourage independent and critical thinking among student readers The Peace Psychology Bulletin ,1992

Methodologies in Peace Psychology Diane Bretherton, Siew Fang Law, 2015-09-03 This volume looks at research methods through the lens of peace studies and peace values Apart from reviewing established methods from peace psychology it presents some innovative ideas for conducting research in the area of peace psychology Many of these methods are drawn from the field from activities used by active peace practitioners A critical component of this volume is its core argument that peace research should be conducted by peaceful means and should model peaceful processes Organized thematically the volume begins with a review of the established best practices in peace psychology research methodology including methods for qualitative research for quantitative research and participative action networks In doing so it also points to some of the limitations of working for peace within the tradition of a single discipline and to the need to expand

psychology methodology to methodologies Therefore the second half of the volume proceeds to explore the realm of innovative relatively unorthodox research methods such as participatory and workshop methods the creative arts and sports for research purposes The use of new advances in information technology to conduct peaceful research are also discussed The concluding chapters synthesize key issues from the previous chapters and links peace psychology with ideas and implementation of research designs and practices Finally it discusses the nature of academic knowledge and more specifically academic knowledge in peace psychology and where that fits into the mission to build a more peaceful world Overall this book aims to provide peace psychologists with an array of possibilities and best practices for approaching their research Many researchers find the experience of doing research a somewhat lonely if not isolating experience

Methodologies in Peace Psychology Peace Research by Peaceful Means aims to alleviate this feeling as the use of these more innovative methods leads to a closer engagement with the community and a much more social experience of research This volume is a useful tool for both new and experienced researchers because it provides leads for idealistic young researchers who want their work to make a difference in addition to encouraging more reflection and analysis for experienced peace psychologists

Peace, Conflict, and Violence Daniel J. Christie, Richard V. Wagner, Deborah Du Nann Winter, 2001 For courses in peace studies peace education international studies psychology political science anthropology and sociology It is also appropriate for any course that addresses conflict including conflict resolution violence and peace Peace Conflict and Violence brings together the key concepts themes theories and practices that are defining peace psychology as we begin the 21st century This comprehensive book is rooted in psychology but includes a wide range of interpersonal community national and international contexts multiple levels of analysis from micro to macro and multi disciplinary perspectives It reflects the breadth of the field and captures the main intellectual currents in peace psychology

The Psychology of Peace Rachel MacNair, 2003 A guide for activists and researchers examines the causes and effects of violence behavior intended to counter violence conflict resolution and nonviolent resistance

Johan Galtung Johan Galtung, Dietrich Fischer, 2013-05-29 This is the first ever anthology of key articles by Johan Galtung widely regarded as the founder of the academic discipline of peace studies It covers such concepts as direct structural and cultural violence theories of conflict development civilization and peace peaceful conflict transformation peace education mediation reconciliation a life sustaining economy macro history deep culture and deep structure and social science methodology Galtung has contributed original research concepts and theories to more than 20 social science disciplines including sociology international relations and future studies and has also applied his new insights in practice The book is a valuable resource for researchers and practitioners and can serve as a supplemental textbook for graduate and upper undergraduate courses in peace studies and related fields

Peace, Conflict, and Violence Daniel J. Christie, Richard V. Wagner, 2008-01-01

Understanding Conflict and Promoting Peace Andy Dawes, 1997 This series of articles presents different points of view and varying approaches to understanding the peace

issues in South Africa as discussed at the 4th International Symposium on the Contributions of Psychology to Peace held in Cape Town Psychological Components of Sustainable Peace Peter T. Coleman, Morton Deutsch, 2012-06-15 Scholarship on the psychology of peace has been accumulating for decades The approach employed has been predominantly centered on addressing and preventing conflict and violence and less on the conditions associated with promoting peace Concerns around nuclear annihilation enemy images discrimination denial of basic human needs terrorism and torture have been the focal points of most research The Psychological Components of a Sustainable Peace moves beyond a prevention orientation to the study of the conditions for increasing the probabilities for sustainable cooperative peace Such a view combines preventative scholarship with a promotive orientation to the study of peaceful situations and societies The contributors to this volume examine the components of various psychological theories that contribute to the promotion of a harmonious sustainable peace Underlying this orientation is the belief that promoting the ideas and actions which can lead to a sustainable harmonious peace will not only contribute to the prevention of war but will also lead to more positive constructive relations among people and nations and to a more sustainable planet The Psychological Components of a Sustainable Peace is valuable and stimulating reading for researchers in peace psychology political psychology and conflict resolution as well as others who are interested in developing a sustainable harmonious world
