Pioneers In American Anthropology Volume 1:

Inventing the American Primitive Helen Carr,1996-07 Inventing the American Primitive examines a body of work both literary and anthropological that describes inscribes translates and transforms Native American myths and poetry Drawing on post colonial and feminist theory as well as ethnography s recent textual turn Carr reveals the conflicts and ambivalence in these texts Through their writings the writers and anthropologists studied were attempting to preserve a culture which their country with their help or connivance sought to destroy The contradictions and tensions of this position run throughout their work Although there is no simple narrative of progress in this story as it moves from the eighteenth century primitivism to twentieth century modernism the book shows the process by which the richness and complexity of Native American traditions came to be acknowledged

Visual Culture of the Ancient Americas Esther Pasztory,2017-01-26 In the past fifty years the study of indigenous and pre Columbian art has evolved from a groundbreaking area of inquiry in the mid 1960s to an established field of research This period also spans the career of art historian Esther Pasztory Few scholars have made such a broad and lasting impact as Pasztory both in terms of our understanding of specific facets of ancient American art as well as in our appreciation of the evolving analytical tendencies related to the broader field of study as it developed and matured The essays collected in this volume reflect scholarly rigor and new perspectives on ancient American art and are contributed by many of Pasztory s former students and colleagues A testament to the sheer breadth of Pasztory s accomplishments Visual Culture of the Ancient Americas covers a wide range of topics from Aztec picture writing to nineteenth century European scientific illustration of Andean sites in Peru The essays written by both established and rising scholars from across the field focus on three areas the ancient Andes including its representation by European explorers and scholars of the nineteenth century Classic period Mesoamerica and its uses within the cultural heritage debate of the twentieth and twenty first centuries and Postclassic Mesoamerica particularly the deeper and heretofore often hidden meanings of its cultural production Figures maps and color plates demonstrate the vibrancy and continued allure of indigenous artworks from the ancient Americas Pre Columbian art can give more Pasztory declares and the scholars featured here make a compelling case for its incorporation into art theory as a whole The result is a collection of essays that celebrates Pasztory s central role in the development of the field of Ancient American visual studies even as it looks toward the future of the discipline

Against the Anthropological Grain Wilcomb E. Washburn,1998 In Against the Anthropological Grain Washburn critically examines key anthropological beliefs especially in the importance of cultural relativism and Western colonialism s harmful effects on Third World cultures He turns the tables on theorists from the discipline He questions whether anthropology has a credible past whether anthropologists should even involve themselves in inter tribal conflicts whether museums should return sacred objects from their collections and whether museums provide adequate physical care of their collections

American Antiquities Terry A. Barnhart,2015-11-01 Writing the history of American

archaeology especially concerning eighteenth and nineteenth century arguments is not always as straightforward as it might seem Archaeology's trajectory from an avocation to a semi profession to a specialized profession rather than being a linear progression was an untidy organic process that emerged from the intellectual tradition of antiquarianism It then closely allied itself with the natural sciences throughout the nineteenth century especially with geology and the debate about the origins and identity of the indigenous mound building cultures of the eastern United States In his reexamination of the eclectic interests and equally varied settings of nascent American archaeology Terry A Barnhart exposes several fundamental deeply embedded historiographical problems within the secondary literature relating to the nineteenth century debate about Mound Builders and American Indians Some issues are perceptual others contextual and still others are basic errors of fact Adding to the problem are semantic and contextual considerations arising from the problematic use of the term race as a synonym for tribe nation and race proper a concept and construct that does not in all instances translate into current understanding and usage American Antiquities uses this early discourse on the mounds to reframe perennial anthropological problems relating to human origins and antiquity in North America

The Life of Saul Bellow, Volume 1

Zachary Leader, 2015-05-05 For much of his adult life Saul Bellow was the most acclaimed novelist in America the winner of among other awards the Nobel Prize in Literature three National Book Awards and the Pulitzer Prize The Life of Saul Bellow by the literary scholar and biographer Zachary Leader marks the centenary of Bellow's birth as well as the tenth anniversary of his death It draws on unprecedented access to Bellow's papers including much previously restricted material as well as interviews with more than 150 of the novelist's relatives close friends colleagues and lovers a number of whom have never spoken to researchers before Through detailed exploration of Bellow's writings and the private history that informed them Leader chronicles a singular life in letters offering original and nuanced accounts not only of the novelist's development and rise to eminence but of his many identities as writer polemicist husband father Chicagoan Jew American The biography will be published in two volumes The first volume To Fame and Fortune 1915-1964 traces Bellow's Russian roots his birth and early childhood in Quebec his years in Chicago his travels in Mexico Europe and Israel the first three of his five marriages and the novels from Dangling Man and The Adventures of Augie March to the best selling Herzog New light is shed on Bellow's fellow writers including Ralph Ellison John Berryman Lionel Trilling and Philip Roth and on his turbulent and influential life away from the desk which was as full of incident as his fiction Bellow emerges as a compelling character and Leader's powerful accounts of his writings published and unpublished forward the case for his being as the critic James Wood puts it the greatest of American prose stylists in the twentieth century

