Pipe Dreams Greed Ego The Death Of Enron:

Pipe Dreams Robert Bryce, 2002-10-09 There is also a devastating profile of Rebecca Mark a largely ignored player in the Enron saga whose bad deals in India and the water business cost investors 2 billion BOOK JACKET **Eloquence of Effort** Indar Maharaj, 2017-09-27 The Eloquence of Effort echoes the merits of conscientious toil It provides an insightful look into the benefits of sustained socio economic effort To convincingly argue that dreams are only achievable through mind numbing toil the writer draws heavily from biographical philosophical economic religious historical and scientific data Work is the mission the multiple rewards are the byproducts he argues Moreover the pleasure resides in the effort not the results Against the dark backdrop of malignancies inflicted on society by unrepentant leeches the benefit of conscientious work is sharply focused The reader is imperceptibly nudged into a higher plane of reality namely purposeful effort regardless of its nature is supremely rewarding The writer forces the realization that regardless of the outcome effort is never wasted Conversely indolence is the bane of progress and the root cause of economic crimes Indeed corruption in all its diabolical forms is nothing but laziness masquerading as diligence and embraced by vacuous minds craving the most for the least Analysis of biographical data sustains the thesis that industry prolongs life inaction truncates it a finding supported by the second Law of Thermodynamics The persuasiveness of the arguments is supported by a wealth of references Together they form the final authority they have given resonance to the arguments contained herein **The Eloquence of Effort**, 2017-11-28 The contents of The Eloquence of Effort Beware the Path of Least Resistance are deeply moored in the principles of Entropy to wit the tendency of all things events to spontaneously degenerate into chaos unless of course there is an infusion of human energy It is a universal law chaos is spontaneous solutions demand effort Have you ever wondered why things naturally break up breakdown degenerate depreciate or simply fall apart Why is Alzheimer's Disease more prevalent among the lesser educated Why is physical exercise a vital component to a healthier lifespan Consider two cars an old and a new abandoned under similar conditions Revisited a 100 years later the new would deteriorate while the old would disintegrate into untraceable dust But why not the reverse As the new car aged into a rusted rattle trap the old retrogressed into a spanking new car Just the way the universe operates you exclaim Answers to these questions reside in the forces governing Second Law of Thermodynamics sometimes referred to as the Law of Entropy To prevent being submerged under an Entropic tsunami of destruction one must apply personal effort Failure to do so can only result in catastrophe Over 700 years ago the concept was succinctly captured by the polymath Leonardo da Vinci He wrote that God sells us all things at the price of labor Arguing that dreams are only achievable through sustained effort the book relies heavily on biographical philosophical economic religious historical and scientific data Accordingly work is the mission the multiple rewards are the byproducts More significantly the pleasure resides in the effort not the outcome Against the dark backdrop of malignancies inflicted on society by unrepentant leeches the benefits of unstinting diligence are sharply focused The reader is nudged into a higher

plane of reality namely purposeful effort is rewarding Hence regardless of the end result effort is never wasted Conversely indolence is the bane of progress the root cause of socio economic crimes and social chaos Indeed corruption in all its diabolical forms is nothing but laziness masquerading as diligence Analysis of biographical data sustains the thesis that hard work extends life indolence shortens it Moreover indolence in all its fiendish forms is causally related to personal chaos The terminally lazy degenerate Pablo Escobar validates this principle when he prophetically asserted that no drug dealer ever died of old age He was right at age 44 he was slaughtered The persuasiveness of the arguments is supported by a wealth of references Together they form the final authority they lend credence to the arguments provided