The Evolution of Culture

Leslie A White, 2016-06-16 One of the major works of twentieth century anthropological theory written by one of the discipline's most important complex and controversial figures has not been in print for several years Now Evolution of Culture is again available in paperback allowing today's generation of anthropologists new access to Leslie White's crucial contribution to the

theory of cultural evolution A new substantial introduction by Robert Carneiro and Burton J Brown assess White s historical importance and continuing influence in the discipline White is credited with reintroducing evolution in a way that had a profound impact on our understanding of the relationship between technology ecology and culture in the development of civilizations A materialist he was particularly concerned with societies ability to harness energy as an indicator of progress and his empirical analysis of this equation covers a vast historical span Fearlessly tackling the most fundamental questions of culture and society during the cold war White was frequently a lightning rod both inside and outside the academy His book will provoke equally potent debates today and is a key component of any course or reading list in anthropological or archaeological theory and cultural ecology

Pages from Hopi History Harry C. James, 2021-11-23 More than half a century of contact between the author and the Hopi people has resulted in an unusual opportunity for long informative talks with friends from the villages These conversations in a variety of circumstances have helped to give depth to an understanding and appreciation uncommon among persons not born and raised in the Hopi way This work gives a comprehensive view of the Hopi as a people in length of time covered as well as in depth and breadth Utah Historical Quarterly It is personal yet precise emotional and involved yet objective and factual Readers who know something of Hopi history will be fascinated by the new insights and interpretations presented by James Arizona and the West The author has been an active supporter of Hopi interests for some fifty years and this book is as much a testimony to his unflagging personal devotion to a small and neglected tribe as it is a history of the Hopis determination to maintain their identity and self respect Journal of Arizona History Harry James writes with sympathy and restraint about a proud people who have suffered unjustly in the past and who today are seeking an identity He brings into sharp focus the dreams for tomorrow of the Hopi tribe Let these dreams be shared by others before it is too late The American West An amazing and gripping account of a very great and intelligent people concentrating on fact rather than the fantastic legends that have grown up around this unique culture The Masterkey The Hopi are indeed a most interesting people and this authentic account of their way of life is a valuable contribution to our knowledge of the Indian tribes of Arizona The Book Exchange For an excellent account of the history of the Hopi the Southwest typical government intervention into tribal affairs and the lives of the people a must for any library Whispering Winds

Sessional Papers Canada. Parliament, 1912 Report of the Dominion fishery commission on the fisheries of the province of Ontario 1893 issued as vol 26 no 7 supplement *Handbook of the Indians of Canada...* Geographic Board Canada, 1913 The Publishers' Trade List Annual , 1899 Catalogue of the California State Library California State Library, 1889 Pioneers, Settlers, Aliens, Exiles J. L. Fisher, 2010-03-01 What did the future hold for Rhodesia s white population at the end of a bloody armed conflict fought against settler colonialism Would there be a place for them in newly independent Zimbabwe PIONEERS SETTLERS ALIENS EXILES sets out the terms offered by Robert Mugabe in 1980 to whites who opted to stay in the country they thought of as their home The book traces over the next two

decades their changing relationship with the country when the post colonial government revised its symbolic and geographical landscape and reworked codes of membership Particular attention is paid to colonial memories and white interpellation in the official account of the nation's rebirth and indigene discourses in view of which their attachment to the place shifted and weakened As the book describes the whites trajectory from privileged citizens to persons of disputed membership and contested belonging it provides valuable background information with regard to the land and governance crises that engulfed Zimbabwe at the start of the twenty first century

Evolution and Ecology Julian Haynes Steward, 1977 **Women of the New Mexico Frontier, 1846-1912** Cheryl J. Foote, 2005-05-08 Biographies of and a collection of writings by women who for various reasons found themselves living in New Mexico Territory from the mid nineteenth century to the beginning of World War I A Century of Controversy Elman R Service, 2014-05-10 A Century of Controversy Ethnological Issues from 1860 to 1960 is an assessment of the history of ethnology in terms of its intellectual progress with emphasis on the controversial issues that were broached between 1860 and 1960 Two related philosophical or theoretical poses that characterized the prominent ethnological thinkers of this period and earlier are related to this phenomenon One was the prevalent positivism the other the belief in human progress as a form of social cultural and mental evolution Comprised of 19 chapters this volume begins by looking at several eminent scholars dealing more closely with the subject of ethnology including Henry Maine and John F McLennan in Great Britain Johann J Bachofen in Switzerland and Fustel de Coulanges in France In particular the chapter examines the disagreement among Maine Bachofen McLennan and Fustel de Coulanges as to the nature of the earliest society and its form of marriage the nature of the evolutionary transformations of society especially from primitive society to civilization and the actual meaning and function of kinship terminology The next two chapters describe the positive useful discoveries as well as the mistakes and weaknesses of Lewis H Morgan's work with particular reference to his classificatory kinship nomenclature Subsequent sections focus on controversies surrounding kinship terminology social structure the origins of government the economic life of primitive peoples and society and culture This book will be of interest to scholars of anthropology archaeology and ethnology The Pacific Historical Review Anna Marie Hager, 1976 **Sarah Bowdich Lee (1791-1856) and Pioneering Perspectives on Natural History** Mary Orr, 2024-09-17 History from below uncovers overlooked protagonists contributing to international endeavour often against considerable odds Mrs T Edward Bowdich then Mrs R Lee 1791 1856 is indicative When women allegedly cannot participate in early nineteenth century scientific exploration discovery and publication Sarah's multiple specialist contributions to French and British natural history have attracted no book length study This first appraisal of Sarah's unbroken production of discipline changing scientific work over three decades in modern ichthyology in historical geography of West Africa and in the next generational dissemination of expert scientific knowledge does more than fill this gap The book also pivotally investigates the intercultural interdisciplinary and multi genre reach of Sarah's pioneering

perspectives and contributions and how she could achieve her work independently in her own name s over three decades Sarah s larger significance is then to provide a very different narrative for women at work in expert nineteenth century natural history making By everywhere challenging the secondary minor and domestic frames for women s contributions of the period the pioneering perspectives of Sarah s story also provide alternative paradigms to the leaky pipeline model still informing women s careers and work in STEM M today [Anthropology's Global Histories](#) Rainer F. Buschmann, 2008-10-31 Anthropologists and world historians make strange bedfellows Although the latter frequently employ anthropological methods in their descriptions of cross cultural exchanges the former have raised substantial reservations about global approaches to history Fearing loss of specificity anthropologists object to the effacing qualities of techniques employed by world historians this despite the fact that anthropology itself was a global comparative enterprise in the nineteenth century Rainer Buschmann here seeks to recover some of anthropology s global flavor by viewing its history in Oceania through the notion of the ethnographic frontier the furthestmost limits of the anthropologically known regions of the Pacific The colony of German New Guinea 1884 1914 presents an ideal example of just such a contact zone Colonial administrators there were drawn to approaches partially inspired by anthropology Anthropologists and museum officials exploited this interest by preparing large scale expeditions to German New Guinea Buschmann explores the resulting interactions between German colonial officials resident ethnographic collectors and indigenous peoples arguing that all were instrumental in the formation of anthropological theory He shows how changes in collecting aims and methods helped shift ethnographic study away from its focus on material artifacts to a broader consideration of indigenous culture He also shows how ethnological collecting often a competitive affair could become politicized and connect to national concerns Finally he places the German experience in the broader context of Euro American anthropology Anthropology s Global Histories will interest students and scholars of anthropology history world history and Pacific studies [Burma, Kipling and Western Music](#) Andrew Selth, 2016-11-03 For decades scholars have been trying to answer the question how was colonial Burma perceived in and by the Western world and how did people in countries like the United Kingdom and United States form their views This book explores how Western perceptions of Burma were influenced by the popular music of the day From the First Anglo Burmese War of 1824 6 until Burma regained its independence in 1948 more than 180 musical works with Burma related themes were written in English speaking countries in addition to the many hymns composed in and about Burma by Christian missionaries Servicemen posted to Burma added to the lexicon with marches and ditties and after 1913 most movies about Burma had their own distinctive scores Taking Rudyard Kipling s 1890 ballad Mandalay as a critical turning point this book surveys all these works with emphasis on popular songs and show tunes also looking at classical works ballet scores hymns soldiers songs sea shanties and film soundtracks It examines how they influenced Western perceptions of Burma and in turn reflected those views back to Western audiences The book sheds new light not only on the West s historical relationship with Burma and the

colonial music scene but also Burma's place in the development of popular music and the rise of the global music industry. In doing so it makes an original contribution to the fields of musicology and Asian Studies. **Encyclopaedia Britannica**
